

# **A Strategy for Flintshire's Libraries 2013-2016**

## **1. Introduction**

Flintshire's Libraries are at the heart of their communities. They contribute to the social and educational development and the wellbeing of the people of Flintshire. They are inclusive places where people of all ages, and from all social or economic backgrounds can benefit from the resources provided. Flintshire offers a library service via a network of 13 library buildings, a mobile library, a service for housebound people, and an online service accessible remotely.

## **2. Statutory background and drivers**

The delivery of public library services in the UK is statutory, governed by the Public Libraries and Museums Act of 1964, which requires local authorities to deliver 'a comprehensive and efficient service'.

Since 2002, the Welsh Government, through CyMAL, its division for museums, archives and libraries, has set three-year Frameworks of Welsh Public Library Standards (WPLS). These measure specific aspects of service delivery which Welsh Government requires public library authorities to work towards and achieve. Flintshire Library and Information Service has made steady progress towards achieving these standards.

CyMAL has also set out its wider aspirations for library services in Wales in *Libraries Inspire – the strategic development framework for Welsh Libraries 2012-16* which focuses on the key themes of sustainable service delivery, access to resources, supporting investment in library buildings to meet the needs of the community, recognising libraries' contribution to information literacy and digital inclusion, investment in developing skills of library staff, coordinating a marketing programme and evaluating the quality of services against the Welsh Public Library Standards.

Libraries contribute to the implementation of **The County Council's Improvement Plan 2013-2014**, especially the Living Well priority.\*

Improving people's quality of life by:

Providing resources for education and enjoyment to enable people to achieve their potential.

Giving children and young people the best start in life by promoting literacy and a love of reading.

Delivering the Welsh Government Books on Prescription Scheme, whereby health professionals 'prescribe' specific self-help books for collection from patients' local libraries

---

\* The improvement priorities in the version of this report which was circulated for consultation were from the previous Improvement Plan.

The **Lifelong Learning Directorate Plan** includes the following specific commitments, which are supported by the Library Service's objectives.

- “We are committed to serving the people of Flintshire by enabling lifelong learning, community development and wellbeing, through partnership working and excellence in the delivery of inclusive and accessible educational, cultural and leisure services.
- We will focus on meeting the needs of learners and the wider local community.
- We will promote active citizenship, healthy lifestyles and the conservation of our heritage and environment.”

### **3. Strategy**

The purpose of the Library Strategy is to set out the key objectives and priorities for the library service over the next three years. This will be a challenging period with resources for all council services being scrutinised to ensure residents receive value for money. Financial resources are targeted to protect and enhance frontline library services. Collaboration with partners ensures cost effective services. An annual action plan details specific goals and targets to ensure that the objectives of the strategy are realised. The strategy is reviewed on an annual basis to inform the service plan.

The strategy is built upon 5 key objectives. Within each objective current activity is outlined, followed by what we aim to achieve over the three years of the strategy.

### **4. Performance measurement**

Library services are focused on continually improving services to customers by collecting and using key performance data to inform service developments. Data can also be used to communicate the value and impact made by the library service. Performance data is also reviewed by the Welsh Government and measured against other public library services in Wales.

Performance data is collected against national Performance Indicators for Leisure and Culture – Libraries, and the Welsh Public Library Standards.

Overall customer satisfaction with library services proved to be consistently high during the period of the library strategy 2009-12. CIPFA Public Library User Surveys were carried out with adults in 2009 and children in 2011. 96% of adults rated their libraries good or very good. 99.9% of children indicated that they were satisfied or very satisfied with the library service provided.
