Please note that there may be a 10 minute adjournment of this meeting if it lasts longer than two hours

Procedural Note on the conduct of meetings

The Chair will open the meeting and introduce themselves.

The meeting will be attended by a number of Councillors. Officers will also be in attendance to present reports, with Democratic Services officers acting as hosts of the meeting.

All attendees are asked to ensure their mobile phones are switched off and that any background noise is kept to a minimum.

All microphones are to be kept muted during the meeting and should only be unmuted when invited to speak by the Chair. When invitees have finished speaking they should go back on mute.

To indicate to speak, Councillors will use the chat facility or use the electronic raise hand function. The chat function may also be used for questions, relevant comments and officer advice and updates.

The Chair will call the speakers, with elected Members addressed as 'Councillor' and officers addressed by their job title e.g. Chief Executive' or name. From time to time, the officer advising the Chair will explain procedural points or suggest alternative wording for proposals, to assist the Committee.

If and when a vote is taken, the Chair will explain that only those who oppose the proposal(s), or who wish to abstain will need to indicate, using the chat function. The officer advising the Chair will indicate whether the proposals are carried.

If a more formal vote is needed, this will be by roll call – where each Councillor will be asked in turn (alphabetically) how s/he wishes to vote

At County Council and Planning Committee meetings speaker's times are limited. A bell will be sounded to alert that the speaker has one minute remaining

The meeting will be live streamed onto the Council's website. A recording of the meeting will also be available, shortly after the meeting at <https://flintshire.public-i.tv/core/portal/home>

38. PETITIONS

None were received.

39. BOUNDARY COMMISSION FOR WALES: 2023 REVIEW OF PARLIAMENTARY CONSTITUENCIES - INITIAL PROPOSALS

The Chief Executive presented a report on the initial proposals for Parliamentary constituencies in Wales following the review by the Boundary Commission for Wales. The review was based on a recommended 73,393 electors per constituency (UKEQ). Whilst this would reduce the number of constituencies across Wales, Flintshire remained largely protected. The proposals for Flintshire set out the composition of wards to form the constituencies of Delyn and Alyn & Deeside with a suggestion that the latter be officially renamed Alun a Glannau Dyfrdwy. The proposals were subject to a public consultation period ending on 3 November 2021.

Councillor Mike Peers questioned why Brymbo and Minera, rather than wards within Delyn, should be brought into Alyn & Deeside to achieve the UKEQ and he questioned the rationale for changing the name of that constituency. In response to a query, the Head of Democratic Services clarified that the report reflected current electorate figures pending the outcome of the review by the Local Democracy and Boundary Commission for Wales.

Councillor Chris Bithell raised concerns that the principles of the review were not being applied consistently across Wales. He was concerned that the proposals for Flintshire could be detrimental in breaking long-established links between existing communities, for example between areas such as Mold, Argoed and New Brighton. He said that incorporating wards from Denbighshire could present challenges in forming cohesive areas within the Delyn constituency and that a reduction in the

number of MPs in Wales would impact negatively on representation of Wales and its position in the UK.

In response to comments on other Local Authorities, the Chief Executive said that Ynys Môn may be considered an exceptional case due to its geographical isolation as an island and its close community ties. On links between existing communities, he said that community ties at local level would continue as the County Council representation was unaffected.

Following a query by Councillor Neville Phillips, the Chief Executive confirmed that the proposals for Parliamentary constituencies did not affect County Council boundaries.

Councillor Richard Jones pointed out that the UKEQ of 77,373 was an average figure of the range set out in the Parliamentary Constituencies Act 1986. He said that the review should have been an opportunity to focus on better representation at local level and he spoke against the principle of creating larger areas of responsibility which might put smaller political parties at a campaigning disadvantage due to scale, and erode representation for electors/residents. He shared Councillor Bithell's concerns about consistency of the review across Wales.

The Chief Executive suggested that the comments raised be collated in a draft response for consideration at a special meeting with Group Leaders in October. This would enable a detailed collective written response to be submitted from the Council within the deadline.

Councillor Ian Roberts spoke about the complexity of reviewing constituencies and the importance of the Council responding to the proposals. He moved the recommendation including the suggestion made by the Chief Executive.

The Chief Executive responded to concerns raised by Councillor Tony Sharps on the representation of constituencies within the UK Parliament.

Having been moved, the recommendation was seconded by Councillor Billy Mullin. When put to the vote, the recommendation was carried.

