REPORT DETAILS

1.00	EXPLAINING THE NORTH WALES ECONOMIC AMBITION BOARD FINAL GROWTH DEAL
1.01	Background
1.02	The North Wales Growth Deal is a portfolio consisting of 5 programmes to be delivered over the next 15 years. It is to be delivered by the Portfolio Management Office on behalf of the North Wales Economic Ambition Board.
1.03	The Growth Deal is seeking to deliver a total investment of up to £1.1bn in the North Wales economy (£240m from the Growth Deal), to create 3,400 – 4,200 net additional jobs and generate £2.0- £2.4 billion in net additional GVA.
1.04	The five programmes include 14 projects, which have been carefully designed and developed with stakeholders to address specific market failures and barriers to economic growth. Individual project business cases will be developed and will be presented to the NWEAB for approval from January 2021 onwards.
1.05	Overarching Business Plan The Overarching Business Plan developed by the Portfolio Management Office sets out the arrangements for delivering the North Wales Growth Deal, including an overview of the programmes and projects and to seek approval from each partner for the financial implications of delivering the deal.
1.06	A copy of the Overarching Business Plan is available in Appendix 1 .
1.07	The overarching business plan summarises the contents of the Portfolio Business Case and 5 Programme Business Cases. The portfolio business case provides a summary investment proposal for the North Wales Growth Deal, and the Programme Business Cases set out the detail for the programmes. These documents will be presented to both Governments for approval of the Final Deal Agreement.
1.08	The portfolio and programme business cases once approved will be live documents used to manage the delivery of the Growth Deal on an ongoing basis and updated regularly as the programmes and projects develop.
1.09	Final Deal Agreement
1.10	The Heads of Terms Agreement was agreed by the NWEAB, Welsh Government and UK Government in November 2019, with the aim for Final Deal Agreement to be completed in 2020.
1.11	The Draft Final Deal Agreement was developed collaboratively between the NWEAB and both Governments.

1.12	The Final Deal Agreement is the contract between the NWEAB, UK Government and Welsh Government for the delivery of the North Wales Growth Deal.
1.13	The Final Deal will be signed on the basis of the portfolio business case and five programme business cases.
1.14	A copy of the Draft Final Deal Agreement is included in Appendix 2 .
1.15	Governance Agreement 2
1.16	Governance Agreement 2 has been developed by the regional Heads of Legal with expert and independent advice by legal advisers Pinsent Masons.
1.17	Governance Agreement 1 was adopted into in order to take forward the formal offer of funding to both Governments. Government Agreement 2 will take the partnership into the implementation stage of the Growth Deal. The agreement is a partnership agreement between the 6 Local Authorities and the Partner University and College bodies. It continues the governance model adopted in GA1 namely a Joint Committee supported by a host authority and provides for the commitments and responsibilities of the Partners to the partnership. It also defines the relationship between the Board and its constituent Partner organisations, the limits of delegation and accountability.
1.18	Governance Agreement 2 is a necessary element for implementing the Growth Deal. It provides assurance to the Governments as to the governance of the partnership. It establishes a legally binding commitment by and to the Partners and Accountable Body which is necessary to enable the Growth Deal Final Agreement and Grant Letter to be agreed. Without that assurance the Final Deal Agreement and the Grant Offer Letter could not be entered into on behalf of the Partners.
1.19	A more detailed explanatory summary of Governance Agreement 2 is provided in Appendix 3 and a copy of Governance Agreement 2 is included in Appendix 4 .
1.20	REASONS FOR THE DECISION
1.21	In 2016 the North Wales Economic Ambition Board adopted A Growth Vision for the Economy of North Wales. Based on the Growth Vision Strategy, a Growth Deal was prepared and agreed by all the partners working with both the UK and Welsh Government and the private sector in October 2018. In November 2019 the NWEAB and the Welsh and UK Governments agreed the Heads of Terms, for a Final Deal Agreement to be completed in 2020.
1.22	The NWEAB are committed to achieving Final Deal Agreement with both Government before the end of December 2020.
1.23	The Portfolio Management Office have developed the documentation required to submit to both Governments to reach Final Deal Agreement. The contents of these documents are outlined within this report, and copies of the documents attached as appendices.

1.24	Covid-19 Pandemic
1.25	The pandemic emergency has had an immense economic impact on North Wales as in other parts of the UK and globally. The NWEAB has worked closely with the six local authorities, UK and Welsh Governments and private sector representatives to co-ordinate the regional response to economic recovery. The longer-term effects of the pandemic emergency on the regional economy cannot be quantified at this stage of emergency management.
1.26	The Growth Deal is designed to address structural, long-term barriers to economic growth. However, the Board is fully aware that in the short-term a range of actions will be needed to facilitate recovery and alignment between those short-term measures and the Growth Deal is key.
1.27	The Growth Deal alone cannot address all the challenges facing the North Wales economy – now or in the future. However, such a significant injection of capital investment into the North Wales economy through the Growth Deal will be a boost to the construction and related sectors at a time when there is likely to be spare capacity in the economy.
1.28	Final Deal Agreement Process
1.29	To agree the Final Deal with both Governments, the NWEAB have prepared a suite of documents, namely the Overarching Business Plan, Portfolio Business Case, Draft Final Deal Agreement and Governance Agreement 2.
1.30	LEGAL IMPLICATIONS
1.31	The report explains relevant provisions of Governance Agreement 2 (GA2), The Overarching Business Plan (“OBP”) and the Final Deal Agreement. They form part of the legal implications, but in order to avoid duplication are not repeated in this section.
1.32	The recommendations in the report are made pursuant to the powers conferred on the Councils under sections 101, 102, 111 and 113 of the Local Government Act 1972, section 1 of the Local Authority (Goods & Services) Act 1970, section 25 of the Local Government (Wales) Act 1994, section 2, 19 and 20 of the Local Government Act 2000, section 9 of the Local Government Wales Measure 2009 and all other enabling powers now vested in the Councils.
1.33	The provisions of the Local Government and Elections Bill (Wales) 2019 in relation to proposed Corporate Joint Committees (CJC’s) and the recent publication of a consultation document on the proposed regulations are clearly of relevance to the matters addressed in this report. However, the North Wales Economic Ambition Board has been in operation as a formal Joint Committee since January 2019. GA2 does not change this basic governance model but is a necessary component to enable the Partners to commit to the Growth Deal within the given time frame. As a result, there is no proposal to make any changes to the recommendations pending the advent of CJC’s although GA2 does acknowledge the provisions of the Bill and the possibility of future review.

1.34	<p>The OBP is a key document in relation to the delivery of the Growth Deal. The content of the Plan serves to create a legitimate expectation that the Programmes will be progressed as set out in the Plan. Accordingly, it is important that each Partner is content with the content of the OBP. Decisions relating to the delivery of the programmes and projects will need to be considered in accordance with the provision set out in GA2 at which stage any legal issues raised in relation to a specific project can be considered and detailed legal advice provided.</p>
1.35	<p>In considering this matter regard should be had, amongst other matters, to the Councils duties under the Wellbeing of Future Generations (Wales) Act 2015. In summary the Act places a duty on public bodies in to act in accordance with the principle of sustainable development so as to ensure that the needs of the present can be met without undermining the ability of future generations to meet their needs. This is in order to improve the economic, social, environmental and cultural well-being of Wales. The OBP explains that the Wellbeing of Future Generations (Wales) Act 2015 will be intrinsic to the development and implementation of the Growth Vision and Growth deal.</p>
1.36	<p>A Well-being and Equality Assessment has been undertaken and is included in Appendix 5.</p>
1.37	<p>Consideration has been given to public sector duties under the Equalities Act 2010 (including specific Welsh public sector duties). Pursuant to these legal duties Councils must in making decisions have due regard to the need to:</p> <ul style="list-style-type: none"> a. eliminate unlawful discrimination, harassment and victimisation and other conduct that is prohibited by that Act; b. advance equality of opportunity between people who share a relevant protected characteristic and those who do not; c. foster good relations between people who and share a protected characteristic and those who do not.
1.38	<p>In Wales, public sector bodies listed are required to take certain steps in order to demonstrate that they have due regard to the public sector equality duty. These Welsh specific equality duties include assessing the impact of policies and procedures on equality (often called Equality Impact-Assessment).</p>
1.39	<p>The Well-being and Equalities Assessment demonstrates that the detail contained in the preparation of and in the draft OBP demonstrates compliance with the well-being 5 ways of working, supports the well-being goals and identifies that the Growth Vision and Growth Deal will a positive impact on all groups and people with protected characteristics.</p>

2.00	RESOURCE IMPLICATIONS																																																				
2.01	<p>There is a medium-term temporary funding gap between the expected expenditure profile of the Growth Deal and the expected profile of government funding received over 15 years. The NWEAB, through the host authority, will be responsible for managing this negative cash flow, and have worked with Arlingclose to model the cost of borrowing notionally required to facilitate the negative cash flow for the Growth Deal, and the corresponding annual partner contributions required to meet this cost.</p>																																																				
2.02	<p>With a range of assumptions to consider, the NWEAB have forecasted a range of figures, modelled as the best-case scenario (Version 1) and the worst case scenario (Version 2), to reflect the timing of finalising the Growth Deal and consequent timing of government grant funding. The difference between the best and worst-case scenarios highlights the importance of finalising the Growth Deal by the end of the calendar year. In both versions the other variables, i.e. interest rate and NNDR income have remained the same. The interest rate used was 2.2% and is considered to be a prudent assumption. The NWEAB will utilise its “retained” NNDR grant from Welsh Government to offset against the negative cash flow, with the net total cost (£12.46m - £17.73m) met by the local authorities (proportional to population) for regional NWEAB projects, and with project lead sponsors responsible for the costs of own projects.</p>																																																				
2.03	<p>Any changes to the projects, will result in a reserved matter if it means increasing partner contributions (e.g. change from project lead sponsor to NWEAB, lower NNDR yield, higher cost, earlier spend profile).</p>																																																				
2.04	<p>With capital projects, there is always a risk of overspending, and controls will be put in place to limit overspending costs on specific projects. For regional projects, the Portfolio Management Office would be responsible for controlling expenditure and ensuring sufficient contingency budgets are included in the project business cases. Overspend would be for the Lead Sponsor to deal with in relation to their projects.</p>																																																				
2.05	<p>The table below shows the total (15 years) partner contributions to cover the cost of ‘borrowing’ notionally required to facilitate the negative cash flow.</p> <table border="1" data-bbox="328 1637 1366 1798"> <thead> <tr> <th>Version</th> <th>Bangor University</th> <th>Glyndwr University</th> <th>Grŵp Llandrillo Menai</th> <th>Coleg Cambria</th> <th>Other Commerical Partners</th> <th>Conwy</th> <th>Denbighshire</th> <th>Flintshire</th> <th>Gwynedd</th> <th>Isle of Anglesey</th> <th>Wrexham</th> <th>Total</th> </tr> <tr> <th></th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> <th>£m</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>1.40</td> <td>0.51</td> <td>0.75</td> <td>0.52</td> <td>2.29</td> <td>1.17</td> <td>0.96</td> <td>1.56</td> <td>1.24</td> <td>0.70</td> <td>1.36</td> <td>12.46</td> </tr> <tr> <td>2</td> <td>1.99</td> <td>0.73</td> <td>1.07</td> <td>0.74</td> <td>3.24</td> <td>1.67</td> <td>1.36</td> <td>2.22</td> <td>1.77</td> <td>1.00</td> <td>1.94</td> <td>17.73</td> </tr> </tbody> </table>	Version	Bangor University	Glyndwr University	Grŵp Llandrillo Menai	Coleg Cambria	Other Commerical Partners	Conwy	Denbighshire	Flintshire	Gwynedd	Isle of Anglesey	Wrexham	Total		£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	1	1.40	0.51	0.75	0.52	2.29	1.17	0.96	1.56	1.24	0.70	1.36	12.46	2	1.99	0.73	1.07	0.74	3.24	1.67	1.36	2.22	1.77	1.00	1.94	17.73

Foreword

The **Growth Deal** has been developed through close collaboration and commitment, from partners across all sectors including the UK and Welsh Governments, to deliver long-lasting positive investment and change that will enable economic and employment growth for the long-term.

Over the next fifteen years, the deal empowers us to work together and take control of how we invest in our future.

It's a unique opportunity to de-centralise government investment, make those investment decisions locally and demonstrate the value this brings. Ultimately, as part of a broader programme of investment, the Growth Deal will enable us to build a more vibrant, sustainable and inclusive economy for us all in North Wales.

We will be **smart** with our investment - building on our strengths to boost productivity, foster innovation and be competitive in the markets we serve. We already have well-established research and innovation hubs, which are helping us to push the boundaries in discovering new growth areas for our high value manufacturing business. We will invest further to create centres of excellence to enhance our reputation and enable growth in this important industry.

We will tackle the long-term market failure that has been a barrier for commercial investment - making North Wales more investable and unlocking the potential for new high-value skilled jobs, for young people and our future generations to thrive. We'll address the shortage of suitable land and property for business growth and to bring forward sites to provide the employment land and housing we need.

By investing now, we build our **resilience** for the future.

We are **connected** as a region. Our partnership across the six local authorities, universities, colleges and the private sector is well established and growing in strength. We're also driving a step change in digital connectivity by balancing investment in infrastructure and technology. We address those areas most in need of faster and more reliable broadband connections and exploit the potential of 5G access and new digital innovation. Opportunities also lie in our close connections with our neighbouring economies such as the Northern Powerhouse, Ireland and Mid-Wales. We can build stronger economies by working together.

We will strengthen our reputation as a cohesive region; leveraging our partnerships to promote growth in the economy that is scalable, sustainable and inclusive. Our Investment in low-carbon energy projects enable us to contribute directly to the climate change emergency, not only helping to make North Wales a cleaner, greener environment, but also positioning ourselves as one of the leading UK locations within the low carbon energy sector. Not forgetting our foundation economies in agriculture and tourism, we will help to

enable and encourage diversification to improve the long-term future of these key industries, ensuring they have opportunity to develop sustainably and thrive.

We will invest in a way that promotes social value and builds wealth in our communities. We recognise and value our obligation to deliver the Growth Deal in a way that improves and enhances our social, cultural, environmental and economic well-being.

We look forward to leading this important investment in our home and our region, North Wales.

The North Wales Growth Deal is a crucial package of capital investments for our region and will bring a substantial boost to the North Wales economy at a time when major market changes such as Brexit and global events including the Covid-19 pandemic, continue to impact our Communities and Economy. The North Wales Mersey Dee Business Council as the regional umbrella body for the private sector in North Wales has from the inception of the developing Growth Deal in partnership with the NWEAB, worked exceptionally hard to ensure that the investments proposed in the Deal are distributed across the region and our sectors to provide the maximum benefit to our businesses.

A Growth Deal that delivers on supporting business and productivity growth for both our home grown SME's and the International businesses based in North Wales in our key sectors e.g. Manufacturing, Tourism & Hospitality, Agriculture and Energy, has the potential to make a once in a lifetime positive impact for us all. It is imperative though that the proposed projects and programmes not only provide the catalyst for growth but with the fundamental tenet that they do so whilst contributing to the region's journey towards a Net Zero Carbon and Circular economy. We look forward to continuing meaningful engagement with the NWEAB on this key investment package.

North Wales has a unique and powerful coalition of private and public sector leaders who, through the North Wales Economic Ambition Board and the Business Delivery Group have been working as united partners to make sure that the Growth Deal leverages a substantial return on investment.

Members on the Business Delivery Group predominately entrepreneurs, have an independent voice with well-established track records within their sectors and industries which is recognised internationally. Members have influential and extensive business networks in Wales, UK and beyond and very importantly, they have a real passion for North Wales, which is where the majority call home.

To the East we're fortunate to be situated close to two major cities; Liverpool and Manchester, home to two international airports connecting us to the global market, whilst London is just a couple of hours away by train. To the West, the port of Holyhead facilitates our trade via sea-freight and opens up the path to international tourism and Ireland. Every inch of North Wales has a great history, rich culture, fantastic castles and beaches, unique tourist attractions, amazing wildlife and, irrefutably, the most breath-taking natural landscapes on planet Earth.

The Growth Deal programmes are concentrated on areas of the economy in which we have long-established experience and strong expertise; such as Advanced Manufacturing, Renewable Energy and Tourism. As an example, Morlais, the tidal power project on Anglesey has the potential to make North Wales one of the world leaders in tidal energy. There are very few places in the world that are suitable and the investment could put North Wales in the top three biggest tidal power generators in the world.

The Growth Deal also invests in the regions digital infrastructure. This is essential and underpins economic growth. Accessible and reliable high-speed fibre broadband and 5G capability is throughout the whole of North Wales is essential.

Throughout history, North Wales has demonstrated its resilience to combat all past economic shocks and come out battle-hardened and stronger. This recent pandemic has created a devastating social and economic earthquake.

I firmly believe that, North Wales, with a credible economic plan, investment in skills and education, and with determined, well-resourced local leadership, has a great opportunity and the potential to re-establish itself as a powerful economy in Wales, which will be greatly supported by the Growth deal investment over the next 15 years and beyond.

It sets out what the Growth Deal will deliver in terms of outputs and benefits for the region, the financial contributions of each partner and the governance and performance management arrangements to ensure the Growth Deal is delivered.

The Case for Change

1.4 North Wales is home to nearly 700,000 residents and contributes £14.2 billion to the UK economy each year,¹ representing 22% of the Welsh economy.² However, there remains a persistent and growing productivity gap between North Wales and the UK with wide variations in GVA (Gross Value Added) average per person across the region. **Addressing this disparity is an important priority for the Growth Deal.**

1.5 North Wales has a diverse economy with key sectors being manufacturing, energy and tourism as well as public sector jobs. Some of the productivity gap is accounted for by the sectoral structure of the North Wales economy with some areas particularly reliant on relatively low paid sectors including tourism and retail. At the same time, there are

areas of strength, with 64,000 people employed in high value sectors, defined as manufacturing; information and communication; and professional, scientific and technical activities.

1.6 **Supporting high value sectors and addressing long-term barriers to growth is at the heart of the North Wales Growth Deal.** Key challenges and opportunities have been identified as follows:

- Improving productivity
- Supporting innovation and Research and Development (R&D)
- Supporting the low carbon agenda and driving low carbon growth
- Supply chain integration
- Meeting skills needs
- The need for modern employment floorspace and serviced residential land
- Addressing the digital divide
- Expanding digital research capacity.

1.7 A logic model is a way of articulating the context for change and investment. A summary logic model for the Growth Deal is set out in Figure 1.1 below and provides an overview of the strategic drivers, objectives, inputs and impact of the Growth Deal.

