

## **Gambling Act Policy Consultation 2012**

### **One response received:**

Hope Community Council Concerned about more recent developments in gambling, particularly through interactive TV, the internet and mobile phones and ask what controls can be implemented in these areas.

### **Licensing Authority's View**

In the light of the above it is not deemed necessary to further amend the proposed Gambling Act 2005 Statement of Licensing Policy which will have effect from 31<sup>st</sup> January 2013 for three years.

The Licensing Authority recognises the concerns expressed by the Community Council but matters relating to remote gambling via those forms of media are the remit of the Gambling Commission and the UK Government.