RESOLVED:

That the initial proposals for the constituencies of Delyn and Alyn and Deeside be noted and that a draft response comprising Members' comments be shared with Group leaders to agree a formal response from the Council.

40. CLWYD PENSION FUND AND WALES PENSION PARTNERSHIP

The Chief Executive presented a report for the Council to approve amendments to the Constitution, Financial Procedure Rules and Pension Board Protocol with matters relating to the Clwyd Pension Fund, and to approve amendments to the Inter Authority Agreement with the Wales Pension Partnership. The changes comprise were recommended to Council by the Clwyd Pension Fund Committee.

As Chair of the Clwyd Pension Fund Committee, Councillor Ted Palmer moved the recommendations which reflected minor but important changes. He was seconded by Councillor Haydn Bateman.

In response to questions from Councillor Mike Peers, the Chief Executive provided clarification on the appointment of an independent expert Allocator to manage Private Markets.

The Chief Officer (Governance) provided background on the proposed change in arrangements to transfer responsibility for the write-off of pension fund bad debt from Cabinet to the Clwyd Pension Fund Committee.

Having been moved and seconded, the recommendations were put to the vote and carried.

RESOLVED:

- (a) That the amendments to the Inter-Authority Agreement shown in Appendix 1 be approved; and
- (b) That the amendments to the Constitution, Financial Procedure Rules and Pension Board Protocol shown in Appendix 2 be approved.

41. BECOMING A COUNTY OF SANCTUARY

The Chief Officer (Housing and Assets) presented a report for the Council to become a non-awarded member of City of Sanctuary. This network had developed to become an international movement to which Flintshire could contribute through its strong history of supporting refugees and build upon the launch of Flintshire City of Sanctuary in 2018. The recommendation for the Council to become a non-awarded member of the movement represented a commitment to sign up to the vision and values of the movement whilst working towards the award.

In moving the recommendation, Councillor Ian Roberts said that the values and principles of the movement were shared by the County. He was seconded by Councillor Christine Jones.

Also speaking in support, Councillors Hilary McGuill and Chris Bithell expressed their pride in the County's support for refugees and those seeking sanctuary.

The recommendation was put to the vote and carried.

RESOLVED:

That the Council becomes a non-awarded member of the movement and in doing so, signs up to the vision and values of City of Sanctuary.

42. SUPPORT FOR MEMBERS WHO ARE UNABLE TO ATTEND MEETINGS DUE TO ILL-HEALTH

The Chief Officer (Governance) presented the report for the Council to approve the continued absence of two elected Members, on compassionate grounds, as provided for under Section 85(1) of the Local Government Act 1972. He took the opportunity to highlight the support and counselling service available to Members and employees.

In moving the recommendations, Councillor Ian Roberts confirmed that he had been in contact with both Members and suggested that the Chairman write to wish them a speedy recovery on behalf of the Council.

In seconding the proposal, Councillor Mike Peers highlighted the importance of recognising the support available in such situations. He said that the Council may wish to consider the impact upon Members holding special responsibilities who may find themselves in this position.

Members in need of support were urged to contact the Chief Executive, Chief Officer (Governance) or Head of Democratic Services.

Councillor Patrick Heesom wished to record his appreciation for the support given to both Members.

The recommendations were put to the vote and carried.

RESOLVED:

- (a) That Council approves, on compassionate grounds, the continued absence of two Members from meetings due to their ill health; and
- (b) That Council notes that the Head of Democratic Services will be re-circulating details of the Carefirst Employee Information and Counselling service to all Members.

COUNTY COUNCIL

Date of Meeting	Tuesday, 19 th October 2021
Report Subject	Annual Performance Report 2020-21
Cabinet Member	Leader of the Council
Report Author	Chief Executive
Type of Report	Strategic

EXECUTIVE SUMMARY

The Annual Performance Report for 2020/21 reviews our progress against the Council Priorities as detailed in the Flintshire County Council Reporting Measures 2020/21.

2020/21 has been an exceptional year for all organisations as we have had to cope with the threats and challenges of a global pandemic. Performance against the Council Plan measures was positive overall with 67% of the performance indicators meeting or exceeding target for the year, whilst 48% showed improvement or remained stable.