COVID-19 Recovery

- 1.8 Covid-19 has had an immense economic impact on North Wales as in other parts of the UK and globally. The Economic Ambition Board works closely with the six local authorities, UK and Welsh Governments and private sector representatives to co-ordinate the regional response to economic recovery. The longer term effects of Covid-19 on the regional economy at this stage is still unknown.
- 1.9 The Growth Deal is designed to address structural, long-term barriers to economic growth. However, the Board is fully aware that in the short-term a range of actions will be needed to facilitate recovery and alignment between those short term measures and the Growth Deal is key.
- 1.10 The Growth Deal on its own cannot address all the challenges facing the North Wales economy, particularly in light of Covid-19. However, such a significant injection of capital investment into the North Wales economy through the Growth Deal will be a significant boost to the construction and related sectors at a time when there is likely to be spare capacity in the economy.

The Growth Deal Programmes

- 1.11 The Growth Deal is based on the delivery of 14 transformational projects across 5 programmes. The programmes have been defined as either high growth programmes or enabling programmes. The programmes have been defined as either high growth programmes or enabling programmes.

High growth sectors to drive productivity in the region

- 1.12 The projects within the Growth Deal aimed at increasing the value and impact of high growth sectors will be focused on three key programmes:
 - **Low carbon energy**
 - **Innovation in high value manufacturing**
 - **Agri-food and tourism**

Addressing key barriers to enable and achieve economic growth

- 1.13 We have identified enabling sectors through the Growth Deal to tackle key economic barriers and address structural issues that have impacted on productivity and jobs. Delivery in these sectors will create the appropriate conditions for businesses to invest in the region and for the labour market to take advantage of new employment opportunities. A strategic approach will be taken with our investments, ensuring that they are well-targeted in order to enable economic and employment growth across the region. This will be done in partnership with key partners, especially the UK and Welsh Governments.
- 1.14 The projects within the Growth Deal to address key barriers to growth will be focused on two key programmes:
 - **Land and Property**

- **Digital**

- 1.15 The Skills and Employment and Strategic Transport programmes sit outside the Growth Deal. The programmes remain key to delivering the wider vision for North Wales and the Economic Ambition Board is working with the Regional Skills Partnership and through its Transport Sub-Board to identify and secure alternative funding sources to deliver these programmes.
- 1.16 All of the programmes and projects contribute to achieving the three key spending objectives. They also generate a set of additional benefits that have been classed as direct, indirect and wider benefits. These are set out in Figure 1.1 below.

Growth Deal Funding Profile

1.17 The capital funding profile for each programme is summarised in the table 1 below.

North Wales Economic Ambition Board Partner Contributions

- 1.18 No revenue funding is provided through the Growth Deal for the delivery of the projects or the operational running costs of the project once completed. Revenue funding to support the Portfolio Management Office is provided through NWEAB partner contributions (including supplementary local authority contributions) and additional ESF funding has also been secured for the first three years of operation (from May 2020). An amount equivalent to the ‘top slice’ of the annual government grant at 1.5% can also be used to fund this, subject to Welsh Government flexibility to manage funding.
- 1.19 The annual partner contributions towards the Portfolio Management Office (PMO) costs are set out in the table below:

Table 2 : Annual partner contributions towards the PMO costs			
	Local Authority Contribution	HE/FE Annual Contributions	Total Annual Contribution
Annual Core Contributions	£50k per LA	*£25k per partner	£400k
Annual Supplementary Contribution*	£40k per LA	0	£240k

* this is set at 50% of the Local Authority core contribution as agreed in GA1 (to be succeeded by GA2)

** this contribution is a supplementary contribution agreed by the Councils only

- 1.20 The Growth Deal funding (£240m) grant contribution to the North Wales Growth Deal is provided by the UK and Welsh Government in annual instalments over a 15 year period. The nature of these government grant payments results in a medium term funding gap between the expected expenditure profile of the Growth Deal and the government funding received.
- 1.21 The North Wales Economic Ambition Board, through Gwynedd Council as the host authority will be responsible for managing this negative cash flow. This will be met by the local authorities (proportional to population) for regional NWEAB projects, and with project sponsors responsible for the cost in relation to their projects.
- 1.22 The total (15 year) contributions that will be required from the North Wales Economic Ambition Board partners, to enable the delivery of the Growth Deal, are set as a range for each partner. The best (version 1) and worst (version 2) case scenario below for the partners reflect the timing of finalising the Growth Deal and consequent timing of government grant funding. Any proposed increase in agreed contributions would need to be approved as a reserved matter. The table below shows the total contributions over the 15 year period. Annual contributions are shown in the main report in section 10.7.

Growth Deal Governance

- 1.23 Having Secured the Growth Deal the Partners have agreed to enter into a second Governance Agreement (GA2) which will support the partnership into the next Growth Deal implementation phase and further development of the Growth Vision.
- 1.24 The agreement, which is a legally binding document, defines the role and function of the North Wales Economic Ambition Board and its delegated powers. It also provides for its decision making structures and democratic accountability. Provision is made for the commitments of the partners to the projects and how these are managed and apportioned. GA2 provides assurance for Gwynedd Council, the host authority, in assuming that role. The underlying arrangements providing for legal and compliance matters within the partnership and the governance of the Portfolio Management Office are also addressed.
- 1.25 GA2 is a key document, providing a clear structure and foundation, for taking the implementation of the Growth Deal forward.
- 1.26 The North Wales Economic Ambition Board has adopted a delivery model based on a best practice approach to portfolio, programme and project management delivery and has established a Portfolio Management Office to deliver the Growth Deal.
- 1.27 Programme and project performance will be monitored on a monthly basis through the relevant programme and project boards with formal quarterly reports submitted to the North Wales Economic Ambition Board, their partners, UK and Welsh Government.

2. Purpose

- 2.1 This Overarching Business Plan (OBP) is the basis on which Partners are entering into the North Wales Growth Deal (*hereafter referred to as the Growth Deal*). It provides an overview of the deal including the programmes and projects to be delivered. It sets out what the Growth Deal will deliver in terms of outputs and benefits for the region, the financial contributions of each partner and the governance and performance management arrangements to ensure the Growth Deal is delivered.

3. North Wales Economic Ambition Board

- 3.1 The North Wales Economic Ambition Board (hereafter referred to as Economic ambition Board or the Board) was established in 2012 as a partnership between the

six local authority areas of North Wales comprising the councils of Gwynedd, Anglesey, Conwy, Denbighshire, Wrexham and Flintshire. The Board also includes Bangor University, Glyndwr University, Coleg Cambria and Grŵp Llandrillo Menai.

- 3.2 In early 2019, the North Wales Economic Ambition Board was formally established as a joint committee following the adoption of Governance Agreement 1 (hereafter referred to as GA1) by the partnership. GA1 set out the framework through which the Board would operate in order to secure the Growth Deal.

Figure 3.1 Map of North Wales and NWEAB Partners

- 3.3 The Growth Deal is a partnership between the public and private sectors. The private sector has been strongly represented by the North Wales Mersey Dee Business Council, who, as a founding member of the North Wales Economic Ambition Board, have worked in close collaboration with partners and regional public and private sector stakeholders to shape and influence the Growth Deal proposition. Representing various member organisations including the Chamber of Commerce, Confederation of British Industry (CBI) and the Federation of Small Businesses (FSB), their active involvement in shaping the deal has been invaluable. As of August 3rd 2020, due to challenges caused by Covid-19, the Business Council withdrew membership. The Business Council remain a key stakeholder and will be an integral, more strategic and less operational, partner moving forward.

- 3.4 The private sector remains strongly represented in the Growth Deal through the Business Delivery Group who act as an independent advisory body to the Economic Ambition Board.

4. Background to the North Wales Growth Deal

- 4.1 Growth Deals first emerged from the 2010-2015 coalition government in Westminster as part of its long-term plan to boost local economies. The purpose of City and Growth Deals is to support cities and regions to deliver responsive and flexible local strategies. They are designed to promote decentralisation and stimulate local economic growth by giving more power and flexibility to regions, to make the case for investment, to drive inclusive economic activity and growth.
- 4.2 In response to this policy, partners across North Wales established the Board in 2012 to develop a regional approach to economic growth and to address the challenges and barriers facing the North Wales economy.
- 4.3 In 2016 the Economic Ambition Board's partners adopted a Growth Vision for the Economy of North Wales (the Growth Vision).
- 4.4 The adopted vision is to develop "a confident, cohesive region with sustainable economic growth, capitalising on the success of high value economic sectors and our connection to the economies of the Northern Powerhouse & Ireland."
- 4.5 The Growth Vision was founded on three key principles:
- **Smart North Wales** – with a focus on innovation and high value economic sectors to advance economic performance.
 - **Resilient North Wales** – with a focus on retaining young people, increasing employment levels and skills to achieve inclusive growth.
 - **Connected North Wales** – with a focus on improving transport and digital infrastructure to enhance strategic connectivity to and within the region.
- 4.6 In the 2017 Autumn Budget the UK Government stated that it would begin negotiations to agree a Growth Deal for North Wales. Following this statement the Economic Ambition Board worked collaboratively with Welsh Government, UK Government and representatives of the public and private sector to develop the North Wales Growth Deal, which was outlined in the Proposition Document
- 4.7 Based on the Growth Vision strategy, the Proposition Document was agreed by the Economic Ambition Board's partners in October 2018. This set out a proposed package of 24 transformational projects across 9 strategic programmes, seeking £334.5m in capital funding plus £8m in revenue funding from the Growth Deal. The programmes were defined as a group of related projects managed in a co-ordinated way to obtain benefits and to deliver the overall vision and aims.
- 4.8 In the Autumn Budget 2018, the then Chancellor of the Exchequer, Rt Hon Phillip Hammond MP, announced £120 million in capital funding for the North Wales Growth Deal. The Welsh Government confirmed that it would match the UK Government's financial contribution to the North Wales Growth Deal, securing commitment for £240m as a grant contribution in capital funding from governments.
- 4.9 Following this announcement and in response to the UK Government's desire to see a consolidated portfolio of ambitious projects, and because the funds committed were

less than the proposition's original scope and capital funding only, the Economic Ambition Board developed and agreed a Draft Implementation Plan, setting out a streamlined package of 14 transformational projects, which was submitted to both governments in March 2019.

- 4.10 The Draft Implementation Plan became the basis for the Heads of Terms agreement signed by both governments in November 2019, and securing, in principle, £240m of capital funding for the North Wales Growth Deal. The Heads of Terms committed all parties to complete a Final Deal Agreement (FDA) within 12-15 months, which, once achieved would see funding released from governments to the region. This overarching business plan forms part of the agreed process to achieve the FDA.

5. The Case for Change

The North Wales Economy

- 5.1 There remains a persistent and widening productivity gap between North Wales and the UK with wide variations in GVA (Gross Value Added) average per person across the region. Addressing this disparity is an important priority for the Growth Deal.
- 5.2 North Wales is home to nearly 700,000 residents and contributes £14.2 billion to the UK economy each year,³ representing 22% of the Welsh economy.⁴ Economic performance has been resilient following the financial crisis and during the period of austerity, with real⁵ GVA increasing by 20% since 2009. This is compared to 14.9% increase in the Swansea Bay City Region and 12.6% increase in the Mid-Wales Growth Deal area.

⁵ i.e. inflation-adjusted.

5.3 Nonetheless, there remains a persistent and widening productivity gap on the UK. GVA average per person is around 28% below the UK average, at £20,400 per annum. If London and the South East are removed, this gap is reduced but remains at 16%.

Figure 5.2 GVA per Head (£) 1998-2018

5.4 Within North Wales there are wide variations in GVA per capita, with particularly weak productivity in the Isle of Anglesey (53% of the UK average) but stronger performance in Flintshire and Wrexham (both of which are 81% of the UK average).⁶ This is also reflected in average earnings, which lag behind the UK average. Indeed, some local authorities in the West have the lowest earnings in Wales and the UK.

- 5.5 As a consequence of the lower productivity in Anglesey, Gwynedd, Conwy and Denbighshire, these areas have previously qualified for the highest level of EU structural funding intervention.

Key Sectors

- 5.6 **Supporting high value sectors and addressing long-term barriers to growth is at the heart of the North Wales Growth Deal.**
- 5.7 North Wales has a diverse economy with key sectors being manufacturing, energy and tourism as well as public sector jobs. The public sector accounts for nearly a quarter (24.7%) of the region's GVA. A fifth (20.3%) of the economy is accounted for by manufacturing, which is significantly more important in North Wales than in Wales as a whole (where it accounts for 17% of GVA). Wholesale and retail, transport, hotels and food sector accounts for 17% of the economy of North Wales. The chart below shows the breakdown of industry contribution to 2018 GVA in North Wales.

5.8 A portion of the productivity gap is accounted for by the sectoral structure of the North Wales economy, with some areas particularly reliant on relatively low paid sectors including tourism and retail. At the same time, there are areas of strength, with 64,000 people employed in high value sectors, defined as manufacturing; information and communication; and professional, scientific and technical activities.

5.9 In particular, the Economic Ambition Board recognise the significant potential offered by high value and foundation sectors including:

- **Advanced manufacturing:** 36,000 people work in advanced manufacturing in North Wales, with particular strengths in aerospace, automotive, chemicals and pharmaceuticals, engineering, opto-electronics, food and drink, and metal and steel.⁷ This includes anchor employers such as Airbus and Toyota, and areas of research and innovation excellence within the region’s universities. The AMRC (Advanced Manufacturing Research Centre) Cymru, a £20m state-of-the-art R&D facility, recently opened in Broughton and has been described by Welsh Government ministers as a “game changer” for the region.
- **Low carbon energy:** An estimated 16,750 people worked in specialist energy and environmental companies in North Wales in 2016. Wales has committed to a 95% reduction in carbon emissions by 2050. North Wales is already a hub for low carbon energy generation, with the equivalent of 82% of its electricity consumption already coming from local renewable sources. The region hosts over a third of Wales’ renewable energy capacity and also has two nuclear licensed sites, Wylfa and Trawsfynydd. The region’s geography, natural resources and heritage of energy production allow unique opportunities to deploy a broad range of low carbon energy technologies, with resources to scale-up offshore and on shore wind generation, tidal stream energy, tidal range energy, hydro-power, solar and new nuclear generation. This is supported by significant research and innovation capabilities including the Nuclear Futures Institute at Bangor University.

⁷ Source: North Wales Regional Skills Partnership

- **Agri-food:** Agri-food is a pillar for the North Wales economy, employing an estimated 20,900 people and contributing £370m in GVA.⁸ A fifth of all businesses in Gwynedd and Môn are in agriculture. The Welsh Government planned to grow sales in the Food and Drink industry by 30% to £7 billion by 2020⁹. The revised Action Plan is currently going through a consultation process however, the new Action Plan sets ambitious targets for the Food and Drink sector. This includes ensuring the turnover of the Food and Drink Sector will grow annually to match the change in the Consumer Price Index (CPI), plus an additional 2%.
- **Tourism:** Tourism is another well-established and vital sector for the North Wales economy, with around 37,200 people working in tourism and hospitality in the region, representing 12% of the workforce. The sector has seen increases in visits and expenditure in recent years, with a 4% increase in trips and a 10% increase in expenditure between 2013-2015 and 2014-2016.¹⁰ There has been a welcome growth in adventure tourism, capitalising on the post-industrial landscape and the area's natural assets. According to the latest available STEAM summary data for North Wales the total economic impact of tourism to the North Wales economy is now £3.69billion.
- **Digital:** the deepening effect of digitalisation means that technology is increasingly disruptive and valuable to the North Wales economy, being a driver of both productivity and competitiveness. Whilst the digital sector has established itself as an important generator of employment and economic output, in reality, a much broader base of sectors have been shaped by digital technologies and processes. This is reflected in national policy – the sector has the backing of the UK and Welsh Governments, within respective Digital Strategies, aligning with the opportunity to exploit digital growth as set out in the UK Industrial Strategy. Ensuring that businesses, households and communities, have access to the very best digital connectivity, is seen as key to unlocking North Wales' and growth potential.

Population and labour market

5.10 Investing in skills that match the needs of the region's new employment opportunities is fundamental to the future economic health of North Wales.

5.11 There is an ageing population in the region and a net outward migration of talent from the region. Whilst the population of North Wales is expected to increase to 722,317 by 2039, the share of the population aged 65 or above is expected to increase from 23.6% to 29.8%. This means a smaller share of working age people, which may place pressures on the supply of skills.

5.12 The employment rate amongst working age residents in North Wales stood at 75.9% at March 2020, which was the same as the UK. Over 5 years, between March 2015 and March 2020, 18,300 jobs were added to the economy, a growth of 6.2% for the region.

Sites and premises

5.13 The Growth Deal programme will address the shortages of sites and premises in the region and invest to enable the growth of Holyhead Port.

5.14 Recent research has identified a lack of modern industrial and employment space across the region. Whilst there are business parks located along the A55 with land available for development, planning restrictions and plot sizes together with the lack of development funding and property values that are lower than build costs, has meant these have seen limited new development since 2008. A recent review by Jones Lang LaSalle (JLL, a leading property consultancy) for Welsh Government found that there was relatively weak and fragmented network of readily developable strategic sites, capable of supporting both local business growth and inward investment.¹¹ The SQW report for Welsh Government completed in March 2020 confirms the conclusions of the JLL report.

Holyhead Port

5.15 Holyhead Port is of strategic and economic significance both for North Wales and the UK. The Port is the second busiest Roll on – Roll off ferry port in the UK: in 2018 the Port handled 75% of passengers, 71% of passenger vehicles and 81% of freight vehicles passing through Welsh ports to Ireland¹². The port has the second highest number of short sea ferry crossings by total number of passengers in the UK.¹³ The Port is owned and operated by Stena Line Ports Limited who are also the statutory Port Authority.

5.16 The Holyhead-Dublin route is the principal ferry link to the Republic of Ireland from the UK and serves primarily the North Wales and Central and Northern England markets and is currently operated by Stena Line and Irish Ferries. The ports usage by cruise ships has increased substantially over the past decade from 18 visits in 2013 to 51 in 2018¹⁴, in the same period passenger visits have increased from 15,000 to 50,000¹⁵.

5.17 The Holyhead Gateway scheme is a series of targeted investments to address life expired assets essential to the operation of the port and to increase capacity for both vehicle and ship movements for both passenger and freight traffic.

Digital Connectivity

5.18 Enhancing digital connectivity is an important priority for unlocking economic growth.

- 5.19 Demand for high-speed broadband and mobile connectivity in North Wales has kept pace with supply. However, the infrastructure in the region has historically lagged behind the rest of the UK in terms of coverage and capacity.
- 5.20 With the emergence of commercially available fibre optic technology towards the end of the 20th century, the widening of the 'digital divide' now has the potential to increase exponentially. Especially as the difference in affordable bandwidth can now be typically 100s of Megabits per second compared to other regions (e.g. 4.9% premises in Denbighshire with availability of ultrafast at >100Mbps compared to 49% in North West England). All four counties in North West Wales rank in bottom 25% of UK areas for Superfast (>30Mbps) broadband coverage.

