Winter Maintenance	1.276	1.385	0.109	0.078	There was a sustained period of winter weather through January, including snow, together with sub zero tempertures continuing through February. However, following the major snow event on the 22nd March, extensive costs in relation to salt provision, contractors, overtime and fuel have been incurred. This is likely to result in total winter maintenance costs of £1.630m. The total salt usage is expected to be 13,000 tonnes, with 3,270 used since the 22nd March. In addition the projected repair bill for the clear up and impact on the	The outturn figures now reflect use of £277k of Contingency Reserves and £245k of the Winter Maintenance Reserve as approved by Cabinet in May.

Waste Disposal & Waste Collection	9.139	9.389	0.250	0.250	Delivery of the new Streetscene Service resulted in unexpected additional operational costs which have been mitigated by increased recycling levels, which not only reduce landfill and tipping charges but increases the level of recycling income received. One off Agency and staff backfilling costs as a result of the on-going investigation within Waste have been incurred and in addition, the energy generation from Gas at the landfill sites has been affected by problems with the performance of the Gas Engines at both landfill sites. This has resulted in a £145k shortfall against the income target. Work to realign budgets across the service is on-going and will be in place for 2013/14 onwards.