RECOMMENDATIONS

1	To approve the 2020/2021 Annual Performance Report as recommended by Cabinet.
---	---

REPORT DETAILS

1.00	EXPLAINING THE COUNCIL PLAN PERFORMANCE 2020/21
1.01	The Annual Performance Report (the Report) meets the statutory requirement to publish a Corporate Plan as required by the Local Government (Wales) Measure (2009) (the Measure). The report must be published by 31st October each year. The purpose of the report is to account for the organisation's previous year's performance against its Council Priorities.
1.02	The requirements of the Measure are met through the "forward looking" document; the Council Plan 2020/21. This sets out the vision and priorities for the Council. The second statutory requirement of the Measure is met by this Annual Performance Report, which reviews progress on commitments made in the previous year.
1.03	The Annual Performance Report must be approved by the full Council prior to publication.
1.04	The Annual Performance Report for 2020/21 reviews our progress against the Priorities as detailed in the Flintshire County Council Reporting Measures 2020/21. This assessment takes into consideration assessments of our performance: <ul style="list-style-type: none"> • Performance indicator outturns (target and trend analysis) • Regulatory, audit and inspection activity • Progress against the Well-being of Future Generations sustainable development principles and goals. • Progress against the Council's Well-being Objectives
1.05	<p><u>Performance Indicator Outturns</u></p> <p>The Report summaries our performance against the 2020/21 reporting measures and also nationally using the Public Accountability Measures (PAMs). Welsh Government have decided not to collect the PAMs for 2019/20 and 2020/21 and therefore benchmarking information is unavailable. Introduction

Welcome to Flintshire's Annual Performance Report (APR). This document gives an overview of the performance of the Council during 2020/21 against the priorities we set. It also covers progress against our Well-being Objectives.

The report covers:

- Actual and comparative performance information against local and nationally set performance indicators;
- Our performance against the Future Generations Ways of Working and our Own Well-being objectives.

The COVID -19 Pandemic

2020/21 has been an exceptional year for all organisations as we have had to cope with the threats and challenges of a global pandemic.

The Council was able to maintain all critical services throughout the pandemic and the enforced 'lockdowns' through effective contingency planning, innovation, and the commitment of its management and workforce.

The Council has played a major part in the local, regional and national response to the pandemic and, more latterly, recovery and forward planning. We expanded our role to protect the vulnerable for example in providing support services to those who had to shield at home, contributed to the rainbow hospital and vaccination programmes, and took the lead for the six local authorities in the region in developing a comprehensive Test, Trace, Protect programme. We also adjusted our services to enable the continuity of services on digital platforms.

The intended Council Plan for 2020/21 was not published in its normal format on time due to the interruption of the pandemic. Performance objectives and targets for the year were reviewed and published at the mid-point. All portfolios produced business recovery plans supported by recovery risk registers which have been actively maintained and managed.

The performance of services was inevitably affected by the disruption of the pandemic and the temporary restrictions on service provision which were set at a national level. All critical services have been maintained throughout and performance against the revised performance standards and targets has been strong.

Our own assessment of our response to the pandemic can be seen within reports and publications on our website. Our continued recovery is guided by the Recovery Committee. Our response and now recovery is overseen by the Chief Executive and Chief Officer Team.

We continue to play a leading role in regional recovery planning.

Audit Wales commented that "from the work that Audit Wales has undertaken to date, I am assured that Flintshire County Council's (the council) recovery from the impact of the pandemic

has benefitted from strong and consistent leadership, particularly in planning and decision making. There has been a drive to engage and lead regional groups which is positive. Internal and external communication has been very strong and it is to the Council's credit.

I consider that the Council's approach to reporting is well structured and well thought through. The Council has taken the right response to corporate planning. As a result, it has enabled the Council to focus on clear, concise reporting and achieving key projects and ensuring that essential service demands are met."

Priority Setting

Flexibility in planning has been necessary during 2020/21. Corporate and portfolio strategic and operational risks are monitored as part of the ongoing recovery process and not directly linked to the Council Plan for 2020/21.

Alignment of Council Plan Priorities and Well-Being Objectives

For 2020/21, the Well-being Objectives have been allocated to the respective portfolios as detailed below:

Portfolio	Well-Being Objectives
Education and Youth	<ul style="list-style-type: none"> • Supporting children and younger people to achieve their potential • Supporting learners from 3 to 18 years of age to aspire to high levels of educational attainment and achievement • Providing high quality learning opportunities and learning environments for learners of all ages
Housing and Assets	<ul style="list-style-type: none"> • Ensuring a supply of affordable and quality housing of all tenures • Protecting people from poverty by maximising their income and maximising their employability
Governance	<ul style="list-style-type: none"> • Widening digital access to public services
Planning, Environment and Economy	<ul style="list-style-type: none"> • Sustaining economic growth through local and regional business development, employment and skills strategies • Making communities safe places by working with partners to prevent crime, repeat crime and anti-social behaviour • Protecting people from the risk of any form of abuse • Ensuring the supply of affordable and quality housing of all tenures • Creating a supply of diverse and quality training and employment opportunities • Continuing to be a high performing and innovative public sector organisation with social values • Protecting people from poverty by maximising their income and maximising their employability • Committing to resilient service models to sustain local public services • Supporting local communities to be resilient and self-supporting • Creating a supply of diverse and quality training and employment opportunities • Sustaining economic growth through local and regional business development, employment and training sites
Social Services	<ul style="list-style-type: none"> • Making early interventions to support healthy and independent living • Sustaining a local market of high quality and affordable service provision for those who are highly dependent on care support • Protecting people from the risk of any form of abuse

Portfolio	Well-Being Objectives
Streetscene and Transportation	<ul style="list-style-type: none"> • Developing the transport infrastructure and employment sites, and transport services, widening access to employment and training sites • Maximising the recovery and recycling of waste
Chief Executives	<ul style="list-style-type: none"> • Providing high quality, accessible, responsive and cost effective public services • Providing joined-up services with public and third sector partners which support quality of life in communities and for individuals and families • Committing to resilient service models to sustain local public services • Supporting local communities to be resilient and self-supporting

Note: The colour scheme used in this table is used throughout the document for ease of recognition.

Assessment of our Wellbeing Objectives

The Council set its Well-being Objectives in June 2017 to meet the requirements of the Well-being of Future Generations (Wales) Act 2015.

Designated public bodies are required to work individually and collectively to improve well-being in Wales. The seven well-being goals and the five ways of working set a general purpose for public bodies. They also aim to ensure better decisions by:

- considering the long-term
- prevention
- integrated working
- working collaboratively
- being inclusive of people of all ages.

Further details on the Future Generations Act (FGA) and the seven wellbeing goals can be found by using this [link](#).

The section 'Future Generations – Five Ways of Working Case Studies' provides examples of how we have met the Future Generations ways of working in some specific area of work.

Our Well-being Objectives reflect the 'Impacts' we intend to make through the actions and activities within each priority. An assessment of the progress against each Objective is made as part of the overall performance for each priority.

Council Plan Progress – Infographic of RAGs

Assessment of our Performance

The table below provides an overview of progress against Council Plan Key Performance Indicators. For more detailed information please refer to the End of Year Monitoring Report.

The key below defines the Red / Amber / Green (RAG) for measures contained in the End of Year Monitoring Report.

<u>Performance Status Key</u>		<u>Trend Status Key</u>	
	Limited Progress - delay in scheduled activity; not on track		Downturned – In comparison to the previous year’s data, the performance outturn has reduced
	Satisfactory Progress - some delay in scheduled activity, but broadly on track		Maintained – In comparison to the previous year’s data, performance is the same as last year
	Good Progress - activities completed on schedule, on track		Improved - In comparison to the previous year’s data, performance has increased

Performance Data Summary

National Performance Summary (All Wales Position)

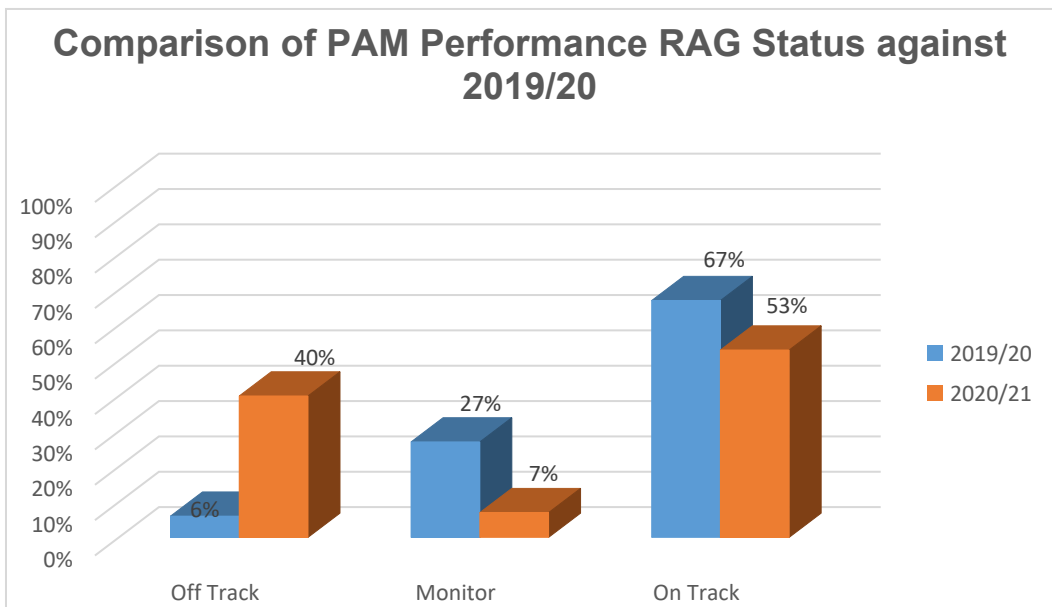

The Welsh Government and the Local Government Data Unit have not requested submission of the Public Accountability Measures at the date of publication of this document. The analysis below is based on the Council’s performance against its own set targets and trend on previous year 2019/20.

How we performed against Public Accountability Measures 2020/21

The performance output has decreased during 2020/21. This is down to factors such as limited data for education with schools being closed and reduced opportunities for members of the public to access leisure facilities.

Comparison of Performance RAG Status against 2019/20

Performance trend for Public Accountability Measures 2020/21

Through 2020/21 we have seen an overall downturn in performance trend. The downturn trend has increased from 27% in 2019/20 to 47% in 2020/21. The number of measures with an improved trend decreased from 73% in 2019/20 to 40% in 2020/21.

Comparison of Performance RAG Trend against 2019/20

Council Plan Performance Summary

Performance for 2020/21 against our Council Plan Measures is summarised in the performance indicator chart below. 67% of indicators achieved target or better compared to 78% in 2019/20. 13% of indicators missed target compared to 8% during 2019/20. 20% of indicators are being monitored compared to 14% in 2019/20.

Council Plan Performance Data Summary

The table below demonstrates a comparison of performance data from 2017/18 through to 2020/21. Each column shows positive or maintained progress being made in comparison to the previous year.

The table below shows that we had a downturn in overall performance this year compared to previous years. Performance measures for this year cannot be directly compared to previous years due to the restrictions placed on services during lockdown and the ongoing recovery. It is also important to highlight that the downturn in performance is much less than expected.

Risk Management and Business Planning

Strategic and Council Plan Risks have regularly been reported as part of our Council Plan Performance, during the mid-year and end of year performance reviews in previous years. In response to the pandemic, we invoked Flintshire Business Continuity Plans. These plans were designed to enable services to continue to function in the short-term. With response to the pandemic going on longer than the short-term and changing to a medium-term/longer-term, a new approach to business planning and recovery was developed. We developed business recovery plans based on an effective risk management approach which underpinned these plans. This approach embedded risk management into everyday activity and regular reporting of risk to Overview and Scrutiny Committee's from June 2020. Corporate updates on recovery were shared at Overview and Scrutiny Committee's as the response and recovery phase's continued.

Future Generations – Five Ways of Working – Case Study: Marleyfield Residential Home

The new two-storey, 32-bedroom development to expand Marleyfield residential care home is the first of its kind in Wales. The design and construction have been entirely shaped by its core purpose of optimising well-being and it facilitates a highly innovative operating model for supporting and caring for older people.

Long Term:

The building and its surrounds are anything but standard, with every aspect carefully considered to ensure the best possible environment inside and out for enhancing health, comfort, dignity and well-being.

The building design has numerous design measures to reduce not only the energy consumption and operating costs, but also the operational carbon requirements of the building and is fully on track to achieve a BREEAM Very Good and EPC A ratings and reduce operational Carbon.

The project represents a step change in the quality of its care home provision. Equally, it acts as a unique and inspiring exemplar that can be readily adopted throughout Wales and beyond.

Prevention:

The internal environment is designed to support the health needs and the well-being of residents. The purpose of the building is to support individuals discharged from hospital as part of the recovery process with access to appropriate support to ensure that they are able to remain independent in their own homes for as long as possible. The building will support in reducing the delayed transfer of care and demand on local hospital services and beds. The home and revitalised outdoor space will promote improved health and well-being.

Dedicated therapy rooms facilitate rehabilitation for those staying short-term post hospitalisation and for long-term residents if required. The scheme also supports people living with dementia, with factors such as room layout, colours and textures optimised to encourage independence, confidence and a sense of security.

Integration:

Marleyfield House and its operation will serve as the benchmark for future developments to support older people both within and outside of Flintshire.

Its innovative concept and modern and efficient facilities break the mould for traditional residential care homes and provide a template for integrating health and social care. With a relaxing, attractive environment that fosters independence and social interaction, it will stand as an exemplar for Wales for how high quality places to live in older age can be delivered in tandem with excellent services.

Collaboration:

The innovative approach to partnership working has provided an exemplary approach to ensuring that excellent care is delivered to the population of Flintshire, in a building that we hope will be used as a foundation and template for future schemes.

Along with offering a long-term home, it provides a ground-breaking centralised short-term care, support and re-ablement service. Delivered in partnership between Flintshire Social Services and Betsi Cadwaladr University Health Board, the therapy-led model (known as D2RA) is designed to help those coming out of hospital regain their independence and return to their own home.

Involvement:

The project has also delivered considerable social value, including spending locally and using local Small and medium-sized enterprises (SMEs), and labour. In addition, 43 apprentice weeks were completed and six new employment opportunities were created.

Future Generations – Five Ways of Working – Case Study: Buckley Repair and Reuse Centre with Café

Flintshire County Council, working in partnership with Refurbs Flintshire and Groundworks North Wales were successful in their application to the 'Green Recovery Circular Economy Fund 2020-21' to bring a Repair and Reuse Centre with café, into the former HSBC bank within the heart of Buckley town centre, that would promote community cohesion through repair and re-use initiatives while providing an opportunity to support the regeneration of the town centre.

The aim of the project is to promote education and behavioural change on waste and recycling initiatives, providing volunteering opportunities and employment for local people, the creation of an attractive and interesting venue in the heart of the town centre, while supporting the strategic regeneration plan of the town and most importantly creating a place for the community to come together.

Centred on the hospitality of a relaxed café environment, the initial services to be offered include:

- Bringing small household items to be repaired
- Demonstrations on basic repairs/upcycling techniques which can be replicated at home
- Providing Information on how to donate unwanted household items that can be refurbished for sale or recycled
- Workshops and volunteering activities to create saleable pieces for the café from recycled materials or unwanted items
- Displaying purchasable items produced from recycled materials

Long Term:

The facility will promote long term behavioural change initiatives for waste minimisation to support the Welsh Governments vision of a Circular Economy.

The facility will support the vision of town centre recovery by encouraging people back to the high street who will then utilise the local amenities following attendance at the centre.

When it can be demonstrated that this model is successful, the intention will be to introduce similar facilities in other Town Centres.

Prevention:

The aim of the project is to promote waste minimisation and the reliance on single use products. Promoting repair and reuse initiatives will ensure valuable items are kept in use reducing waste and the impact on climate change.

Offering an interesting facility will attract people to the town centres which will prevent the further decline of our local amenities as increasing footfall will offer opportunities for other local businesses to benefit.

Integration:

The centre, cafe and associated workshops will be available for persons of any age. A clear vision of the project is to promote community cohesion and bring members of the community, who may not already be doing so, together.

The workshops will be developed and directed specifically to the group with which they are aimed towards.

Collaboration:

The project has been jointly developed with Refurbs Flintshire and Groundworks North Wales who both have a positive history of supporting people in the local community and delivering on waste minimisation projects.

Involvement:

The centre will look to engage further with local community groups to ensure that the workshops deliver on the interests and need of the community.

There will be opportunities for local people to volunteer at the centre and share their knowledge and skills.

Social Value - Case Studies

A selection of case studies highlighting the benefits that have been achieved through the delivery of social value programmes through contracts are listed below:

Marleyfield Care Home Extension

The contract to complete a major expansion to the Marleyfield House care home in Buckley, has unlocked over £1.3m of social value through the following initiatives;

- 142 weeks of trade apprentices
- 13 weeks of traineeships delivered
- 4 full time employment opportunities create for local residents who were previously Not in Employment, Education or Training (NEET).
- £2,124,197 was spent during the project on goods, works and services with organisations within, and surrounding 20 mile radius of Flintshire.
- £10,840 invested to support local community causes, such as; building sheltered outhouses for residents in Marleyfield and other Council owned care homes, to provide shelter, for residents to meet friends and family safely during the pandemic. The supplier also invested to support many other local community causes, such as; donating shoe boxes filled with essentials for local families in poverty and donating to Flintshire Foodbank.
- 264 hours of staff volunteering time was delivered to support local community projects,

- businesses and engaging with local schools.
- 60 hours supporting local people into work through employability initiatives (over 24 years old.)

Minimising environmental damage, where 97% of waste diverted from landfill approximately 2.39 tons of waste, and other water and carbon reduction savings achieved.

Young Carers Service

In 2020 the Young Carers Service was reproposed and where a comprehensive 4-5 month period of consultations were delivered with the service users, their families, the local Youth Council, the current service provider and other care professionals. The consultations were delivered to ensure the new service met with the needs of the service users, giving them a voice in, and control over reaching the outcomes that help them achieve well-being. It also presented an opportunity where the service users were more involved in the design and delivery of service, putting their individual needs and the centre of their care.

During these consultations, it was evidenced that the young service users placed significant value on their need for additional; peer support, employment and training opportunities with respite care, the facilitation of sustainable natural networks outside of the service, and more meaningful activities that would provide them with additional well-being benefits such as improved; confidence, independence, happiness and sense of achievement.

As well as building, some of these values into the service delivery model, we also developed a set of core social value themes, outcomes and measures centred on these additional aspirations, and included them as part of a 10% weighted social value element within the procurement for prospective suppliers to respond to. The successful bidder committed to over **£13,099.43 of social value through the following initiatives;**

- 2 x 26 week paid work opportunity for 2 young carers.

- 12 paid work placement days for 12 young carers within one of their Charity shops.
- 12 days of paid respite care to enable 12 young carers access to the suppliers one day paid work experience opportunity within one of their Charity shops, as outlined in the above commitment.
- 26 work placements weeks unpaid
- An intergenerational mentor/buddy scheme with young carers, in collaboration with Celtic Business network with 117 business members to provide employment mentoring and link to work opportunities with local employers.
- A young carers awareness day providing support to young carers and raising awareness of the challenges faced by young carers and campaigns for greater support for them.
- Additional activities outside of the service including; First Aid, cooking, finance and budgeting, entrepreneurship, Dragon's Den pitch.

Hollybush Junction/Abermorddu Signals

The project to upgrade a junction at Hollybush in Cefn y Bedd, consists of a new signalised junction, footway and cycleway improvements with associated civils works. The project also includes an upgrade the existing signals equipment at Abermorddu and resurfacing a section of the A541. The contract has unlocked £379,137.46 of social value, meaning that for every £1 invested there is a £0.90 social return on investment. This has been achieved through the following initiatives;

- £426,698.70 spent with local supply chain on the procurement of goods, works and specialist services required for the delivery of the contract.
- £525 spent through staff volunteering and donation of resources on initiatives to improve local road safety.

- The organisations partnered with Abermorddu CP School during the construction period to deliver road safety lessons for pupils following guidance by Road Safety Wales' Kerbcraft Programme.
- Support was provided by two North Wales-based Apprentices who are Construction/STEM Ambassadors and hold recent DBS certificate
- £1000 donated to support Holway Playscheme to provide essential food provision for the children attending the scheme over the 6 weeks school holidays.

Equality

The Council takes seriously its duty to promote equality, eliminate discrimination and foster good relations through all its activities. During the past 12 months we have continued to make progress with meeting our equality objectives and our statutory duties. We continued to work with other public bodies to promote Hate Crime Awareness week to encourage reporting and reinforce the message that hate crime is wrong. We have refurbished our Traveller site to include new electrical supply, new showers and new fencing. We have also installed street furniture for games and a five a side pitch to increase opportunities for play. The Health Needs Assessment Report that we commissioned from Public Health Wales has been completed and this will inform our future priorities for working with Gypsies and Travellers.