The economic impact of Covid-19

- 5.21 Covid-19 has had an immense economic impact on North Wales as in other parts of the UK and globally. The Economic Ambition Board works closely with the six local authorities, UK and Welsh Governments and private sector representatives to co-ordinate the regional response to economic recovery. The longer term effects of Covid-19 on the regional economy at this stage is still unknown.
- 5.22 Work is underway to define a situational analysis to describe the state of the economy in North Wales during what has been a volatile and challenging period for businesses and employees across many sectors. This period of uncertainty caused by the pandemic is ongoing and with the transition period for leaving the EU ending on the 31 December the outlook for winter is bleak. In terms of strengthening the economy in the long term, the Growth Deal will be a welcomed source of hope and investment for the citizens of North Wales.
- 5.23 Interventions already undertaken and planned to create a reliable and evidence based approach to the situational analysis include a regional survey of businesses which attracted over 1,800 responses. A commissioned report on tourism to identify the strengths, weaknesses and opportunities to preserve and revive and develop the tourism economy sustainably. The appointment of an independent economic partner to co-develop the situational analysis and framework for recovery planning for North Wales. Looking initially at the near-term economic recovery post-Covid but also recognising the need to measure and evaluate the impact of the Growth Deal investment on the North Wales economy in the long term throughout the lifetime of the deal.
- 5.24 The Growth Deal is designed to address structural, long-term barriers to economic growth. However, the Board is fully aware that in the short-term a range of actions will be needed to facilitate recovery and alignment between those short term measures and the Growth Deal is key.
- 5.25 The Growth Deal on its own cannot address all the challenges facing the North Wales economy, particularly in light of Covid-19. However, such a significant injection of capital investment into the North Wales economy through the Growth Deal will be a significant boost to the construction and related sectors at a time when there is likely to be spare capacity in the economy.

6. The Growth Deal Programmes

6.1 The aim of the Growth Deal is to build a more vibrant, sustainable and resilient economy in North Wales, building on our strengths to boost productivity while tackling long-term challenges and economic barriers to delivering inclusive growth. Our approach is to promote growth in a scalable, inclusive and sustainable way in line with the Wellbeing of Future Generations (Wales) Act 2015. The Growth Deal is based on the delivery of 14 transformational projects across 5 programmes. The programmes have been defined as either high growth programmes or enabling programmes.

High growth sectors to drive productivity in the region

6.2 The projects within the Growth Deal aimed at increasing the value and impact of high growth sectors will be focused on three key programmes:

- **Low carbon energy**
- **Innovation in high value manufacturing**
- **Agri-food and tourism**

Addressing key barriers to enable and achieve economic growth

6.3 We have identified enabling sectors through the Growth Deal to tackle key economic barriers and address structural issues that have impacted on productivity and jobs. Delivery in these sectors will create the appropriate conditions for businesses to invest in the region and for the labour market to take advantage of new employment opportunities. A strategic approach will be taken with our investments, ensuring that they are well-targeted in order to enable economic and employment growth across the region. This will be done in partnership with key partners, especially the UK and Welsh Governments.

6.4 The projects within the Growth Deal to address key barriers to growth will be focused on two key programmes:

- **Land and Property**
- **Digital**

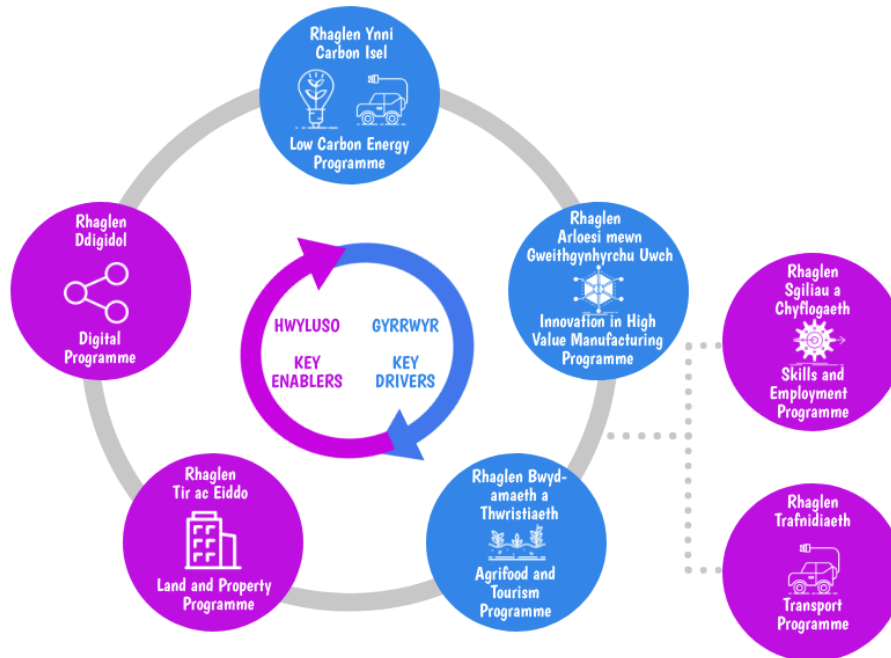

6.5 By focusing delivery on these programmes collectively, the Growth Deal will achieve a greater impact in terms of our ambition and use of resources rather than delivering them in isolation.

6.6 Two further enabling programmes sit outside the scope of the North Wales Growth Deal due to funding constraints:

- **Skills and Employment** - This programme aims to tackle economic inactivity and deliver a co-ordinated and integrated skills and employment approach in the region.
- **Strategic Transport** - This programme aims to enable improved accessibility and connectivity, to and within the region.

6.7 The programmes remain key to delivering the wider vision for North Wales and the Economic Ambition Board is working with the Regional Skills Partnership and through its Transport Sub-Board to identify and secure alternative funding sources to deliver these programmes.

Figure 6.1 The Growth Deal Programmes

Source: North Wales Economic Ambition Board

6.8 All programmes and projects within the Growth Deal will contribute to the achievement of the Growth Vision and the delivery of benefits for North Wales. The benefits from the Growth Deal will support sustainable and inclusive growth across the region – in accordance with the Growth Vision as well as the priorities of the Well-Being of Future Generations (Wales) Act 2015.

Summary of the Programmes

6.9 The strategic aims to address in each programme, and the types of intervention they are intended to facilitate, are summarised below.

Low carbon energy

Strategic aims: To unlock the economic benefits of transformational low carbon energy projects and position North Wales as a leading UK location for low carbon energy generation, innovation and supply chain investment.

Types of intervention: Enabling works for new low carbon energy generation, enhancing research and innovation facilities for low carbon energy sectors, transport decarbonisation and support for local energy projects.

Innovation in high value manufacturing

Strategic aims: To consolidate North Wales' position as a powerful and innovative high value manufacturing cluster, building on existing specialisms and leading expertise to create a higher value, more diverse economic base that supports the transition to a low carbon economy

Types of intervention: Industry and research collaborations along with the establishment of centres of excellence in targeted technologies to help overcome barriers and market failures in the research commercialisation process.

Agri-food and tourism

Strategic aims: To build a more sustainable, vibrant and resilient foundation economy within the region, optimising opportunities for employment and prosperity through our environment and landscape.

Types of intervention: Introducing new technologies & innovation, skills and practices to these sectors, via business support and upskilling.

Land and property

Strategic aims: To address the shortage of suitable land and properties for business growth and to bring forward sites for housing development and to deliver improvements that stimulate investment in the Port of Holyhead and the wider region. These projects will play an enabling role for the other programmes by ensuring that serviced sites are available for investors and developers.

Types of intervention: The provision of primary services and enabling works to bring forward commercial and housing development sites, delivery of employment floor space and future proofing and capacity enhancement works to the port of Holyhead.

Strategic aims: To deliver the step change in digital connectivity needed to ensure North Wales is able to satisfy user demand, maintain pace with the rest of UK, unlock the growth potential of priority sectors and sites and underpin a flourishing innovation ecosystem. Plays an enabling role for other programmes to deliver maximum benefit.

Types of intervention: The programme has identified a need to which balance investment in infrastructure and technology, through enhanced fixed broadband footprint at key sites in rural areas, unlocking applications through 5G access, and furthering digital innovation.

7. The Projects

7.1 The Growth Deal is based on 14 transformational projects to be delivered across 5 programmes. These projects have been identified by the Economic Ambition Board on the basis that they:

- deliver against the North Wales Growth Vision and are aligned with relevant Wales and UK strategies;
- are spatially targeted across the whole region;
- deliver benefits that will have a positive impact on as many communities as possible across the region;
- are enablers for economic growth;
- support growth and attract private sector investment;
- promote innovation.

Table 4: Summary of North Wales Growth Deal Projects

Programme	Project	Project Sponsor	Project Summary
Innovation in High value manufacturing	Centre for Environmental Biotechnology (CEB)	Bangor University	The Centre for Engineering Biotechnology will be a world-leading centre in the discovery and characterisation of novel extremophilic enzymes of industrial relevance. The Centre for Engineering Biotechnology will provide a strong foundation for attracting world-leading researchers, significant public and commercial research funding, and inward investment to Wales, building on an initial £5mERDF investment into research capacity. The project also aims to draw companies in the biocatalysis sector to North Wales to take advantage of clustering and agglomeration benefits the regions offers due to its well-established specialism in bioengineering.
	Enterprise Engineering & Optics Centre	Glyndwr University	The Enterprise Engineering & Optics Centre will provide facilities (in Wrexham and St. Asaph) targeted to boost high level skills development for the region and enable SME's and large businesses to work in partnership with Wrexham Glyndwr University on commercially driven research and development.
Agri-food and tourism	Tourism TALENT Network	Grŵp Llandrillo Menai	The Tourism Talent Network sets out ambitious plans to future-proof skills provision and increase commercial benefits from one of the most established and fastest growing sectors in the region. The North Wales Tourism Talent Network aims to stimulate public-

Programme	Project	Project Sponsor	Project Summary
			private collaboration to coordinate action on skills and product development to transform and accelerate the growth of the tourism and hospitality sector in the region.
	Glynllifon Rural Economy Hub	Grŵp Llandrillo Menai	The vision is to create a distinctive, world-class Rural Economy Hub at Glynllifon, offering a range of facilities and services to strengthen and enhance the regional economy, specifically through growing the food and drink sector.
	The Llysfasi Carbon Neutral Centre	Coleg Cambria	Llysfasi Carbon Neutral Centre aims to lead North Wales to a resilient future where carbon neutral land management is at the centre of a developing renewable energy sector supporting a sustainable, thriving and healthy community covering the rural/urban mix of the region.
Land and property	Holyhead Gateway	Stena Line	Future proof the Holyhead Port by providing new deep-water heavy loading and cruise facilities, improved vehicular access, guaranteeing the future of the breakwater and providing for the demands of regional energy projects.
	Regional Land and Property	North Wales Economic Ambition Board	Comprised initially of five development sites: Denbigh Hospital Site -A planning application has been submitted to bring forward a mixed use commercial and residential development. The Growth Deal funding will assist in the delivery of a cleared and remediated site with primary services. Bodelwyddan Strategic Site -A mixed use commercial and residential development site of 137 hectares. The Growth Deal funding will provide the primary services to enable the site to be bought to the market for development. Parc Bryn Cegin Strategic Site -Provide industrial floor space to meet known demand for units. Wrexham Gateway - Growth Deal funding will provide the necessary statutory consents and deliver primary services to enable the site to be bought to the market for sale and development. Warren Hall Strategic Site - Growth Deal funding will provide the necessary statutory consents and deliver primary services to enable the 65-hectare mixed use site to be bought to the market for sale and then development by the private sector.
Digital	Digital Connectivity Project	North Wales Economic Ambition Board	Comprises of four elements: Full fibre - This project seeks to deliver full fibre connectivity (gigabit capable) to 28 key business sites across NWEAB. The focus of the project is to provide access to full fibre services that are more affordable, scalable and able to service the needs of SMEs, in lieu

Programme	Project	Project Sponsor	Project Summary
			<p>of and complementing more expensive leased line circuits. Some 4,100 business premises and 450 residential premises able to access gigabit capable full fibre broadband once complete.</p> <p>Connected Campus This project aims to accelerate the development of Connected Campuses at 19 key regional economic sites. It will target key sites which present uses cases for 5G and low power Wi-Fi networks in the context of heavy industry, light industry, research sites, commercial sites and across a much larger rural campus (encompassing thousands of farms and agricultural clusters). It is estimated some 2,600 business premises will have access to high bandwidth 5G and low power Wi-Fi services once complete.</p> <p>Connected Corridor - This project aims seeks to respond to industry demand and technology drivers by supporting the more efficient operation of supply chains, and major transport operations (such as ports). In total, 156km of road and rail corridor will be connected to 5G/Low Power Wireless Access Networks, along the A55 corridor and adjacent mainline rail route. It is estimated that up to 1.57 million rail journeys and 1.3 million road journeys will benefit from enhanced 5G connectivity once complete.</p> <p>Connecting the last few % - This project targets universal superfast coverage across North Wales, which have yet to be served by other means and cannot obtain speeds of at least 30Mbps (download).</p> <p>A lack of reliable and in some cases basic broadband (Ofcom defines as 10Mbps download) is an established and growing challenge facing rural businesses and communities. A widely acknowledged 'digital divide' is affecting residents' access to online services and preventing SMEs from developing and sustaining trade. The growing trend of working from home is also restricted by poor connectivity.</p> <p>Up to 10,100 residential and 4,300 business premises with will access to superfast broadband once complete.</p>

Programme	Project	Project Sponsor	Project Summary
	Digital Signal Processing Centre Project (DSP)	Bangor University	The project will bring together Bangor University researchers to work alongside high-profile international companies and Welsh SMEs enabling them to work together to explore disruptive solutions for 5G. The project will allow the DSP Centre to expand its presence and remit, integrating fully with the National Strategy Project (NSP) and enable the scaling of key assets including a 5G testbed, research capacity and state-of-the-art equipment. The project is expected to create 160 jobs in total.
Low carbon energy	Morlais	Menter Môn	Constructing the infrastructure that connects the Morlais Zone with the electricity grid system, readying the site for private sector developers investing to lease parts of the zone for deploying tidal energy technologies. This would position the zone as the first consented, expandable and technology-agnostic site in the world with up to 180 MW of potential.
	Trawsfynydd Power Station	Cwmni Eginó	The Trawsfynydd site is uniquely placed for a 'First of A Kind' deployment of a Small Modular Reactor (SMR) or Advanced Modular Reactor (AMR) due to its status as a publicly owned asset, its highly skilled workforce, and the supportive community. In combination with the public and private sector, the Growth Deal will contribute funding towards enabling infrastructure for this development, helping to secure jobs as well as position North Wales at the cutting edge of innovation and R&D in a technology that has significant potential for deployment across the UK.
	Low Carbon Energy Centre of Excellence	Bangor University	Developing infrastructure at Bangor University and Menai Science Park, enhancing the North Wales and UK capabilities for innovation in low carbon energy and related areas, helping to create the conditions for new inward investment and business growth in the low carbon energy supply chain in North Wales
	Smart Local Energy	North Wales Economic Ambition Board	To help achieve renewable energy, decarbonisation and local ownership targets, the project will support innovative enabling projects and demonstrators that overcome market failures and unlock private and community sector investments in smart local energy solutions.
	Transport Decarbonisation	North Wales Economic Ambition Board	Support delivery of a demonstrator project involving the production of green hydrogen from low carbon energy sources and its use within regional transport networks.

8. Economic Impact

Spending Objectives

8.1 The Heads of Terms agreement set out that the Government investment would be used to create up to 4,000 new jobs, support 5% GVA uplift and secure £500million in private sector investment over the 15-year period. In the development of a portfolio and five programme business cases to secure the Final Deal agreement with Welsh and UK Government these have been refined into the following spending objectives for the North Wales Growth Deal. All the programmes and projects within the Growth Deal contribute to these overall objectives.

Spending Objective 1 - Jobs	To create between 3,400 and 4,200 net new jobs in North Wales through the Growth Deal by 2036.
Spending Objective 2 - GVA	To support a net additional GVA uplift of between £2.0 billion and £2.4 billion for the North Wales Economy through the Growth Deal by 2036.
Spending Objective 3 - Investment	To deliver a total investment of up to £1.1 billion in the North Wales Economy through the Growth Deal by 2036.

Benefits Summary

8.2 In developing each of the five programmes for the Final Deal, a high-level assessment of the relevant economic benefits has been produced. Each of the programmes will generate a set of benefits that have been classed as direct, indirect and wider benefits. The precise nature of these vary between the programmes. The key types are summarised below, by programme.

8.3 The core measures across all programmes and projects are jobs and Gross Value Added (GVA) created, reflecting the core spending objectives of the Growth Deal. Growth in GVA is a function of both sectoral growth (with accompanying growth in jobs) and productivity enhancements (e.g. generated by investments in digital infrastructure).

Net additional benefits

- 8.4 After taking account of likely levels of additionality within the projects and programmes, the Growth Deal programmes are expected to generate a total of **£1.97 to £2.41 billion** in net additional GVA, and **3,400 to 4,200 net additional FTE jobs** per annum at steady state.
- 8.5 A breakdown across all of the projects is provided in Appendix B.

Table 5: Net Additional Economic Benefits (GVA is cumulative to 2036 and expressed in 2020/21 prices, undiscounted; jobs are annual at steady state)

Benefit-cost ratio

- 8.6 Drawing the analysis together, the Growth Deal Programme has an estimated benefit-cost ratio of between **2.8:1 and 3.4:1**, i.e. for every £1 in public sector investment (after Optimism Bias*) the Growth Deal is expected to return net additional economic benefits of between £2.80 and £3.40. This rises to between £4.90 and £6.00 for every £1 of Growth Deal investment only.
- 8.7 This places the overall Growth Deal into the category of “high” value for money, as defined by Central Government.¹⁶

	Based on Total Public Sector Cost	Based on Growth Deal cost only
Discounted net additional benefits	£1,370m - £1,670m	
Discounted costs, after optimism bias	£488m	£273m

9. Growth Deal Funding Profile

- 9.1 The Growth Deal is based on the delivery of fourteen projects across five programmes with an anticipated total capital expenditure of £1.1billion of which £240million is derived from the Growth Deal with the remainder provided by public and private sector partners.
- 9.2 A breakdown of capital expenditure per project is provided in the table below:

10. North Wales Economic Ambition Board Partner Contributions

Annual Partner Contributions

- 10.1 No revenue funding is provided through the Growth Deal for the delivery of the projects or the operational running costs of the project once completed.
- 10.2 Revenue funding to support the Portfolio Management Office is provided through Economic Ambition Board partner contributions (including supplementary local authority contributions) and additional ESF funding has also been secured for the first three years of operation (from May 2020). An amount equivalent to the 'top slice' of the annual government grant at 1.5% can also be used to fund this, subject to Welsh Government flexibility to manage funding. Any additional Portfolio Management

Office costs directly attributable to the delivery of the projects will be accounted for within project business cases.

