

Sir

re: Premises Licence application 02

We have three objections to lodge in opposition to the above.

1. **Number of occasions viz. 10** when functions would take place would most likely be in the six months between May and October. "Occurrences" could also mean whole weekends. This could represent 40% of the 26 week window of time when we could expect to enjoy our own outdoor leisure undisturbed by blaring music and other noise within just a few metres of our home. In the past this has been another unwelcome intrusion into our lives on top of the clatter of skateboards, car engines, foul language and urinators against the hedge/fence.
2. **10.00am – 10.30pm** To be subjected to noise until 10.30pm just metres to the rear of our home is a quite unacceptable situation. If functions are to be held here, 9.00pm is a more acceptable time for the residents of this area.
3. **Alcohol** At the entrance to the Recreation Ground, and reinforced elsewhere within, are notices, in effect, prohibiting the consumption of alcohol in the Recreation Ground, on Kendrick's Field and in the ornamental gardens. And here we have an application in direct conflict with that restriction. Furthermore, there are no toilet facilities within the grounds. In summer, in clement weather, gangs of young males and females congregate to drink booze here, strew litter everywhere and urinate wherever they feel like. We are totally fed up with having unsociable and undesirables urinating against our fence or the hedge alongside. While not appearing to be pious teetotallers or party poops, quite the opposite in fact, we have no desire to see the granting of an alcohol licence for these premises.

Yours faithfully,