Welsh Language Standards (WLS)

We are committed to promoting, supporting and safeguarding the Welsh language for the benefit of present and future generations and ensuring that we can offer high quality services through the medium of English and Welsh. To increase the number and percentage of employees who have basic levels of Welsh skills, employees who report that they do not have any Welsh skills are being asked to complete a taster course. We participated in Diwrnod Hawliau (National Welsh Language Rights Day Campaign), promoting our services which are available in Welsh, encouraging Welsh speakers to contact us in Welsh. We continued to support Menter Iaith Sir y Fflint a Wrecsam (a community organisation working to increase and strengthen the use of Welsh locally) to celebrate Saint David's Day across the county and were able to secure funding to celebrate St David's Day virtually.

Partnership and Collaboration Activity

Flintshire has a longstanding and proud track record of partnership working. The communities it serves rightly expect the statutory and third sector partners to work together to manage shared priorities through collaboration. The Flintshire Public Services Board is at the heart of promoting a positive culture of working together and concentrates energy, effort and resources on providing efficient and effective services to local communities.

The Flintshire Public Services Board is a strong and unified team and was formally established on 1st April 2016 as a result of the "Well-being of Future Generations (Wales) Act" coming into effect. The Board is made up of senior leaders from a number of public and voluntary organisations: Flintshire County Council, Betsi Cadwaladr University Health Board, Natural Resources Wales, North Wales Fire and Rescue Services (as statutory members); along with North Wales Police, Public Health Wales, Flintshire Local Voluntary Council, Coleg Cambria, Glyndwr University, National Probation Services Wales, Welsh Government and a representative on behalf of Flintshire Town and Community Councils (as invited PSB members). Together these organisations have worked positively in implementing the Well-being Plan for Flintshire and have worked together to deliver the in-year priorities to improve services and outcomes for local people. A copy of the Well-being Plan for Flintshire can be found [here](#).

Over the past 12 months, the Flintshire Public Services Board has focused their efforts in two main priority areas, priorities that were continued from the previous year. These being:

- Community Safety – People are Safe
- Healthy and Independent Living

The other previous priorities for the Flintshire Public Services Board (Economy, Environment and Community Resilience) were developed as follows:

- **Economy** – this priority is being led at a regional level by the Regional Economic Ambition Board with relevant projects and activities being delivered locally
- **Environment** – this priority is a blend of both joint work with Wrexham and locally delivered commitments
- **Community Resilience** – this priority is being led jointly with Wrexham Public Services Board as a result of a decision made by the regional Strategic Recovery Group (made up of key public service leaders)

The emergency situation over the past year has changed our home, work and social lifestyles. All public and third sector organisations have supported individuals and communities in ways which we could not have foreseen. We continue to support recovery from the pandemic by working in partnership and more recently in response to the challenges, the Flintshire Public Services Board, has joined with the Wrexham's Public Services Board to form a united body to action some of the more pressing and longer term societal challenges which affect both counties.

The joint Flintshire and Wrexham Public Services Board formed in June 2020 to tackle Community Resilience and identified four areas of focus with a clear collective purpose:

- Children and Young People
- Environment and Carbon Reduction
- Mental Health and Well-being
- Poverty and Inequality

These joint priorities together with the two continuing priorities for Flintshire Public Services Board will become the priorities for 2021/22 and will be captured within a blended Well-being Plan moving forward.

Working together to make an impact in these priority area is the collective aim of both the Flintshire Public Services Board and the Joint Public Services Board with Wrexham, realising that no single organisation can achieve this on their own; the partner organisations represented on these Boards can collectively make a positive difference for the people who live, visit and work in Flintshire and there are a number of positive examples as a result of this partnership approach such as the extension of Marleyfield Residential Home and the new Extra Care Scheme in Holywell (Plas Yr Ywen).

Regulation, Audit and Inspection

The Council is regulated by a number of organisations throughout the year. These include, amongst others the Audit Wales (AW) Estyn for Education and the Care Inspectorate Wales (CIW).

The AW publish an annual report on behalf of the Auditor General for Wales called the Annual Improvement Report. This report summarises the outcomes of all work that AW have undertaken during the year.

Overall the Auditor General for Wales has reached a positive conclusion. “The Auditor General certified that the Council has met its legal duties for improvement planning and reporting and believes that it is likely to meet the requirements of the Local Government (Wales) Measure 2009 during 2020-21.”

Corporate Health and Safety

The Council is committed to its duties and responsibilities as an employer for health and safety. The management of workplaces that are safe to the health of all Council employees, sub-contractors, stakeholders and members of the public is one of our main priorities. To meet this priority we plan to meet the requirements of the Health and Safety at Work Act 1974 and other associated legislation as far as is reasonably practicable.