- 10.3 The annual partner contributions toward Portfolio Management Office costs are set out in the table below:

	Local Authority Contribution	HE/FE Annual Contributions	Total Annual Contribution
Annual Core Contributions	£50k per LA	£25k per partner	£400k
Annual Supplementary Contribution*	£40k per LA	0	£240k

* this contribution is a supplementary contribution agreed by the Councils only

Growth Deal Cash-flow Financing Contributions

- 10.4 A total of £240m grant contribution to the North Wales Growth Deal is provided by the UK and Welsh Government in annual instalments over a 15 year period.
- 10.5 Due to the nature of the annual Growth Deal grant payments from government, there is a medium term temporary funding gap between the expected expenditure profile of the Growth Deal and the funding received.
- 10.6 The Economic Ambition Board, through Gwynedd Council as the host authority, will be responsible for managing this negative cash flow. This will be met by the local authorities (proportional to population) for regional NWEAB projects, and with project lead partners responsible for the cost in relation to their projects (which create assets).
- 10.7 The total (15 years) contributions that will be required from the North Wales Economic Ambition Board partners, to enable the delivery of the Growth Deal, are set as a range for each partner. Version 1 is modelled as the best case scenario and Version 2 as a worst case scenario, to reflect the timing of finalising the Growth Deal and consequent timing of government grant funding. Any proposed increase in agreed contributions would need to be approved as a reserved matter.

11. Commercial Strategy

- 11.1 The Economic Ambition Board is committed to maximising the impact of the North Wales Growth Deal.
- 11.2 The primary driver for all projects within the Growth Deal is to deliver economic and social benefits to North Wales in line with the strategic outcomes set out in the portfolio business case. The Growth Deal aims to maximise private sector direct investment and leverage across the portfolio.
- 11.3 There is significant potential across the portfolio to generate a commercial return on investment that could be reinvested in the region. Each project business case will be expected to explore commercial investment opportunities. These opportunities may include provision of Growth Deal funding as a loan, investment or profit share arrangement subject to relevant project state aid advice.
- 11.4 The Economic Ambition Board expects to generate a return on investment across the overall portfolio, with a particular focus on opportunities within the Land and Property and Low Carbon Energy programmes that would subject to UK and Welsh Government agreement be reinvested in the region.

13. Governance Arrangements

Governance Agreement 2

- 13.1 Having Secured the Growth Deal the Partners have agreed to enter into a second Governance Agreement (GA2) which will support the partnership into the next phase of implementation of the Growth Deal and further development of the Growth Vision.
- 13.2 The agreement, which is a legally binding document defines the role and function of the Board and its delegated powers. It also provides for its decision making structures and democratic accountability. Provision is made for the commitments of the Partners to the project and how these are managed and apportioned. GA2 provides assurance for the Host Authority (Gwynedd Council) in assuming that role. The underlying arrangements providing for legal and compliance matters within the partnership and the governance of the Programme Office are also addressed.

- 13.3 It is a key document providing a clear structure and foundation for taking the implementation of the Growth Deal forward.

Portfolio, Programme and Project Management Arrangements (PPM)

- 13.4 The Board has adopted a delivery model based on a best practice approach to portfolio, programme and project management as set out in ‘Government Functional Standard GovS 002: Project Delivery’. Portfolio, programme and project management is an integrated way of meeting an organisation’s ambitions, driving better decisions and increasing the likelihood of successful outcomes.
- 13.5 The diagram below sets the PPM governance delivery structure for the Growth Deal:

Figure 1.3 Growth Deal Delivery Structure

Source: North Wales Economic Ambition Board

Strategic and Portfolio Level

- 13.6 **North Wales Economic Ambition Board (Sponsoring Group)** - The Economic Ambition Board acts as the Sponsoring Group (Organisation) and the Decision-Making Body. All authority below this level is delegated to relevant parties as required through a formal decision by the Board. A member of the Economic Ambition Board will take on a Lead Member role for each of the programmes and sit on the relevant Programme Board. The Board will be responsible for the consideration and approval of project business cases within the portfolio and with responsibility for delivery delegated to the relevant programme and project boards.
- 13.7 **Executive Support Group (Portfolio Board)** - This group is the advisory body to the Economic Ambition Board but also acts as the Portfolio Board for the Growth Deal to support and challenge the Growth Deal Programme Director to ensure delivery. The group is made up of senior officers from each of the Economic Ambition Board partner organisations. A member of the Executive Support Group will act as a Senior Responsible Owner (SRO) for each of the programmes and lead the relevant Programme Board.

- 13.8 **Programme Director** - The Programme Director is accountable to the Economic Ambition Board for the delivery of the Growth Deal portfolio.

Programme and Project Level

- 13.9 **Portfolio Management Office (PMO)** – The PMO supports and co-ordinates activity across the programmes acting as an information hub and ensuring a consistent approach to reporting, control of risk and issues. It also acts as a valuable assurance function, providing advice and challenge to programmes and projects. Each programme is assigned a Programme Manager from within the PMO.
- 13.10 **Programme Boards** - Each programme will have a formal Programme Board and an appointed Senior Responsible Owner (SRO). These boards will be focused on the development (initially) and delivery of the agreed Programme Business Case, with a specific focus on the benefits and outcomes to be achieved. Programme Boards escalate to the Portfolio Board via the Programme Director.
- 13.11 **Project Boards** - All projects within the Growth Deal will be managed via a Project Board with appointed SROs and project managers in place to ensure delivery. These boards will be focused on the development and delivery of the agreed business case, with a focus on the delivery of specified outputs. Projects and Project Boards will be the responsibility of the Project Sponsor and clear arrangements for the delivery of projects in line with best practice will be set out in each project business case. Projects will report through to the relevant Programme Board. Terms of Reference for Project Boards will be agreed between the Project Sponsor and the Portfolio Management Office to ensure the appropriate links and reporting arrangements between the project and the Programme Board are understood by both parties.

Project Approval Process

- 13.12 The Growth Deal is to be signed on the basis of a portfolio business case and five programme business cases. Once the final deal has been agreed, project business cases can be brought forward for the NWEAB to consider.
- 13.13 Full (5 Case Model) business cases will be developed for each project within the North Wales Growth Deal in line with the 'Better Business Case' guidance developed by Welsh Government and HM Treasury.
- 13.14 Preparing a Project Business Case using the five Case model provides decision makers and stakeholders with a proven framework for structured 'thinking' and assurance that the project provides and strategic fit, maximise public value, is commercially viable, is affordable and is fundable over time.
- 13.15 Project business cases will be required to demonstrate how they deliver against the objectives and aspirations of the North Wales Growth Deal and specifically the relevant programme business case.
- 13.16 It is recognised that through the development and agreement of portfolio and programme business cases between the Economic Ambition Board and UK/Welsh Government that the strategic case for projects will have been established.
- 13.17 Each project business case will be subject to independent gateway reviews at agreed points as agreed with the Welsh Government Assurance Hub.

13.18 Project business cases will first be considered by the relevant Programme Board. Business cases will only be presented to the Economic Ambition Board following endorsement by the Portfolio Board and the Programme Board and the completion of required gateway reviews. The PMO retains the right to commission external reviews of project business cases where required.

Process for Considering New Projects

13.19 The Growth Deal is a portfolio spanning 15 years and there is potential that not all the current 14 projects will be delivered if the economic benefits of certain projects cannot be demonstrated through project business cases or if new priorities emerge for the region. It is also possible that further funding sources may be identified or income generated through the Growth Deal for reinvestment in new projects.

13.20 Any new or replacement projects will be a matter for the Economic Ambition Board to decide upon within the agreed affordability envelope for the partnership and where the projects deliver against the objectives of the Growth Deal and its programmes. Project proposals that sit outside the agreed funding envelope for the partnership and outside the parameters agreed with UK and Welsh Government would need the approval of individual partners and/or both governments.

13.21 New or replacement project proposals would be assessed at the relevant programme board before consideration by the portfolio board and the Economic Ambition Board. Should the Economic Ambition Board endorse a new project for development, a project business case would be developed in accordance with the process set out above.

Monitoring and Evaluation

13.22 Programme and project performance will be monitored on a monthly basis through the relevant programme and project boards with formal quarterly reports submitted to the Portfolio Board and the North Wales Economic Ambition Board.

13.23 A Monitoring and Evaluation Plan has been developed for the North Wales Growth Deal. The key components of the Monitoring and Evaluation Plan are set out below:

13.24 Monthly Highlight Reports for all programmes and projects;

13.25 Formal Quarterly Reports to the Economic Ambition Board, UK Government and Welsh Government;

- 13.26 Formal Annual Report to Economic Ambition Board, its partners, UK Government and Welsh Government;
- 13.27 Independent economic impact evaluation to be undertaken every 3-5 years against suite of indicators agreed with UK Government and Welsh Government.
- 13.28 Wider benefits to be achieved through procurement, particularly social and community value will be monitored and evaluated to ensure maximum benefit is derived to the region from such activity.
- 13.29 The Economic Ambition Board will work with the Welsh Government to ensure that evaluation against the Wellbeing of Future Generations (Wales) Act 2015 is a key component of all monitoring and evaluation activities.
- 13.30 The Economic Ambition Board is committed to developing an appropriate feedback mechanism for the North Wales Growth Deal with both governments to ensure lessons learned during the delivery of the Growth Deal are captured and shared.

3. Foreword

The **Growth Deal** has been developed through close collaboration and commitment, from partners across governments and sectors, to deliver long-lasting positive investment and change that will enable economic and employment growth for the long-term.

Over the next fifteen years, the deal empowers us to work together and take control of how we invest in our future.

It's a unique opportunity to de-centralise government investment, make those investment decisions locally and demonstrate the value this brings. Ultimately, as part of a broader programme of investment, the Growth Deal will enable us to build a more vibrant, sustainable and inclusive economy for us all in North Wales.

The UK Government and Welsh Government are investing £240million into the North Wales Growth Deal over the next 15 years. Alongside the North Wales Economic Ambition Board partners and the private sector, the Growth Deal seeking to deliver a total investment of up to £1.1bn in the North Wales economy (£240m from the Growth Deal), to create 3,400 – 4,200 net additional jobs and generate £2.0- £2.4 billion in net additional GVA.

Building on the [Heads of Terms](#), signed in November 2019, this document sets out a compelling vision for North Wales. The aim of the Growth Deal is to build a more vibrant, sustainable and resilient economy in North Wales, building on our strengths to boost productivity while tackling long-term challenges and economic barriers to delivering inclusive growth. Our approach is to promote growth in a scalable, inclusive and sustainable way in line with the Future Generations Act.

Our signing of this document reaffirms our joint commitment to achieve the full implementation of the North Wales Growth Deal together over the next 15 years.

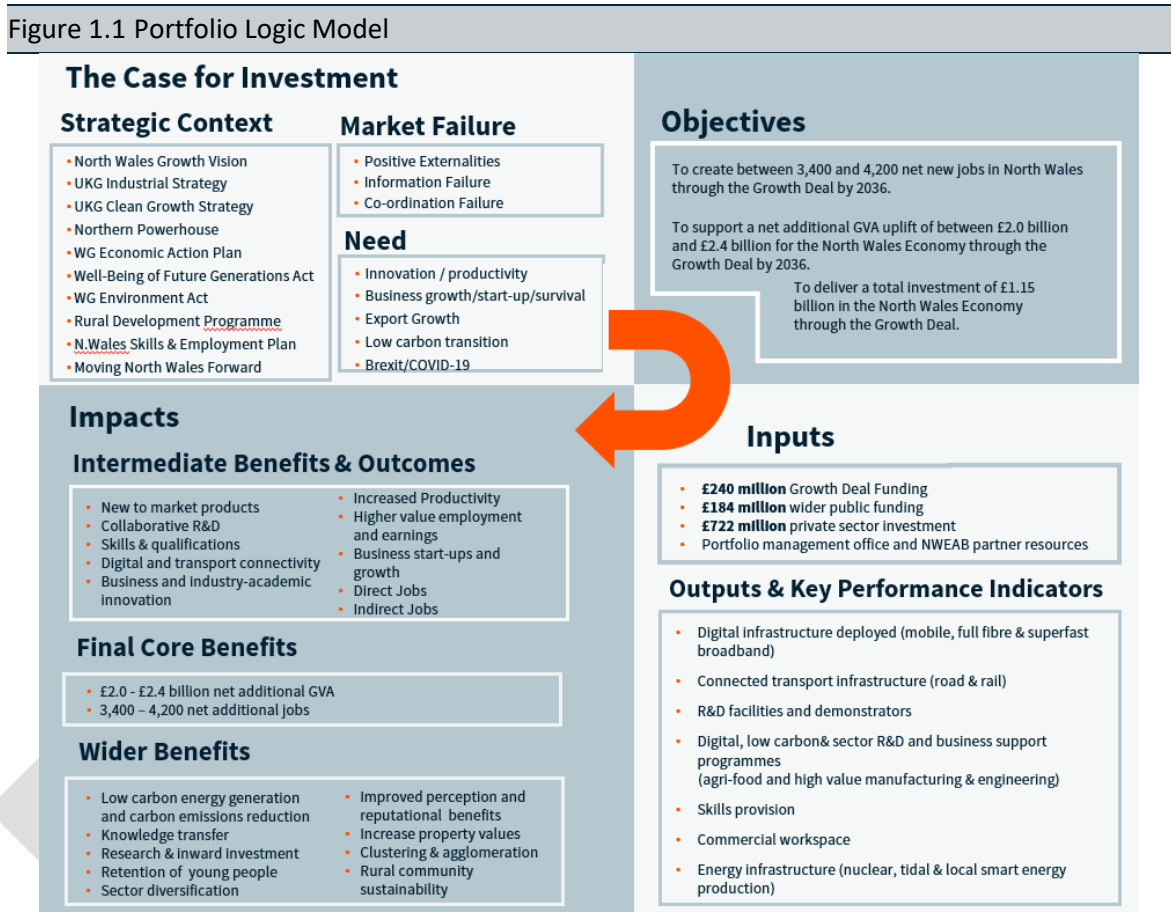

We look forward to leading this important investment in our home and our region, North Wales.

A logic model is a way of articulating the context for change and investment. A summary logic model for the Growth Deal is set out in Figure 1.1 below and provides an overview of the strategic drivers, objectives, inputs and impact of the Growth Deal.

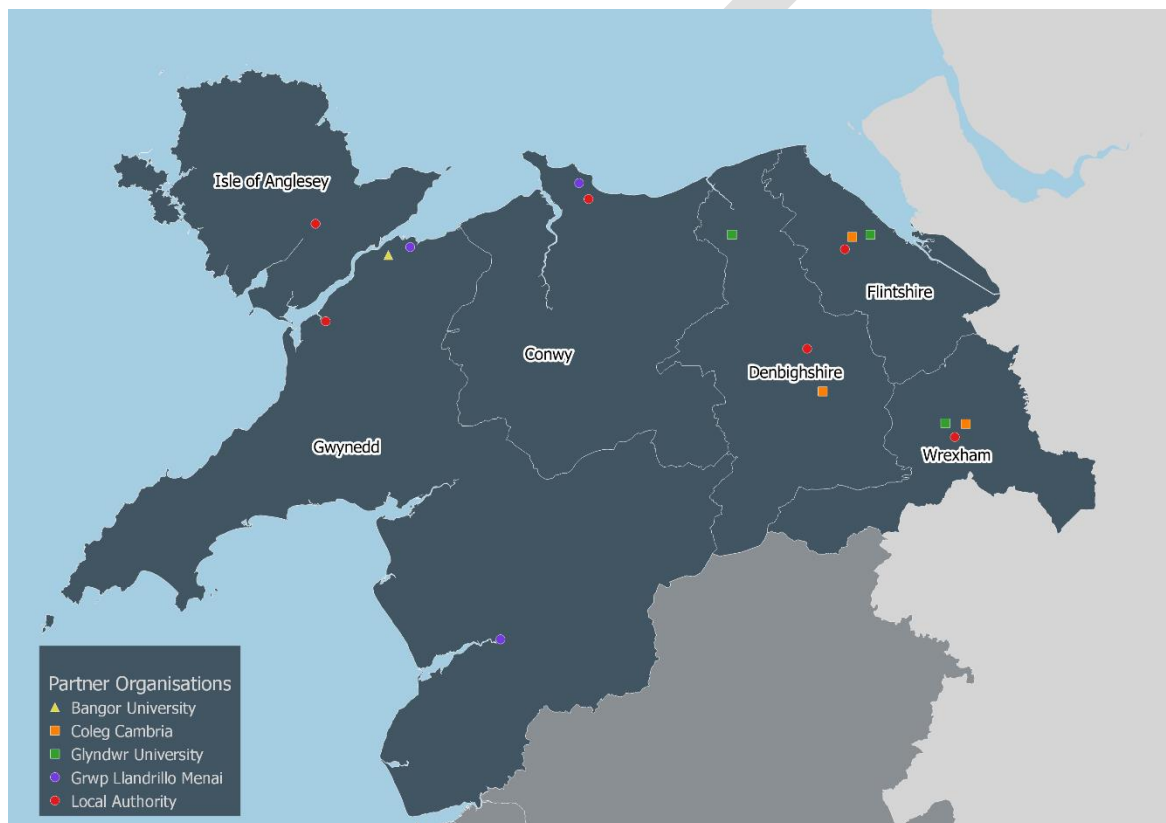

Source: Hatch; NWEAB. A Note on Market Failure: **Positive externalities**: third party economic/social/environmental benefits to the wider economy/ society. These cannot be captured in entirely by commercial organisations and so public investment is required. **Information failure**: businesses do not have full information on technologies/developments that could secure growth. Public investment is required to bridge these information gaps. **Co-ordination failure**: no one organisation may have the incentive to invest in a venture that secures benefits for wider partners. Public investment is required to initiate a partnership investment.

5. Introduction

North Wales Economic Ambition Board

The North Wales Economic Ambition Board (*hereafter referred to as Economic Ambition Board or the Board*) was established in 2012 as a partnership between the six Local Authority areas of North Wales comprising the Councils of Gwynedd, Anglesey, Conwy, Denbighshire, Wrexham and Flintshire. The Board also includes Bangor University, Glyndwr University, Coleg Cambria and Grwp Llandrillo-Menai. In early 2019, the Economic Ambition Board was formally established as a joint committee.

Figure 5.1 Map of North Wales and North Wales Economic Ambition Board Partners

The North Wales Growth Deal is a partnership between the public and private sectors. The private sector has been strongly represented by The North Wales Mersey Dee Business Council, who, as a founding member of the Economic Ambition Board, have worked in close collaboration with partners and regional public and private sector stakeholders to shape and influence the Growth Deal proposition. As of August 3rd 2020, due to challenges caused by Covid-19, the Business Council withdrew membership yet remain a key stakeholder and will be an integral, albeit more distant, partner moving forward.

The private sector remains strongly represented in the North Wales Growth Deal through the Business Delivery Group who act as an independent advisory body to the North Wales Economic Ambition Board.

The Vision for North Wales

In 2016 the Economic Ambition Board partners adopted *A Growth Vision for the Economy of North Wales* (the Growth Vision).

The adopted Vision is to develop “*a confident, cohesive region with sustainable economic growth, capitalising on the success of high value economic sectors and our connection to the economies of the Northern Powerhouse & Ireland.*”

The Growth Vision was founded on three key principles for North Wales:

- **Smart** – with a focus on innovation and high value economic sectors to advance economic performance.
- **Resilient** – with a focus on retaining young people, increasing employment levels and skills to achieve inclusive growth.
- **Connected** – with a focus on improving transport and digital infrastructure to enhance strategic connectivity to and within the region.

The North Wales Growth Deal will play a key role in delivering this vision. We will be **smart** with our investment - building on our strengths to boost productivity, foster innovation and be competitive in the markets we serve. We already have well-established research and innovation hubs, which are helping us to push the boundaries in discovering new growth areas for our high value manufacturing business. We will invest further to create centres of excellence to enhance our reputation and enable growth in this important industry.

We will tackle the long-term market failure that has been a barrier for commercial investment - making North Wales more investable and unlocking the potential for new high-value skilled jobs, for young people and our future generations to thrive. We'll address the shortage of suitable land and properties for business growth and to bring forward sites to provide the employment land and housing we need as well as invest in our Port at Holyhead.

By investing now, we build our **resilience** for the future.

We are **connected** as a region. Our partnership across the six local authorities, universities, colleges and the private sector is well established and growing in strength. We're also driving a step change in digital connectivity by balancing investment in infrastructure and technology. We address those areas most in need of faster and more reliable broadband connections and exploit the potential of 5G access and new digital innovation. Opportunities also lie in our close connections with our neighbouring economies such as the Northern Powerhouse, Ireland and Mid-Wales. We can build stronger economies by working together.

We will strengthen our reputation as a cohesive region; leveraging our partnerships to promote growth in the economy that is scalable, sustainable and inclusive. Our Investment in low-carbon energy projects enable us to contribute directly to the climate change emergency, not only helping to make North Wales a cleaner, greener environment, but also

positioning ourselves as one of the leading UK locations within the low carbon energy sector. Not forgetting our foundation economies in agriculture and tourism, we will help to enable and encourage diversification to improve the long-term future of these key industries, ensuring they have opportunity to develop sustainably and thrive.

We will invest in a way that promotes social value and builds wealth in our communities. We recognise and value our obligation to deliver the Growth Deal in a way that improves and enhances our social, cultural, environmental and economic well-being.

The Region

North Wales is known for its beautiful landscapes, its history, heritage, culture and it has the highest proportion of Welsh speakers in Wales at an estimated 41.9%¹.

North Wales is home to nearly 700,000 residents and contributes £14.2 billion to the UK economy each year,² representing 22% of the Welsh economy.³ In North Wales, the population is projected to increase by 2.1 per cent in the 2018-2028 period, and 3.1 per cent in the 2018-2038 period. North Wales has an ageing population. Between 1998 and 2018, the proportion of the population aged 65 and over has increased from 18.5 per cent to 23 per cent, while the proportion of the population aged 15 and under has fallen from 19.8 per cent to 17.8 per cent⁴. The profile of young people in the region aged 14-18 has remained flat for a decade but is projected to increase from 2020, meaning the region must consider the skills and employment opportunities to service this growing demographic.

Economic performance has been resilient following the financial crisis and during the period of austerity, with real⁵ GVA increasing by 20% since 2009. This is compared to 14.9% increase in the Swansea Bay City Region and 12.6% increase in the Mid-Wales Growth Deal area.

The total GVA in North Wales in 2018 was £14,239million, up 4.1 percent over the previous year, which accounted for 21.9 percent of Wales total GVA (£65,089million) and 0.8 percent of UK total GVA (£1,892,681million) in that year.⁶ Within North Wales there are **wide variations in GVA per capita**, with particularly weak productivity in the Isle of Anglesey (53% of the UK average) but stronger performance in Flintshire and Wrexham (both of which are 81% of the UK average).⁷ This is also reflected in average earnings, which lag behind the UK average. Indeed, some local authorities in the West have the lowest earnings in Wales and the UK. For the year ending 30 June 2018, North Wales had the highest employment rate and lowest unemployment and

economic inactivity rates of the Welsh regions⁸. However, there is a greater need in the region for high value employment opportunities.

North Wales has a number of areas that are within the top 10% most deprived areas in Wales. Many of the most deprived areas are based in rural communities.

There remains a persistent and widening productivity gap between North Wales and the UK with wide variations in GVA (Gross Value Added) per capita across the region. Addressing this productivity gap and disparities within Wales is an important priority for the Growth Deal.

North Wales has a diverse economy with key sectors being manufacturing, energy and tourism as well as public sector jobs. The public sector accounts for nearly a quarter (24.7%) of the region's GVA. A fifth (20.3%) of the economy is accounted for by manufacturing, which is significantly more important in North Wales than in Wales as a whole (where it accounts for 17% of GVA). Wholesale and retail, transport, hotels and food sector accounts for 17% of the economy of North Wales. The chart below shows the breakdown of industry contribution to 2018 GVA in North Wales.⁹

A portion of the productivity gap is accounted for by the sectoral structure of the North Wales economy, with some areas particularly reliant on relatively low paid sectors including tourism and retail. At the same time, there are areas of strength, with 64,000 people employed in *high value sectors*, defined as manufacturing; information and communication; and professional, scientific and technical activities.

Supporting high value sectors and addressing long-term barriers to growth is at the heart of the North Wales Growth Deal.

There is an ageing population in the region and a net outward migration of talent from the region. Whilst the population of North Wales is expected to increase to 722,317 by 2039, the share of the population aged 65 or above is expected to increase from 23.6% to 29.8%. This

means a smaller share of working age people, which may place pressures on the supply of skills.

The employment rate amongst working age residents in North Wales stood at 75.9% at March 2020, which was the same as the UK. Over 5 years, between March 2015 and March 2020, 18,300 jobs were added to the economy, a growth of 6.2% for the region. The specific impacts of Covid-19 on the North Wales economy and the Growth Deal are set out in the next section.

Investing in skills that match the needs of the region's new employment opportunities is fundamental to the future economic health of North Wales.

The Case for Change

This section sets out the challenges and opportunities across the key sectors in the North Wales economy that the Growth Deal is seeking to address:

High value manufacturing

- **Supporting innovation and R&D:** there is a need for facilities and technical support with individual businesses unable to access the skills and expertise to innovate and improve productivity via efficiency savings.
- **Supporting the low carbon agenda:** there is a strong need to decarbonise industry in order to meet national targets for clean growth, as well as to capitalise on market opportunities, with the number of green-collar jobs expected to grow to 2 million and the value of UK exports from the low carbon economy to grow to £170 billion a year by 2030.
- **Supply chain integration:** A progressive depletion or 'hollowing out' of the Welsh and UK-based supply chain over recent decades represents a long-term threat to production and manufacturing capability and its future prosperity. There is a need to re-build and sustain SMEs within supply chains to drive competitiveness.
- **Improving productivity:** North Wales' advanced manufacturing sectors are relatively high productivity sectors in the economy, but there is great potential to increase productivity via targeted investments in R&D and skills.

Agri-food and tourism

- **Under-investment in R&D and Innovation:** Engineering & Physical Science Research Council (EPSRC) data suggests that only 2% (c. £95 million) of all grants being offered directed to the Food & Drink sector. R&D spend across these three sectors equated to 1.3% of all R&D spend across all sectors in the UK in 2018 despite the sectors making up 10% of total employment/
- **Supporting the low carbon agenda across Wales and the UK:** From an environmental perspective, reducing carbon emissions is crucial to the future sustainability of Wales and this was recognised in the Wellbeing of Future Generations (Wales) Act 2015, which sets a target to reduce emissions by at least 80% against the 1990 baseline. Introducing sustainable low carbon land management practices, as well as driving innovation and new low carbon

technologies in the agriculture sector could contribute to the long-term carbon reduction agenda.

- **Improving productivity:** In 2017, gross output per hectare of agricultural land was £858 in Wales, significantly lower than UK's most productive region, which was the South East of England (£3,190 per ha). The tourism sector also suffers from lower productivity levels than those seen in England, with GVA per employee in the tourism sector equating to £19,600, 14% lower than the equivalent metric in England.
- **Meeting skills needs:** The latest Employer Skills Survey indicated that 25% of restaurants and hotels in Wales reported skills shortages and 45% businesses within primary industry (which includes agriculture). Both sectors also reported skills gap increases from the previous survey, with hotel and restaurants reporting a +3% increase whilst primary industry reported a +28% increase.
- **Diversification and resiliency:** agriculture, food and tourism sectors form the backbone of many local economies in North Wales. With the imminent exit from the European Union and the loss of related funding, it is important rural businesses have the support and knowledge to help them diversify.
- **Lack of appropriate premises:** Research carried out by Arad for the Glynllifon Rural Economy Hub indicates that the lack of food-grade premises, local product development facilities and technical support is holding back the potential of the sector, with individual businesses unable to access the skills and expertise to innovate and improve productivity via efficiency savings.

Low carbon energy

- **Addressing climate change:** Responding to the climate emergency declared by Welsh Government and the aim of achieving Net Zero by 2050. There is a need to decarbonise North Wales' energy system, including power (e.g. increasing low carbon energy generation), housing (including challenges associated with large numbers of homes being off the gas grid) and transport.
- **Supporting economic growth in low carbon energy sectors:** exploiting local strengths and competitive advantages (e.g. existing energy infrastructure, research strengths and skilled workforce) to drive growth in the low carbon energy sector where there are substantial growth opportunities nationally (sector forecast to grow 11% per year to 2030). An estimated £10.9bn of additional investment is needed by 2035 to put the region on track to achieve Net Zero. This level of investment has the potential to create up to 24,400 new jobs.

Land and property

- **A need for modern employment floorspace.** The network of readily developable strategic sites, capable of supporting both indigenous business growth and inward investment is relatively weak and fragmented
- **Low land values and infrastructure constraints** have resulted in insufficient developer interest, leading to a lack of supply of housing and commercial premises. To date the market has failed to address these challenges and therefore there is a

specific need for Growth Deal funding to enable the delivery of employment space, serviced residential land and improvements to Holyhead Gateway.

Digital connectivity

- **Addressing the digital divide:** in order for the North Wales economy to prosper and for key sectors to grow to their fullest potential, significant connectivity gaps must be addressed. There is a need to rapidly increase gigabit connectivity at key growth sites, ensure rural 'not spots' are tackled in full, deliver seamless mobile connectivity across economic corridors and assets and provide the foundations for greater social equity and inclusion.
- **Responding to clear demand for better connectivity:** a wide body of evidence showcases the prescient need for next generation fixed and mobile broadband and the opportunity cost of poor provision, relative to other parts of the UK. There is an exceptional appetite to deploy more sophisticated technologies and innovative use cases, which will secure productivity, efficiency and competitiveness across the region.
- **Creating competitive market conditions:** North Wales' digital connectivity has been constrained by a lack of market competition at the wholesale level, and within the degree of choice offered by broadband providers at the retail level. There is an opportunity to respond to this by creating conditions that improve market attractiveness, reduce consumer costs, enhance end user take-up and provide the basis for longer-term commercial investment.
- **Establishing a world-class digital corridor:** the A55 is the primary economic axis for North Wales, connecting key sites, hubs for growth and the region's most prominent assets. There is an opportunity to ensure that 5G and full fibre broadband creates a seamless high-speed corridor, as the basis for large-scale smart technology deployment, pilots and trials and as a lever for inward investment.
- **Expanding digital research capacity:** North Wales has an emerging profile as a base for innovative and technology-led research, led by higher education institutions and the private sector. There is an opportunity to scale this further, drawing on other sources of funding and business intent, creating a critical mass of technology, expertise and ambition to ensure that North Wales is at the cutting edge of the discovery and deployment of cutting-edge technologies.

The economic impact of Covid-19

Covid-19 has had an immense economic impact on North Wales as in other parts of the UK and globally. The Economic Ambition Board works closely with the six local authorities, UK and Welsh Governments and private sector representatives to co-ordinate the regional response to economic recovery. The longer term effects of Covid-19 on the regional economy at this stage is still unknown.

Work is underway to define the state of the economy in North Wales during what has been a volatile and challenging period for businesses and employees across many sectors. This period of uncertainty caused by the pandemic is ongoing and with the transition period for

leaving the EU ending on the 31 December the outlook for winter is bleak. In terms of strengthening the economy in the long term, the Growth Deal will be a welcomed source of hope and investment for the citizens of North Wales.

Interventions already undertaken and planned to create a reliable and evidence based approach to the situational analysis include a regional survey of businesses which attracted over 1,800 responses. A commissioned report on tourism to identify the strengths, weaknesses and opportunities to preserve and revive and develop the tourism economy sustainably. The appointment of an independent economic partner to co-develop the situational analysis and framework for recovery planning for North Wales. Looking initially at the near-term economic recovery post-Covid but also recognising the need to measure and evaluate the impact of the Growth Deal investment on the North Wales economy in the long term throughout the lifetime of the deal.

The Growth Deal is designed to address structural, long-term barriers to economic growth. However, the Board is fully aware that in the short-term a range of actions will be needed to facilitate recovery and alignment between those short term measures and the Growth Deal is key.

The Growth Deal on its own cannot address all the challenges facing the North Wales economy, particularly in light of Covid-19. However, such a significant injection of capital investment into the North Wales economy through the Growth Deal will be a significant boost to the construction and related sectors at a time when there is likely to be spare capacity in the economy.

The Investment

The investment by UK Government, Welsh Government & the North Wales Economic Ambition Board will act as a catalyst and accelerator to unlock investment and aid economic recovery in the region.

The UK and Welsh Governments have each committed to the investment of up to £120 million (total £240 million) over the next 15 years, with the North Wales Economic Ambition Board also committing to secure up to a further £900million of investment, which represents an overall investment deal worth in excess of £1 billion

Through the North Wales Growth Deal, the Welsh and UK Governments and partners are embarking on a new strategic relationship that creates a lasting legacy that will transform the region in the long term with co-ordination centred across key programmes outlined in Table 1.

The Impact of the Growth Deal

The Heads of Terms agreement set out that the Government investment would be used to create up to 4,000 new jobs, support 5% GVA uplift and secure £500million in private sector investment over the 15-year period. In the development of a portfolio and five programme business cases to secure the Final Deal agreement with Welsh and UK Government these have been refined into the following spending objectives for the North Wales Growth Deal. All the programmes and projects within the Growth Deal contribute to these overall objectives.

Spending Objective 1 - Jobs	To create between 3,400 and 4,200 net new jobs in North Wales through the Growth Deal by 2036.
Spending Objective 2 – GVA	To support a net additional GVA uplift of between £2.0 billion and £2.4 billion for the North Wales Economy through the Growth Deal by 2036.
Spending Objective 3 – Investment	To deliver a total investment of up to £1.1 billion in the North Wales Economy through the Growth Deal by 2036.

All Growth Deal programmes and project will contribute to achieving the spending objectives above. Each of the programmes will generate a set of benefits that have been classed as direct, indirect and wider benefits. The precise nature of these vary between the programmes. The key types are summarised below, by programme.

6. The Growth Deal Programmes

The aim of the Growth Deal is to build a more vibrant, sustainable and resilient economy in North Wales, building on our strengths to boost productivity while tackling long-term challenges and economic barriers to delivering inclusive growth. Our approach is to promote growth in a scalable, inclusive and sustainable way in line with the Future Generations Act. The Growth Deal is based on the delivery of 14 transformational projects across 5 programmes. The programmes have been defined as either high growth programmes or enabling programmes.

High growth sectors to drive productivity in the region

The projects within the Growth Deal aimed at increasing the value and impact of high growth sectors will be focused on three key programmes:

- **Low carbon energy Programme**, initial projects include:
 - Morlais
 - Trawsfynydd Power Station
 - Low Carbon Centre of Excellence
 - Smart Local Energy
 - Transport Decarbonisation
- **Innovation in high value manufacturing Programme**, initial projects include:
 - Centre for Engineering Biotechnology
 - Enterprise Engineering and Optics Centre
- **Agri-food and tourism Programme**, initial projects include:

- Glynllifon Rural Economy Hub
- Llysfasi Carbon Neutral Centre
- Tourism TALENT Network

Addressing key barriers to enable and achieve economic growth

We have identified enabling sectors through the Growth Deal to tackle key economic barriers and address structural issues that have impacted on productivity and jobs. Delivery in these sectors will create the appropriate conditions for businesses to invest in the region and for the labour market to take advantage of new employment opportunities. A strategic approach will be taken with our investments, ensuring that they are well-targeted in order to enable economic and employment growth across the region. This will be done in partnership with key partners, especially the UK and Welsh Governments.

The projects within the Growth Deal to address key barriers to growth will be focused on two key programmes:

- **Land and Property Programme**, initial projects include:
 - Regional Land and Property
 - Holyhead Gateway
- **Digital Programme**, initial projects include:
 - Digital Connectivity
 - Digital Signal Processing Centre

By focusing delivery on these programmes collectively, the Growth Deal will achieve a greater impact in terms of our ambition and use of resources rather than delivering them in isolation.

Two further enabling programmes sit outside the scope of the North Wales Growth Deal to be funded from other sources:

- **Skills and Employment**
- **Strategic Transport**

The programmes remain key to delivering the wider vision for North Wales and the Economic Ambition Board is working with the Regional Skills Partnership and through its Transport Sub-Board to identify and secure alternative funding sources to deliver these programmes.

Figure 6.1 The Growth Deal Programmes

Source: North Wales Economic Ambition Board

All programmes and projects within the Growth Deal will contribute to the achievement of the Growth Vision and the delivery of benefits for North Wales. The benefits from the Growth Deal will support sustainable and inclusive growth across the region – in accordance with the Growth Vision as well as the priorities of the Well-Being of Future Generations Act.

The strategic aims to address in each programme, and the types of intervention they are intended to facilitate, are summarised below:

Low carbon energy

Strategic aims: Addressing climate change through support for new low carbon energy generation in North Wales, while driving increased supply chain investment and growth in low carbon energy sectors.

