All are investments and Funding and substantially different to the target risks.</p> <p>Risk F6 relates to matters related to Pooling and Brexit and whilst still different to the target risks has been moved from catastrophic and significant to critical and very high. Risks 2, 3 and 4 relate to the value of assets and liabilities not being as expected - The Likelihood score reflects the increased risks associated with Brexit given the uncertainty. This may well be a short term position and we have now included the implementation of the hedging of the currency risk to mitigate risks associated with the exit.</p> <p>F8 is low risk and only one step away from its target and relates to employer covenants which will be addressed as part of the Actuarial Valuation.</p>
