The timeliness of complaint responses vary across portfolios but it is encouraging to note an improvement in complaint performance across all portfolios (see Chart 5). Performance reports are now routinely shared with Chief Officers on a monthly basis to drive improvements in the timeliness of complaint responses. Whilst there will be occasions where complaints cannot be dealt with within 10 working days, customers will be kept informed and a high percentage are resolved shortly after the 10 day timescale unless they are complex cases (see Chart 4).

1.21 The chart below illustrates the average time taken to respond to complaints in the first half year of 2022:
