Fencing must be of suitable height and strength to withstand persons falling against it. As several of the ponds are at the edge of the car park, they should be fenced off with the end of the parking area clearly demarcated. • Open chamber containing water pipes: To prevent persons falling into the chamber, it requires securely fencing off or the fitting of a propriety lockable cover. • Gravel slope onto the grass field: The slope will cause persons to stumble and fall and therefore requires safely fencing off along its entire length. • Drinks should be served in non-glass bottles and drinking glasses.