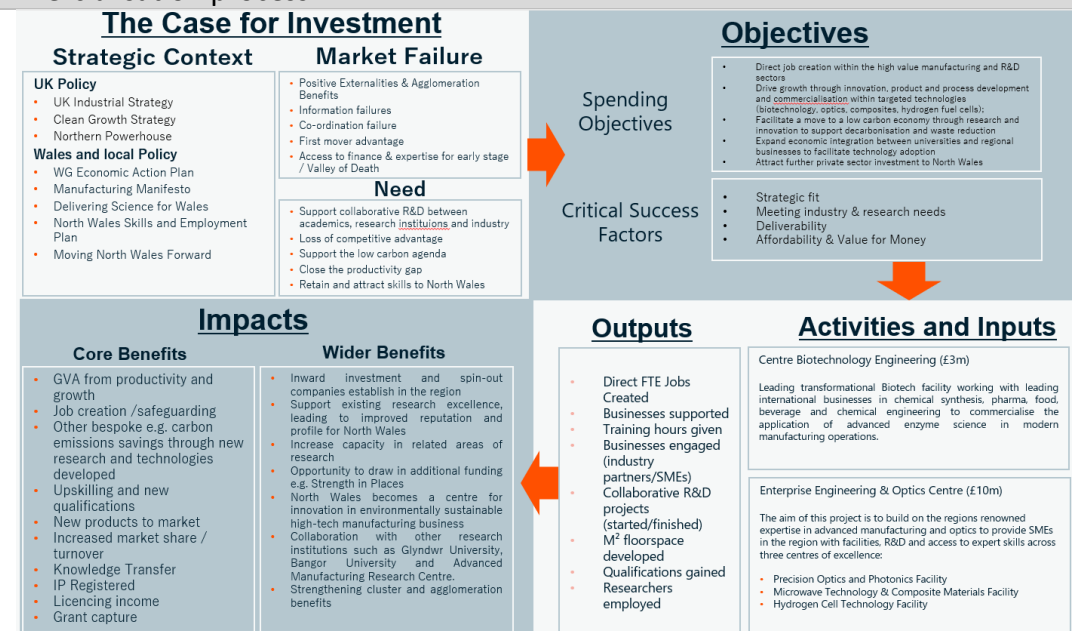

Types of intervention: Enabling works for new low carbon energy generation in North Wales, enhancing research and innovation facilities for low carbon economy sectors, and support for local energy projects.

Innovation in high value manufacturing

Strategic aims: Ensuring North Wales remains competitive and recognised in the region's well-established research and innovation areas, thus helping drive innovation, competitiveness and productivity across the North Wales manufacturing sector.

Types of intervention: Industry and research collaborations along with the establishment of centres of excellence to help overcome barriers and market failures in the research commercialisation process.

Agri-food and tourism

Strategic aims: To diversify and improve the long-term sustainability of agriculture and tourism, ensuring that they are more productive and sustained in the long-term, whilst also supporting the low carbon agenda.

Types of intervention: Introducing new technologies & innovation, skills and practices to these sectors, via business support and upskilling.

Land and property

Strategic aims: To address the shortage of suitable land and properties for business growth and to bring forward sites for housing development and to deliver improvements that stimulate investment in the Port of Holyhead and the wider region. These projects will play an enabling role for the other programmes by ensuring that serviced sites are available for investors and developers.

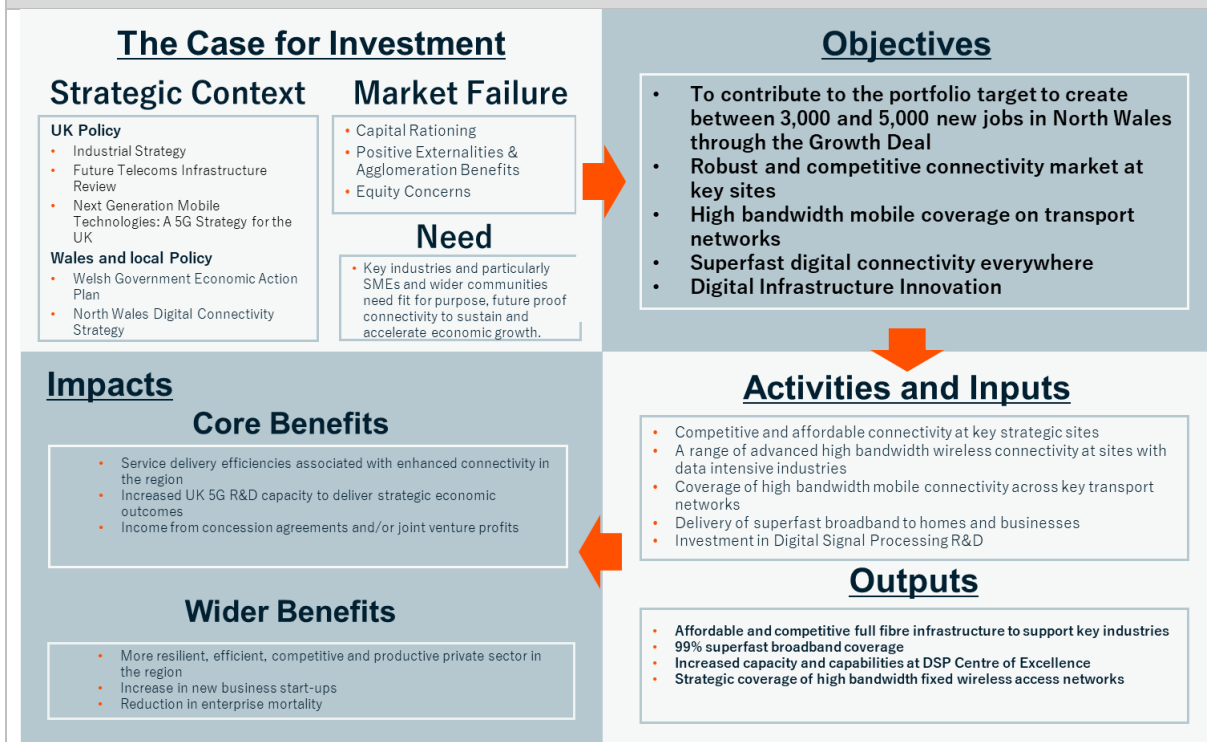

Types of intervention: The provision of primary services and enabling works to bring forward commercial and housing development sites, delivery of employment floor space and future proofing and capacity enhancement works to the port of Holyhead.

Digital

Strategic aims: To deliver the step change in digital connectivity needed to ensure North Wales is able to satisfy user demand, maintain pace with the rest of UK, unlock the growth potential of priority sectors and sites and underpin a flourishing innovation ecosystem. Plays an enabling role for other programmes to deliver maximum benefit.

Types of intervention: The programme has identified a need to which balance investment in infrastructure and technology, through enhanced fixed broadband footprint at key sites in rural areas, unlocking applications through 5G access, and furthering digital innovation.

7. Governance Structure

The Deal's governance arrangements enable decisions to be made in an open and transparent way for the benefit of the whole of the region. This section details these arrangements and how they contribute to the management of the programme and associated risks

The Board was established by local authority partners as a joint committee in 2019 and is the decision making body for the North Wales Growth Deal. It also has a wider role to lead regional collaboration more broadly. The governance arrangements for the Board are underpinned by the partnership agreement 'Governance Agreement 2' to be adopted on completion of the Final Deal.

The Welsh and UK Governments link with the governance structure both formally and informally.

Governance Agreement 2

Having Secured the Growth Deal the Partners have agreed to enter into a second Governance Agreement ("GA2") which will support the partnership into the next phase of implementation of the Growth Deal and further development of the Growth Vision.

The agreement, which is a legally binding document defines the role and function of the Board and its delegated powers. It also provides for its decision making structures and democratic accountability. Provision is made for the commitments of the Partners to the project and how these are managed and apportioned. GA2 provides assurance for the Accountable Body ("Gwynedd Council") in assuming that role. The underlying arrangements providing for legal and compliance matters within the partnership and the governance of the Programme Office are also addressed.

It is a key document providing a clear structure and foundation for taking the implementation of the Growth Deal forward.

Portfolio, Programme and Project Management Arrangements (PPM)

The Board has adopted a delivery model based on a best practice approach to portfolio, programme and project management as set out in 'Government Functional Standard GovS 002: Project Delivery'. Portfolio, programme and project management is an integrated way of meeting an organisation's ambitions, driving better decisions and increasing the likelihood of successful outcomes.

The diagram below sets the PPM governance delivery structure for the Growth Deal:

Figure 1.3 Growth Deal Delivery Structure

Source: North Wales Economic Ambition Board

Strategic and Portfolio Level

North Wales Economic Ambition Board (Sponsoring Group) - The Board acts as the Sponsoring Group (Organisation) and the Decision-Making Body. All authority below this level is delegated to relevant parties as required through a formal Board decision. A member of the Board will take on a Lead Member role for each of the programmes and sit on the relevant Programme Board. The Board will be responsible for the consideration and approval of project business cases within the portfolio and with responsibility for delivery delegated to the relevant programme and project boards.

Executive Support Group (Portfolio Board) - This group is the advisory body to the Economic Ambition Board but also acts as the Portfolio Board for the Growth Deal to support and challenge the Growth Deal Portfolio Director to ensure delivery. The group is made up of senior officers from each of the Economic Ambition Board’s partner organisations. A member of the Executive Support Group will act as a Senior Responsible Owner (SRO) for each of the programmes and lead the relevant Programme Board.

Programme Director - The Portfolio Director is accountable to the Economic Ambition Board for the delivery of the Growth Deal portfolio.

Programme and Project Level

Portfolio Management Office (PMO) – The PMO supports and co-ordinates activity across the programmes acting as an information hub and ensuring a consistent approach to reporting, control of risk and issues. It also acts as a valuable assurance function, providing advice and challenge to programmes and projects. Each programme is assigned a Programme Manager from within the PMO.

Programme Boards - Each programme will have a formal Programme Board and an appointed Senior Responsible Owner (SRO). These boards will be focused on the development (initially)

and delivery of the agreed Programme Business Case, with a specific focus on the benefits and outcomes to be achieved. Programme Boards escalate to the Portfolio Board via the Programme Director.

Project Boards - All projects within the Growth Deal will be managed via a Project Board with appointed SROs and project managers in place to ensure delivery. These boards will be focused on the development and delivery of the agreed business case, with a focus on the delivery of specified outputs. Projects and Project Boards will be the responsibility of the Lead Partner and clear arrangements for the delivery of projects in line with best practice will be set out in each project business case. Projects will report through to the relevant Programme Board. Terms of Reference for Project Boards will be agreed between the Lead Partner and the Portfolio Management Office to ensure the appropriate links and reporting arrangements between the project and the Programme Board are understood by both parties.

Standing Orders, delegated authority and terms of reference

The Portfolio Management Office has been established by the Board to deliver the deal. They are employed by Gwynedd Council as the Accountable Body and generally operate to their standards, procedures and policies.

Governance Agreement 2 sets out the authority delegated to the Board by the Partner Organisations and what authority is delegated to the Programme Director. Terms of reference for the Board are included as part of Governance Agreement 2.

Resourcing

The Portfolio Management Office has been established to deliver the North Wales Growth Deal. The Economic Ambition Board's Portfolio Management Office was established in January 2020 to oversee the delivery of the North Wales Growth Deal, its programmes and projects. Led by the Programme Director, the team includes experienced programme and project managers as well as operational staff. The team is supported specifically by legal and financial resources provided through the Accountable Body as well as a wide range of additional resources drawn from across the partnership.

Decision Making Process

The North Wales Growth Deal partners are committed to putting in place robust decision-making and financial management processes to ensure that public money is spent responsibly and accounted for. The Board is a Local Authority executive joint committee and as such is subject to the requirements in relation to transparency, accountability, standards of governance, decision making and conduct which apply to such a body.

Decisions within the Economic Ambition Board's governance framework can be categorised at three levels:

- **Programme Director Matters** – decisions that the Programme Director can make
- **Joint Committee Matters** – decisions that the Board can make
- **Reserved Matters** – decisions that would require separate agreement of all partners

All decisions related to the delivery of Growth Deal as set out within this document within the agreed funding envelope for the partnership will be either Programme Director matters or Joint Committee matters.

The Board as a Joint Committee whilst having majority voting will seek to establish a consensus of all the Partners around all decisions relating to the Growth Deal.

It is recognised that the Board's powers and duties relate to activities set out in the North Wales Growth Deal. Each constituent partner's decision-making in relation to its own financial commitments will not be subject to Economic Ambition Board approval. The Economic Ambition Board working with the Accountable Body does however have a monitoring and assurance role with respect to the Growth Deal funding to ensure that it is spent in line with the Growth Deal objectives.

Project Approval Process

The Growth Deal is agreed on the basis of a portfolio business case and five programme business cases. Once the final deal has been agreed, project business cases can be brought forward for the Board to consider.

Full (5 Case Model) business cases will be developed for each project within the North Wales Growth Deal in line with the 'Better Business Case' guidance developed by Welsh Government and HM Treasury.

Preparing a Project Business Case using the five Case model provides decision makers and stakeholders with a proven framework for structured 'thinking' and assurance that the project provides and strategic fit, maximise public value, is commercially viable, is affordable and is fundable over time.

Project business cases will be required to demonstrate how they deliver against the objectives and aspirations of the North Wales Growth Deal and specifically the relevant programme business case.

It is recognised that through the development and agreement of portfolio and programme business cases between the Economic Ambition Board and UK/Welsh Government that the strategic case for projects will have been established.

Each project business case will be subject to independent gateway reviews at agreed points as agreed with the Welsh Government Assurance Hub.

Project business cases will first be considered by the relevant Programme Board. Business cases will only be presented to the Economic Ambition Board following endorsement by the Portfolio Board and the Programme Board and the completion of required gateway reviews. The PMO retains the right to commission external reviews of project business cases where required.

Change Management

Change management activities for the Growth Deal will be primarily managed via the Programme Boards and relevant Project Board within tolerances delegated by the Economic Ambition Board upon consideration of the project business case.

Significant changes outside these tolerances would need to be escalated to the Portfolio Board. Recommendations will then be presented to the Economic Ambition Board for a decision. Examples of such decisions may include changes to cost, scope, timescales and benefits. Any significant changes beyond the agreed governance framework for the Growth Deal, specifically changes that would lead to increase cost for the Board partners, would be considered a reserved matter and require the approval of all the individual partners.

Any new or replacement projects to be brought forward for consideration outside of the initial 14 projects must demonstrate delivery against the relevant programme business case and the objectives of the portfolio business case. Where those projects are within the existing agreed financial envelope for the partnership, those projects would be a matter for the Board to decide upon.

Projects that fall outside the remit of an agreed programme business case or those that would exceed the agreed financial envelope would be considered a 'reserved matter' for the Board partners.

Role of Members/Accountability

It is the duty of all Board members to act in the best interests of the North Wales Growth Deal region. All private and third sector members will also be required to act in the interests of the North Wales Growth Deal region, foregoing any interest (if any) their own organisation may have in the North Wales Growth Deal and any related projects.

All members are expected to comply with the code of conducts of their respective organisations, the Economic Ambition Board's Conflict of Interest Policy and the values and aspirations of the North Wales Growth Deal.

Government representatives may attend in observer/advisory capacity and are not bound by the requirements of the Board's members.

8. Role of the Accountable Body

For the duration of the Growth Deal, the accountable body shall be responsible for receiving and allocating funds for and on behalf of the Board. The Accountable Body shall

- act diligently and in good faith in all its dealings with the other Parties and it shall use its reasonable endeavours to discharge the Parties' obligations in relation to the implementation of the Growth Deal and delivery of the Growth Vision.

- act as the primary interface for the Economic Ambition Board with Welsh Government, and UK Government and any other body as necessary in relation to the implementation of the Growth Deal.
- hold any funds received directly from Welsh Government, and UK Government, the Economic Ambition Board partners and/or any other sources (if any) in relation to the Growth Deal and only to use and release such funds as agreed in accordance with the terms of the Growth Deal;
- hold land and/ or any other assets procured under any project on trust for the Economic Ambition Board partners pursuant to the terms of the relevant Project Business Case.
- without assuming responsibility for the delivery of any specific Growth Deal project and within the limitation of the funding provided to it (as part of the Joint Committee Costs), provide the support services required to facilitate the work of the Board.
- without assuming responsibility for the delivery of any specific Growth Deal project, provide for the Host Authority's Chief Finance Officer ("s151 Officer") and Monitoring Officer (or their nominated deputies) (the "Monitoring Officer") to act, respectively, as the s151 Officer and Monitoring Officer to the Joint Committee; and
- have responsibility for, but not limited to administering the financial affairs of the Joint Committee (and its sub committees and groups established), including accounting for VAT, keeping financial records, ensuring that the annual accounts of the Joint Committee are prepared in accordance with the Code of Practice on Local Authority Accounting and making arrangements for the external audit of the Joint Committee.
- employ the Portfolio Management Office to deliver the Growth Deal.

9. Monitoring and Evaluation

Programme and project performance will be monitored on a monthly basis through the relevant programme and project boards with formal quarterly reports submitted to the Portfolio Board and the North Wales Economic Ambition Board.

The Board has an adopted Risk Framework for the delivery of the North Wales Growth Deal. The Framework sets out how risks and issues will be managed at the appropriate level across the portfolio with clear escalation processes in place. The Strategy sets out the three levels of risk associated with the delivery of the Growth Deal – portfolio level risks, programme level risks and project level risks.

A Monitoring and Evaluation Plan has been developed for the North Wales Growth Deal. The key components of the Monitoring and Evaluation Plan are set out below:

- Monthly Highlight Reports for all programmes and projects;
- Formal Quarterly Reports to the Economic Ambition Board, UK Government and Welsh Government;

- Formal Annual Report to Economic Ambition Board, the Board's partners, UK Government and Welsh Government;
- Independent economic impact evaluation to be undertaken every 3-5 years against suite of indicators agreed with UK Government and Welsh Government.
- Wider benefits to be achieved through procurement, particularly social and community value will be monitored and evaluated to ensure maximum benefit is derived to the region from such activity.
- The Economic Ambition Board will work with the Welsh Government to ensure that evaluation against the Future Generations Act is a key component of all monitoring and evaluation activities.
- The Economic Ambition Board is committed to developing an appropriate feedback mechanism for the North Wales Growth Deal with both governments to ensure lessons learned during the delivery of the Growth Deal are captured and shared.

DRAFT

GA2 – SUMMARY OF KEY MATTERS

1. BACKGROUND

The Partners entered into an initial Governance Agreement 1 (GA1) in December 2018. This formally established the North Wales Economic Ambition Board (“NWEAB”) as a Joint Committee and defined the roles and responsibilities of the Partners within that relationship. It was an agreement designed to take the Partnership through the process leading up to Heads of Terms and through to final Deal Agreement. It also allowed for the creation of the capacity to take the implementation of the Growth Deal and Growth Vision forward once the Final Deal Agreement had been signed. As part of the next phase of the Growth Deal a second Governance Agreement (GA2) is proposed.

The parties to GA2 continue unchanged:

- Conwy County Borough Council
- Denbighshire County Council
- Flintshire County Council
- Gwynedd Council
- The Isle of Anglesey County Council
- Wrexham County Borough Council
- Bangor University
- Wrexham Glyndwr University
- Coleg Cambria
- Grwp Llandrillo Menai

2. COMMENCEMENT AND DURATION

The agreement is intended to remain in force and effect for the period of the Growth Deal. It will come into force at the signing of the Final Deal Agreement committing the Partners to the Growth Deal. It will remain in full force and effect until such time as either all the Parties have withdrawn or all Parties agree to terminate the agreement. It also includes a so called “lock in period” which is an agreement that no party may operate the withdrawal provisions for the initial 6 years of GA2. This ensures stability for the Partnership and is based on the anticipated period of investment of the initial Growth Deal. Withdrawal after this period is possible on notice. However, any Partner who wishes to withdrawal will be required by the terms of GA2 to indemnify the remaining Partners against the financial impact of that withdrawal and in particular any existing and continuing contractual commitments.

3. GOVERNANCE PRINCIPLES AND FRAMEWORK

3.1 North Wales Economic Ambition Board

GA1 established the North Wales Economic Ambition Board (“NWEAB”) as an “Executive” Joint Committee and that arrangement continues into GA2. As with GA1 the voting committee membership is made up of the Leaders of all 6 local authorities with the other parties to GA2 participating as Advisers. The key changes in GA2 are in relation to elements of the matters delegated to the NWEAB as it transitions into the delivery of both the Growth Vision and Growth Deal.

3.2 Executive Support Group

The Executive Support Group was established under GA1 to co-ordinate professional advice to the NWEAB, oversee the deployment of resources and have responsibility for the performance management of the NWEAB work streams. It also acts as clearing house for reports to the NWEAB. Its membership includes senior officers from all the Partners and will also have presence from Welsh and UK as needed.

3.3 Portfolio Management Office

The Portfolio Management Office was established under GA1 and provides the professional and staff resource to support and deliver the Growth Deal and Vision. It is led by the Programme Director. GA2 provides the framework for establishing employing and managing the Programme Office. It is funded by a combination of Partners Contributions and grant secured by the ESF.

3.4 Business Development Group

The Heads of Terms made specific provision for the establishment of a private sector stakeholders group to advise and challenge the work of the NWEAB. The NWEAB had established the Business Delivery Group as part of its work leading up to the Final Deal Agreement and this now enshrined as a requirement in GA2.

3.5 Accountable Body

From the outset in GA1 the NWEAB was established as a Joint Committee with Host Authority. This continues into GA2 with Gwynedd Council acting as Host Authority which has the core function of supporting the NWEAB by acting as a legal entity which enters into contracts, holds cash and assets and acts as employing body for the staff. It also provides support services for the NWEAB as a Joint Committee. The administrative requirements of the Growth Deal require that one Authority acts as the accountable body which enters into the formal Final Deal Agreement and accepts the Grant Offer Letter. This is a formal role which is undertaken by the Accountable Body on behalf of the Partnership but places responsibilities and obligations on IT. Ga2 provides for this arrangement and the protections and indemnities for the Accountable body in this role.

4. CODES OF CONDUCT AND CONFLICTS OF INTERESTS

As with GA1 this agreement extends the provisions of the Members Code of Conduct in relation to declaration and management of Personal Interests to eth other Partners Representatives. In addition it also provides for a Conflicts of Interest Policy which is designed to ensure that Conflicts of Interests which may arise in the wider group of bodies established to support and manage the programmes are properly managed to ensure probity in the work of the NWEAB.

5. PARTNERS CONTRIBUTIONS

The arrangements for Partners contributions towards the running costs of the NWEAB continues on the same basis as GA1. The Supplementary Contribution which was provided by the Councils is also incorporated in GA2 but as a Councils only matter.

	Local Authority Contribution	HE/FE Annual Contributions	Total Annual Contribution
GA1 Annual Core Contributions*	£50k per LA	£25k per partner	£400k
Annual Supplementary Contribution	£40k per LA	0	£240k

**GA2 provides that these contributions will be subject to inflation based annual increase.*

6. DELEGATION

The NWEAB derives its delegated authority from the Councils. This is a key aspect of GA2 and the governance of the partnership. Its delegation is also defined by reference to the financial limits on its decision making.

The specific delegations are split into 4 categories but generally there is no specific bar for onward delegation by the delegatee.

Programme Director Matters – Matters which are delegated to the Programme Director.

Joint Committee Matters – Matters which are matters which the Joint Committee can decide on.

Matters Reserved to Partners – Matters which require a decision of all the Partners individually.

Matter reserved to Councils – Matters which require a decision of all the Councils individually (these are limited to the Supplementary Contribution and voluntary establishment of a Corporate Joint Committee).

In most respects the delegation scheme remains largely unchanged in terms of substance. However, there are key aspects which have been developed in reflection of the move towards the implementation phase of the Growth Deal in particular:

- a) Portfolio and Programme management. It sets out the delegation to the NWEAB in relation to approving Project Business Cases and determining the inclusion of new Projects in the Programmes in accordance with the parameters set out in the Overarching Business Plan.
- b) That decisions which require increased or additional funding from the Partners will be Matters Reserved to the Partners.

7. SCRUTINY

As a local authority Executive Joint Committee the functions of the NWEAB are subject to Overview and Scrutiny. Although a Joint Scrutiny Committee could be established it is proposed that Local Scrutiny Committees retain this role. In order to facilitate this arrangement GA2 includes a Scrutiny Protocol which provides a basis for on-going updates to Scrutiny Committee in relation to the work of the NWEAB and also an agreed approach should a Call In be requested by any Scrutiny Committee.

8. BUSINESS PLANS

There are four categories of Business Plan within the Growth Deal which are relevant to GA2:

The **Overarching Business Plan** is adopted by the Partners and is intended to reflect the Partners strategy for the Growth Deal and how they anticipate that the NWEAB will deliver the programme on their behalf. The approval of the Overarching Business Plan is a Matter Reserved to Partners as is any material change to its contents. However, the NWEAB will be required to keep the document under regular review.

The **Portfolio and Programme Business Cases** are submitted by the NWEAB to both Governments initially as part of the Final Deal Agreement process and the management of the Growth Deal thereafter. **Project Business Cases** as the name implies are for individual Projects. They are not submitted to Governments for approval but need to accord with the overall scheme of the Portfolio and Programme Business Cases.

9. PARTNERS COMMITMENTS

GA2 also defines the financial commitment of the Partners to the Growth deal both in terms not only of the running costs but also in financing the cash flow implications of the way in which Growth Deal finance is drawn down from the Governments. So, the agreement sets out the ceiling of the borrowing costs which the Councils will be meeting. The NWEAB may not take any decisions in relation to Programmes or Project which would cause that limit to be exceeded without the consent of the individual Partners as a Matter Reserved.

10. WITHDRAWAL AND TERMINATION

Subject to the "Lock in" Period a Partner may withdraw from the GA2 on giving the requisite 12 months minimum notice. In the event that such a notice is served the Withdrawing Partner will be served with a Liability Notice which requires them to reimburse and indemnify the Partners against, in general terms, the costs and liabilities which remain or are incurred as a consequence.

11. GENERAL

GA2 also includes the general terms and conditions which are expected of a Welsh public joint venture agreement of this magnitude. These are transposed from GA1 and include how statutory duties and matters such as Data Protection and Freedom of Information are managed and applied.

CONFLICTS POLICY**

CONFLICTS POLICY

DATED

NORTH WALES ECONOMIC AMBITION BOARD

CONFLICTS OF INTEREST POLICY

1. Introduction

- 1.1 This is the conflicts of interest policy ("**Conflicts Policy**") of the North Wales Economic Ambition Board ("**NWEAB**") which sets out the guidelines and procedures for identifying, monitoring and managing actual and potential conflicts of interest.
- 1.2 The Conflicts Policy seeks to highlight both:
 - (a) Personal Interests (defined in paragraph 3); and
 - (b) Organisational Interests which relates to specific conflicts arising as a result of a person's duty to act in the best interests of both the NWEAB and its employer/organising body (defined in paragraph 4);together "**Interests**".
- 1.3 The Conflicts Policy applies to the members and advisers of the **NWEAB Bodies** as listed in Schedule 1 of this Conflicts Policy each individually a "**Person**".
- 1.4 The Conflicts Policy:
 - (a) forms part of the conditions of appointment of each Person to an NWEAB Body (both present and future appointments);
 - (b) is deemed to be accepted by each and everyone acting in each role;
 - (c) is in force as at the date on the front page of this Conflicts Policy or, if earlier, the Commencement Date of the GA2; and
- 1.5 It is intended that the Conflicts Policy will be attached as a Schedule to the second Governance Agreement ("**GA2**") to be put in place between the Parties.

2. The purpose of this policy

- 2.1 The NWEAB is a Local Authority Joint Committee formed as part of a partnership between the North Wales Local Authorities (the Councils) and other bodies (the Advisers) listed in Schedule 1 of this Conflicts Policy.
- 2.2 It's governance principles and arrangements are set out in the first Governance Agreement ("**GA1**") which will be updated and superseded by the GA2 around the time the Growth Deal is signed which is schedule to be at end of 2020.
- 2.3 It is a public body administering and directing public resource and finance in the public interest. It adopts and promotes the highest standards of probity and accountability in its activities. The Councillors are governed by their Local Code of Conduct for Members of Local Authorities which includes, amongst other things, the management of Personal Interests and, in the case of Advisers to the Joint Committee acting in that role, a voluntary Code of Conduct relating to Personal Interests incorporated into GA1 and will be incorporated into GA2. Local Authority Officers are governed by their Code of Conduct which will generally apply to their conduct. The Conflicts Policy regulates each Person's role within NWEAB Bodies and is

intended to complement, and work alongside, these Codes of Conduct. In the event of any discrepancy, please report this immediately to the NWEAB's Monitoring Officer.

- 2.4 Conflicts of interest can inhibit open discussions and may result in a Person taking irrelevant considerations into account or making decisions that are not in the public's best interests. They can also damage the reputation of the NWEAB if it appears that a Person is influenced by personal interests or loyalties and in some circumstance create a risk of legal challenge to a decision. All Persons must therefore be alert to the possibility that they, or any member of a NEWAB body could be affected by a conflict of interest.
- 2.5 The NWEAB has recognised that the partnering and joint working approach to working with various sectors of the North Wales Economy mean that there will be occasions where members or participants in meetings, consultations and advisory capacities will have their own commercial or business Interests in the matter under consideration. This may mean that their ability to act in the public interest or the perception of their ability to act in the public interest will be undermined to the detriment of the NWEAB.
- 2.6 The procedures in this policy will enable the identification and management of conflicts of Interest.
- 2.7 This Conflicts Policy:-
- (a) aims to assist you in identifying and recognising conflicts of interest that may arise due to your role on an NWEAB body; and
 - (b) sets out the NWEAB'S expectations and requirements as to how such conflicts should be managed, in order to ensure that that conflicts do not prevent them from making decisions in the public interest and protect both the NWEAB and the NWEAB Team from any appearance of impropriety in cases where conflicts of interest arise.
- 2.8 It is your responsibility to ensure that you have read, understand and are able to comply with this Conflicts Policy.

3. Identifying a Personal Interest

You must regard yourself as having an Personal Interest in any business of the North Wales Economic Ambition Board in which you are participating as a member of a NWEAB Body or advising that Body if:-

- 3.1 it does or is likely to directly or indirectly affect the well-being or financial position of such individuals below to a greater extent than other tax payers in North Wales:-
- (a) you;
 - (b) anyone with whom you live; or
 - (c) anyone with whom you have a "close personal association";
- 3.2 directly or indirectly relates to or is likely to directly or indirectly affect any of the following:-
- (a) any employment or business of such an individual;

- (b) anyone who employs or has appointed such an individual, any firm in which such an individual is a partner or any company for which such an individual is a remunerated director;
- (c) any corporate body which has a place of business or land in North Wales, and in which any such persons has a beneficial Interest in a class of securities of that body that exceeds the nominal value of £25,000 or one hundredth of the total issued share capital of that body;
- (d) any contract for goods, services or works made between the NWEAB:-
 - (i) any such person;
 - (ii) a firm in which such an individual is a partner;
 - (iii) a company of which such an individual is a remunerated director; or
 - (iv) a body of the description specified in sub-paragraph 2.2.3 above;
- (e) any land in North Wales:-
 - (i) in which such an individual has a beneficial interest; or
 - (ii) which such an individual has a licence (alone or jointly with others) to occupy for 28 days or more;
- (f) any land where the landlord is the NWEAB and the tenant is:
 - (i) a firm in which such an individual is a partner;
 - (ii) a company of which such an individual is a remunerated director; or
 - (iii) a body of the description specified in sub-paragraph 2.2.3 above;
- (g) any of the following bodies in which such an individual is a member or holds a position of general control or management:-
 - (i) a company, industrial and provident society, charity, or body directed to charitable purposes;
 - (ii) a body whose principal purposes include the influence of public opinion or policy;
 - (iii) a trade union or professional association; or
 - (iv) a private club, society or association operating within North Wales,
 each one being a "**Personal Interest**".

"Close Personal Association" shall be interpreted in accordance with the provision of the Local Authorities (Model Code of Conduct) (Wales) Order 2008. If in doubt whether an individual is connected, each person should seek advice from the NWEAB's Monitoring Officer.

4. Identifying an Organisational Interest

- 4.1 It is envisaged that, in carrying out your roles for the NWEAB and your employer or organisation that situations may arise where your duty to act in accordance with the General

Principles of NEWAB as set out in GA2 and the public interest does or is likely to come directly or indirectly into conflict with your duty to act in the best interests of your organisation.

4.2 Such conflict matters can arise in a wide range of circumstances including but not limited to where decisions are made around, reporting, contractual discussion and investment requests.

4.3 Examples of such a conflict are set out below:-

Example 1

(a) *You will have an Organisational Interest in any business before a Programme Board of which you are a member or advising where that business involves the review or scrutiny of the performance of your organisation specifically in delivering a project or an aspect of a project which it has either by grant or contract committed to provide.*

(b) *You will have an Organisational Interest in any business before any EAB body where your organisation is a bidder for a contract whose bid is being evaluated or awarded by that body*

4.4 Whilst the above is a fairly obvious example of a conflict of interest there may be situations where the conflict is less 'clear cut'. It is your responsibility for identifying where such Interests have arisen or may potentially arise.

4.5 Should you feel that you are unable to determine whether a matter in question involves a Personal or Organisational Interest you should refer the matter to the NWEAB's Monitoring Officer.

5. Procedure for assessing whether an Interest is a Conflict of Interest

In order to determine whether an Interest is a "**Conflict of Interest**", the following steps shall be followed:

5.1 Step One – Exclusions

Do any of the Exclusions apply? It is acknowledged and agreed that where you have a Personal or Organisational Interest in any business of the North Wales Economic Ambition Board, this is not a Conflict of Interest where that business:

(a) involves your attending or making submissions to any body or meeting where you are not the decision maker or adviser but are attending by invitation to represent your organisation or making submissions or otherwise participating in any process on behalf of your organisation; and/or

(b) where the nature of the Conflict of Interest is such that it is common to the majority of the business or other sector representatives of which you are part, each one an "**Exclusion**".

5.2 Step Two - Objective Test

- (a) If none of the Exclusions above apply, you should consider whether the Interest in question is one which is likely to significantly impair your decision making. To do so you should consider the following "Objective Test":-

'Would an ordinary member of the public, with knowledge of the relevant facts, reasonably conclude that the Interest is so significant that it is likely to prejudice your discussion or decision making?'

- (b) If the answer to the above is yes, you must promptly declare such Conflict of Interest to the Monitoring Officer and, in addition, declare such Conflict of Interest at each board meeting that such matter is discussed. Please see paragraph 7 in relation to the additional implications of having a Conflict of Interest.
- (c) Where you have a Personal or Organisational Interest but the Objective Test has not been satisfied or you are not certain that the Objective Test has been satisfied, you must promptly declare such Conflict of Interest to the Monitoring Officer and, in addition, declare such Conflict of Interest at each meeting that such matter is discussed. You shall provide reasons as why they consider that the Objective Test has not been satisfied. The Monitoring Officer shall be responsible for determining whether or not such interest is one which may materially prejudice the person's input into the matter.

5.3 Step Three - Monitor

Should any additional grounds arise that change the nature or extent of the conflict, you shall endeavour to either withdraw from the discussions relating to the conflict matter entirely and/or make a further disclosure to the board in line with step three above (as appropriate).

6. Process for declaring conflicts

- 6.1 The first item on the agenda of each meeting will be a standing item requiring all Persons attending the meeting to declare any Interests and whether or not such they consider such Interest to be an actual or potential Conflict of Interest.
- 6.2 If a Person considers that they have an actual or potential Conflict of Interest, they must inform the chair as soon as possible and always before any discussion of the relevant matter. The declaration must specify the nature and extent of any Interest that gives rise to a Conflict of Interest.
- 6.3 If a Party is uncertain whether or not they are conflicted, they must err on the side of caution and transparency and declare the Interest and paragraph 5 above shall apply.
- 6.4 All Conflicts of Interest that have been declared must be recorded in the minutes of the meeting in which they were declared or, if not declared in a meeting, in the minutes of the next meeting.

6.5 If a Person has an Interest in a transaction or arrangement that has already been entered into by the NWEAB but has not declared that Interest, they must declare the nature and extent of that Interest as soon as is reasonably practicable.

7. Implications of a conflict

7.1 If you decide you have a Conflict of Interest and it meets the Objective Test you must:

- (a) not make any written or oral representations (whether in person or via any form of electronic communication or otherwise) in respect of that business;
- (b) ensure that you do not participate in, or influence in any way, any discussions relating to the relevant conflict matter;
- (c) excuse yourself from the part of the meeting in which the conflict matter is discussed and again during any vote of such matter; and
- (d) your will not count towards the quorum for such vote and will not be entitled to vote on such matter.

7.2 The minutes of the relevant meeting must include a record of the nature and extent of the conflict, an outline of the discussion and the actions taken to manage the conflict.

7.3 In all instances the advice of the Monitoring Officer must be sought.

8. Declaration and Register of Interests by prospective Parties

8.1 Each Person within the NWEAB Team has a personal responsibility to declare any Interest that might reasonably be regarded as potentially giving rise to a conflict.

8.2 Before a prospective Party is appointed to the NWEAB Team they may be asked to identify potential Conflicts of Interests.

8.3 If the Parties consider it likely that the prospective Party will be subject to serious or frequent Conflicts of Interest, the Parties should consider whether it is appropriate to proceed with the appointment.

8.4 If a Person joins the NWEAB Team it must confirm that it is accepts and will comply with (and ensure that its representatives shall) shall comply with this Conflicts Policy.

8.5 The Monitoring Officer of the NWEAB will be responsible for maintaining the register of Interests, and will record in the register all conflicts, Interests, gifts and hospitality declared by each Person; and

9. Monitoring, enforcing and reviewing this Conflicts Policy

Any Person who becomes aware of a breach of this Conflicts Policy must report it to the Monitoring Officer as soon as possible who will determine what steps are required in response.

Welsh Language Impact Assessment

Does the proposal align with Welsh Government strategy for the Welsh language - Cymraeg 2050: A million Welsh Speakers

The Cymraeg 2050 strategy provides a focus for the Welsh Language and sets out the Welsh Government's vision to achieve a million Welsh Speakers by 2050. A thriving Welsh language is also one of the 7 main goals of the Well-being of Future Generations (Wales) Act 2015.

The ambitious target in the strategy requires action and intervention from across all sectors. The strategy includes a specific theme to create 'favourable conditions – infrastructure and context', this includes community and economy, culture and media, and digital technology; all of which the Growth Deal will contribute towards. The NWEAB have adopted a vision to develop "a confident, cohesive region with sustainable economic growth, capitalising on the success of high value economic sectors and our connection to the economies of the Northern Powerhouse & Ireland." This Vision was founded on three key principles for a smart, connected and resilient North Wales.

The Welsh language strengthens our communities, culture and heritage here in North Wales. The Growth Deal will promote the relevance and value of bilingualism to our economy to support the Welsh language within our communities and within workplaces.

Describe the impact of the proposal on the Welsh Language?

According to the Annual Population Survey in the year ending June 2018, North Wales had 286,400 Welsh speakers in the region. Gwynedd was the authority with the highest proportion of Welsh speakers both in North Wales and in Wales as a whole, with 76.4 per cent of residents aged three and over saying they could speak Welsh. Flintshire had the lowest rate of Welsh-speaking in North Wales at approximately 23.3 per cent. On a regional level, North Wales had the highest proportion of Welsh speakers in Wales, at an estimated 42.7 per cent in the year ending June 2018.

The economy is integral to creating the social conditions for Welsh speakers to remain in the area in Welsh speaking communities or return to those communities. The Growth Deal portfolio aims to create between 3,400 and 4,200 new jobs by 2036. It will also support a net additional GVA uplift of between £1.4billion and £1.7billion for the North Wales economy; to deliver a total investment of upto £1.1billion in the North Wales economy. The programmes and projects within the portfolio will deliver benefits that will have a positive impact on as many communities as possible across the region; enable economic growth; and attract investment.

Employment opportunities are key to the future of the Welsh language, the language is a valuable skill for employment in the region. The programmes and projects will enable job creation; this will provide opportunities for Welsh speakers to work in North Wales. Historically North Wales has seen the outward migration of young people, the delivery of the Growth Deal will support to retain young people in the region. This will protect and promote the Welsh language and culture, and contribute towards scalable and dispersed growth in the region. Having a bilingual workforce in North Wales, both current and future, enables us to promote the diversity of language skills. This will ultimately lead to retention and development of the Welsh language across all sectors adding value and strength to our economy.

The Welsh language can be seen as an economic driver boosting business and tourism within the region for the community and visitors to experience the culture and strong sense of community within the region.

The Growth Deal will proactively seek opportunities to promote and support good practice with regard to the language. The North Wales Economic Ambition Board promotes and facilitates the use of the Welsh language within new regional ways of working.

How will you mitigate any negative impact on the Welsh language or promote the positive impact on the language?

The North Wales Growth Deal aims to create between 3,400 and 4,200 new jobs to benefit the region's residents. Leakage of economic benefits through jobs created being filled by residents from the outside North Wales could be a risk, this will be managed on a project by project basis.

The North Wales Economic Ambition Board is a partnership that operates bilingually; all documentation and Board meetings are bilingual.

The Programme Office team is a bilingual team, our key public facing roles have Welsh language skills as an essential requirement in order for people to engage with us through their language of choice. The team promote the use of the Welsh language, and in time will develop a Welsh language Policy.

The Welsh language will be embedded in our procurement processes. Our Procurement Strategy includes a series of procurement principles, as part of the community resilience and well-being principles. The NWEAB will 'engage with new partnerships such as museums, theatres and arts to support developing our cultural and Welsh language considerations in contract opportunities.'

The North Wales Growth Deal will proactively support, facilitate and seek opportunities to promote the Welsh language across the portfolio, programmes and projects. We will encourage the integration of the Welsh language across our projects. It is key that we recognise the importance of the Welsh and English languages here in North Wales. All Growth Deal projects will undertake a Welsh language Impact Assessment and a Future Generations Impact Assessment as part of the decision making process.

Promotion of the Welsh language in the delivery and outcomes of the Growth Deal enables the NWEAB to be context specific and holistic in tackling economic challenges and sustainable economic growth.

REPORT TO THE NORTH WALES ECONOMIC AMBITION BOARD
23 OCTOBER, 2020

TITLE: *Final Growth Deal*
AUTHOR: *Alwen Williams, Programme Director*

1. PURPOSE OF THE REPORT

- 1.1. The purpose of this report is to present the key documents required to reach Final Deal Agreement for the North Wales Growth Deal with the UK Government and Welsh Government.
- 1.2. These key documents include the following:
- Portfolio Business Case
 - Overarching Business Plan
 - Draft Final Deal Agreement
 - Governance Agreement 2

2. DECISION SOUGHT

- 2.1. To approve the submission of the Portfolio Business Case and the 5 Programme Business Cases to UK and Welsh Governments for Final Deal Agreement on the North Wales Growth Deal.
- 2.2. To recommend that each of the Partners individually approve the Overarching Business Plan that sets out the arrangements for delivering the North Wales Growth Deal as the basis for completing the Final Deal Agreement and acceptance of the Grant Funding Letter with the UK and Welsh Governments.
- 2.3. To recommend that each of the Partners individually approve and enter into Governance Agreement 2 and specifically adopt the delegations and Terms of Reference in "*Governance Agreement 2: Appendix 1*" thereof as the basis for entering into the Final Deal Agreement and acceptance of the Grant Funding letter with the UK and Welsh Governments.
- 2.4. To recommend approval of the method used to calculate the cost of borrowing notionally required to facilitate the negative cash flow for the Growth Deal, and the corresponding annual partner contributions required to meet this cost and the established core and supplementary contributions as set out in GA2 (and in paragraphs 5.5 - 5.7 below).
- 2.5. That the Programme Director in consultation with the Chair and Vice Chair of the NWEAB, the Accountable Body Monitoring Officer and the Accountable Body Section 151 Officer be granted delegated authority to agree minor changes to the documents as necessary to complete the agreement.

- 2.6. To approve the renaming of the of Programme Office to the Portfolio Management Office in line with best practice and as a consequence, and change the job title of the Programme Director to Portfolio Director.

3. REASONS FOR THE DECISION

- 3.1. In 2016 the North Wales Economic Ambition Board adopted A Growth Vision for the Economy of North Wales. Based on the Growth Vision Strategy, a Growth Deal was prepared and agreed by all the partners working with both the UK and Welsh Government and the private sector in October 2018. In November 2019 the NWEAB and the Welsh and UK Governments agreed the Heads of Terms, for Final Deal Agreement to be completed in 2020.
- 3.2. The NWEAB are committed to achieving the Final Deal Agreement with both Governments before the end of December 2020.
- 3.3. The Portfolio Management Office have developed the documentation required to submit to both Governments to reach Final Deal Agreement. The contents of these documents are outlined within this report, and copies of the documents attached as appendices.
- 3.4. This report recommends that the Programme Office is renamed as the Portfolio Management Office. This proposed change responds to questions raised during the recent gateway review with Welsh Government where the review team questioned the name of the Programme Office given the Growth Deal is a portfolio of programmes and projects. The proposed name 'Portfolio Management Office' aligns with recognised best practice and creates a clear differential between the role of the Director who has responsibility for the whole Growth Deal and the Programme Managers responsible for the delivery of individual programmes.

4. BACKGROUND AND RELEVANT CONSIDERATIONS

- 4.1. The North Wales Growth Deal is a portfolio consisting of 5 programmes to be delivered over the next 15 years. It is to be delivered by the Portfolio Management Office on behalf of the North Wales Economic Ambition Board.
- 4.2. The Growth Deal is seeking to deliver a total investment of up to £1.1bn in the North Wales economy (£240m from the Growth Deal), to create 3,400 – 4,200 net additional jobs and generate £2.0- £2.4 billion in net additional GVA.
- 4.3. The five programmes include 14 projects, which have been carefully designed and developed with stakeholders to address specific market failures and barriers to economic growth.
- 4.4. To agree the Final Deal with both Governments, the NWEAB have prepared a suite of documents, namely the Overarching Business Plan, Portfolio Business Case, Draft Final Deal Agreement and Governance Agreement 2.

4.5. Overarching Business Plan

- 4.5.1. The Overarching Business Plan developed by the Portfolio Management Office sets out the arrangements for delivering the North Wales Growth Deal, including an overview of the programmes and projects and to seek approval from each partner for the financial implications of delivering the deal.
- 4.5.2. A copy of the Overarching Business Plan is available in **Appendix 1**.

4.6. Portfolio Business Case

4.6.1. The Portfolio Business Case has been developed by the Portfolio Management Office with support from Hatch Regeneris.

4.6.2. The purpose of the portfolio business case is to provide an overview of the North Wales Growth Deal and its programmes.

4.6.3. The portfolio and programme business cases once approved as part of the Final Deal will be live documents used to manage the delivery of the Growth Deal on an ongoing basis and updated regularly as the programmes and projects develop.

4.6.4. The Portfolio Business Case follows the structure of the Five Case Model and HM Treasury Green Book principles. The Portfolio Management Office have consulted with UK and Welsh Government throughout the development of the business case.

4.6.5. The Portfolio Business Case consists of the five cases:

- **The Strategic Case:** the rationale for the Growth Deal investments, their objectives and fit with wider policy
- **The Economic Case:** the value for money provided by the Growth Deal
- **The Commercial Case:** the contractual and procurement approach to be taken
- **The Financial Case:** the costs and funding profile for the Growth Deal
- **The Management Case:** the approach to managing the Growth Deal

4.6.6. The portfolio business case document provides a summary investment proposal for the North Wales Growth Deal, to inform the agreement of a Final Deal in 2020. It accompanies the Programme level business cases, which set out the detail for the five constituent programmes using the Five Case Model framework.

4.6.7. The Portfolio Business Case is available in **Appendix 2**.

4.6.8. The Portfolio Business Case is supported by a set of programme level business cases, which provide details on the five individual programmes. The programme business cases are summarised below, and the executive Summaries are available in **Appendix 3** (full copies of the programme business cases are available on request).

4.6.9. Low carbon energy

Strategic aims: To unlock the economic benefits of transformational low carbon energy projects and position North Wales as a leading UK location for low carbon energy generation, innovation and supply chain investment.

Types of intervention: Enabling works for new low carbon energy generation, enhancing research and innovation facilities for low carbon energy sectors, transport decarbonisation and support for local energy projects.

4.6.10. Innovation in high value manufacturing

Strategic aims: To consolidate North Wales' position as a powerful and innovative high value manufacturing cluster, building on existing specialisms and leading expertise to create a higher value, more diverse economic base that supports the transition to a low carbon economy.

Types of intervention: Industry and research collaborations along with the establishment of centres of excellence to help overcome barriers and market failures in the research commercialisation process.

4.6.11. Agri-food and tourism

Strategic aims: To build a more sustainable, vibrant and resilient foundation economy within the region, optimising opportunities for employment and prosperity through our environment and landscape.

Types of intervention: Introducing new technologies & innovation, skills and practices to these sectors, via business support and upskilling.

4.6.12. Land and property

Strategic aims: To address the shortage of suitable land and properties for business growth and to bring forward sites for housing development and to deliver improvements that stimulate investment in the Port of Holyhead and the wider region. These projects will play an enabling role for the other programmes by ensuring that serviced sites are available for investors and developers.

Types of intervention: The provision of primary services and enabling works to bring forward commercial and housing development sites, delivery of employment floor space and future proofing and capacity enhancement works to the port of Holyhead.

4.6.13. Digital

Strategic aims: To deliver the step change in digital connectivity needed to ensure North Wales is able to satisfy user demand, maintain pace with the rest of UK, unlock the growth potential of priority sectors and sites and underpin a flourishing innovation ecosystem. Plays an enabling role for other programmes to deliver maximum benefit.

Types of intervention: The programme has identified a need to which balance investment in infrastructure and technology, through enhanced fixed broadband footprint at key sites in rural areas, unlocking applications through 5G access, and furthering digital innovation.

4.6.14. The Growth Deal is based on 14 transformational projects to be delivered across the 5 programmes named above. Individual project business cases will be developed and will be presented to the NWEAB for approval from January 2021 onwards.

4.7. Final Deal Agreement

4.7.1. The Heads of Terms Agreement was agreed by the NWEAB, Welsh Government and UK Government in November 2019, with the aim for Final Deal Agreement to be completed in 2020.

4.7.2. The Draft Final Deal Agreement was developed collaboratively between the NWEAB and both Governments.

4.7.3. The Final Deal Agreement is the contract between the NWEAB, UK Government and Welsh Government for the delivery of the North Wales Growth Deal.

4.7.4. The Final Deal will be signed on the basis of the portfolio business case and five programme business cases.

4.7.5. The Draft Final Deal Agreement is included in **Appendix 4**.

4.8. Governance Agreement 2

4.8.1. Governance Agreement 2 has been developed by the regional Heads of Legal with expert and independent advice by legal advisers Pinsent Masons.

4.8.2. Governance Agreement 1 was adopted into in order to take forward the formal offer of funding to both Governments. Government Agreement 2 will take the partnership into the implementation stage of the Growth Deal. The agreement is a partnership agreement between the 6 Local Authorities and the Partner University and College bodies. It continues the governance model adopted in GA1 namely a Joint Committee supported by a host authority and provides for the commitments and responsibilities of the Partners to the partnership. It also defines the relationship between the Board and its constituent Partner organisations, the limits of delegation and accountability.

4.8.3. Governance Agreement 2 is a necessary element for implementing the Growth Deal. It provides assurance to the Governments as to the governance of the partnership. It establishes a legally binding commitment by and to the Partners and Accountable Body which is necessary to enable the Growth Deal Final Agreement and Grant Letter to be agreed. Without that assurance the Final Deal Agreement and the Grant Offer Letter could not be entered into on behalf of the Partners.

4.8.4. A more detailed explanatory summary of Governance Agreement 2 is provided in **Appendix 5** and a copy of Governance Agreement 2 is included in **Appendix 6**.

5. FINANCIAL IMPLICATIONS

5.1. There is a medium-term temporary funding gap between the expected expenditure profile of the Growth Deal and the expected profile of government funding received over 15 years. The NWEAB, through the host authority, will be responsible for managing this negative cash flow, and have worked with Arlingclose to model the cost of borrowing notionally required to facilitate the negative cash flow for the Growth Deal, and the corresponding annual partner contributions required to meet this cost.

5.2. With a range of assumptions to consider, the NWEAB have forecasted a range of figures, modelled as the best case scenario (Version 1) and the worst case scenario (Version 2), to reflect the timing of finalising the Growth Deal and consequent timing of government grant funding. The difference between the best and worst case scenarios highlights the importance of finalising the Growth Deal by the end of the calendar year. In both versions the other variables, i.e. interest rate and NNDR income have remained the same. The interest rate used was 2.2% and is considered to be a prudent assumption. The NWEAB will utilise its “retained” NNDR grant from Welsh Government to offset against the negative cash flow, with the net total cost (£12.46m - £17.73m) met by the local authorities (proportional to population) for regional NWEAB projects, and with project lead sponsors responsible for the cost in relation to their projects.

5.3. Any changes to the projects, will result in a reserved matter if it means increasing partner contributions (e.g. change from project lead sponsor to NWEAB, lower NNDR yield, higher cost, earlier spend profile).

5.4. With capital projects, there is always a risk of overspending, and controls will be put in place to limit overspending costs on specific projects. For regional projects, the Portfolio Management Office would be responsible for controlling expenditure and ensuring sufficient contingency budgets are included in the project business cases. Overspend would be a matter for the Lead Sponsor to deal with in relation to their projects.

5.5. The table below shows the **total (15 years) partner contributions** to cover the cost of ‘borrowing’ notionally required to facilitate the negative cash flow.

6. LEGAL IMPLICATIONS

6.1. The report explains relevant provisions of Governance Agreement 2 (GA2), The Overarching Business Plan (“OBP”) and the Final Deal Agreement. They form part of the legal implications, but in order to avoid duplication are not repeated in this section.

6.2. The recommendations in the report are made pursuant to the powers conferred on the Councils under sections 101, 102, 111 and 113 of the Local Government Act 1972, section 1 of the Local Authority (Goods & Services) Act 1970, section 25 of the Local Government (Wales) Act 1994, section 2, 19 and 20 of the Local Government Act 2000, section 9 of the Local Government Wales Measure 2009 and all other enabling powers now vested in the Councils.

6.3. The provisions of the Local Government and Elections Bill (Wales) 2019 in relation to proposed Corporate Joint Committees (CJC’s) and the recent publication of a consultation document on the proposed regulations are clearly of relevance to the matters addressed in this report. However, the North Wales Economic Ambition Board has been in operation as a formal Joint Committee since January 2019. GA2 does not change this basic governance model but is a necessary component to enable the Partners to commit to the Growth Deal within the given time frame. As a result there is no proposal to make any changes to the recommendations pending the advent of CJC’s although GA2 does acknowledge the provisions of the Bill and the possibility of future review.

- 6.4. The OBP is a key document in relation to the delivery of the Growth Deal. The content of the Plan serves to create a legitimate expectation that the Programmes will be progressed as set out in the Plan. Accordingly, it is important that each Partner is content with the content of the OBP. Decisions relating to the delivery of the programmes and projects will need to be considered in accordance with the provision set out in GA2 at which stage any legal issues raised in relation to a specific project can be considered and detailed legal advice provided.
- 6.5. In considering this matter regard should be had, amongst other matters, to the Councils duties under the Wellbeing of Future Generations (Wales) Act 2015. In summary the Act places a duty on public bodies in to act in accordance with the principle of sustainable development so as to ensure that the needs of the present can be met without undermining the ability of future generations to meet their needs. This is in order to improve the economic, social, environmental and cultural well-being of Wales. The OBP explains that the Wellbeing of Future Generations (Wales) Act 2015 will be intrinsic to the development and implementation of the Growth Vision and Growth deal.
- 6.6. A Well-being and Equality Assessment has been undertaken and is included in **Appendix 7**. Regard should be had to the same in reaching a decision on this matter.
- 6.7. Regard has been given to public sector duties under the Equalities Act 2010 (including specific Welsh public sector duties). Pursuant to these legal duties Councils must in making decisions have due regard to the need to:
- a. eliminate unlawful discrimination, harassment and victimisation and other conduct that is prohibited by that Act;
 - b. advance equality of opportunity between people who share a relevant protected characteristic and those who do not;
 - c. foster good relations between people who and share a protected characteristic and those who do not.
- 6.8. In Wales, public sector bodies listed are required to take certain steps in order to demonstrate that they have due regard to the public sector equality duty. These Welsh specific equality duties include assessing the impact of policies and procedures on equality (often called Equality Impact-Assessment).
- 6.9. The Well-being and Equalities Assessment demonstrates that the detail contained in the preparation of and in the draft OBP demonstrates compliance with the well-being 5 ways of working, supports the well-being goals and identifies that the Growth Vision and Growth Deal will a positive impact on all groups and people with protected characteristics.
