

**Area Schools Review –  
Consultation Response Form  
Children and Young People.**

**St David's High School, Saltney &  
Saltney Ferry Community Primary  
School**

**Forms received by 7<sup>th</sup> July 2014.**

**320 English / 0 Welsh**

**1. How strongly do you agree with the consultation Option 1. for St David's High School?**

Strongly Agree	83	25.94%
Tend to Agree	89	27.81%
Neither Agree or Disagree	70	21.88%
Tend to Disagree	47	14.69%
Strongly Disagree	31	9.69%
<b>Total</b>	<b>320</b>	<b>100.00%</b>

**2. How strongly do you agree with the consultation Option 2. for St David's High School and Saltney Ferry Primary School?**

Strongly Agree	22	6.88%
Tend to Agree	32	10.00%
Neither Agree or Disagree	66	20.63%
Tend to Disagree	66	20.63%
Strongly Disagree	131	40.94%
No response	3	0.94%
<b>Total</b>	<b>320</b>	<b>100.00%</b>

**3. Please tell us why you feel this way. Please give a description of any alternative option you wish to put forward.**

1. Because I prefer to get school photos with my family and I could look after them more.
2. Option 1 I don't think you should take away sixth form
3. I think option 1 is the better idea because when you move from primary school to high school is a part of growing up. Going to a different school is a big step up and in option 2 you can't provide this
4. I feel that if St David's have no sixth form they will be losing money. And I feel that if Saltney Ferry were to join St David's that we would receive more money. But as we will attend sixth form in 2015. What would happen to us in 2016?
5. Moving up to a different school will be a big stage in life and the younger ones should have the same experience as everybody else
6. A part of growing up is to change school because it gives you a clean start
7. I don't mind what the school is like as long as I get a good education
8. I think it would just be easier with option 1 and safer
9. I think that our school should be from 11 onwards because it is meant to be a high school so if we were to put a primary school it wouldn't really mix well with 3 year olds to 16 year olds
10. I think that the 6 form building will be good. But I don't agree with option 2 because why amalgamate when you are going to make it 2 separate buildings
11. If we get a new school we will get new stuff and it will be bigger than this school
12. I think that option 2 is a bad idea because if they are bad school and have naughty kids they will bring our school down
13. I chose option 1 because I think it will be a bit easier
14. I chose option one because I think the number of pupils need to decrease rather than increase
15. Because we want it to stay the same and also keep the sixth form.
16. Because we want it to stay as it is. Keep the 6th form.
17. I feel this way because it is a big step in life going from primary to high school.

18. Because we think that it might be a good idea to have the schools together but also might be a bit harder for people to get to college.
19. I tend to disagree because I don't like the fact that it will be a high school and primary school. You should just have a high school and a primary school.
20. Having a primary school too would seem like too many people and it would be hard for the headteacher because he will have to own two schools, a separate place for sixth form would be good because it was too loud in a normal school.
21. I agree for the age range because it would be nice to get a job earlier. I tend to agree with Saltney Ferry primary colliding with us because less children will go to Wood Memorial.
22. I don't think that it is a good idea to bring the 2 schools together because we shouldn't have to.
23. Because if its 3-16 there will be loads of little kids running around.
24. Because I really don't know why they are changing the school. My mum and dad would agree with me.
25. Because we might have a new building.
26. Because Saltney Ferry are shutting down I like the idea of them coming to St David's as St David's is a good school. I like the primary idea but I would rather the 6 form stay, but if not it is okay.
27. I just think that they shouldn't be one big school because it would be too much hassle. So I think they should be 11-16.
28. Either way option 1 will come into place so I agree with it, but I disagree with option 2 because that excludes other primary schools such as wood memorial and broughton primary, doing so would give a disadvantage to those not joining the high school.
29. Because either way sixth form is going and I think the people in this school would not like to have 3 year old children hanging when they get into Year 11.
30. It can create a nice community in the area.
31. I think the school is ok as it is.
32. I feel this way because if you have a younger sibling in the family you have to make two trips for schools. If Saltney Ferry joins you can make one trip to one school.
33. I would like to keep the school as it is because if young kids come into the school and see people smoking it could make kids think I want to do that when I am older. If young people come to the school they could copy older people swearing and showing a bad impression.
34. I disagree with Saltney Ferry joining our school because it is meant to be a high school.
35. I think we should have a sixth form.
36. Because I want there to be a primary/high school.
37. I like the first idea because there will be more subjects at the new sixth form.
38. I think we should join with Saltney Ferry
39. If you have money to build a new school why can you not just upgrade the old one?
40. In my opinion, combining St David's with a failing school would cause more of them to come here and St David's would fail more.
41. The School may get a new building and things and it would help younger children with the moving up to high school but it may be too much for the head teacher to handle.
42. I think that we shouldn't really put together St David's High and Saltney Ferry primary schools because it wouldn't really be a high school anymore.
43. Keep sixth form open to St David's High school
44. On option 1 I don't mind not having a sixth form but I would prefer to have one. On option 2 I would prefer not to have 3-11 year olds but again I don't mind.
45. To keep the 6th form
46. We should keep the school the way it is because it's a high school and no one in year 6 will look forward to coming to St David's.
47. I want to keep the school how it is because there are already too many cars going to the gates, so if the primary joins there's going to be a lot more cars than there already is.
48. I feel this way because St David's high school offers good help to sixth form. Also parents would want their child to go to Saltney Ferry primary school because they

- would get a good chance of getting in St David's high school, but Saltney Ferry primary could become over crowded.
49. The little ones might hear swearing and then might swear themselves.
  50. I don't think the primary should come on our field because we are a high school and the name will change so will the badge.
  51. I don't really want younger pupils coming to St David's and I really want sixth form.
  52. Because it is better 11-18
  53. The older pupils will influence the young students i.e. smoking. Children of that age should be in a safe environment that is separate from those.
  54. The sixth form should be closer to Saltney and Broughton.
  55. I do not agree with such young pupils mixing with 18yrs. Also there are complications with other local primary schools and their integration at year 7.
  56. Because this way it would make Saltney Ferry Primary School a better school.
  57. Broughton primaries transition would be made much more difficult if Saltney Ferry & Wood Memorial were amalgamated.
  58. Because Saltney Ferry need help and we can help. We could have a new School.
  59. Could benefit the younger kids growing up in location, more chances to socialize. Can focus more resources for their education in I place.
  60. I don't see the positives in only merging Saltney Ferry CP, because there are still two more Primary Schools in the local area, Wood Memorial and St. Anthony's.
  61. The School will lose out on money.
  62. I put this because I don't think it would be right for the young ones.
  63. I would like Saltney ferry to come to this school.
  64. I feel this way because the primary school children can have a better education.
  65. Keep the school the way it is.
  66. Neither option will affect me.
  67. I don't feel like under 11s would benefit from being in the same school until they are 16, the shift from primary to high school is important.
  68. I think it should be a primary school too because there will be a wider range.
  69. To not change the way in anyway what so ever.
  70. It's easier for parents.
  71. Pointless
  72. Wood Memorial could close because may move for less fuss and to have a better education in a bigger school.
  73. Because my Mum could lose her job working at Wood Memorial.
  74. Broughton kids will feel bad and upset and hurt and bullied....you get my drift.
  75. I just don't care what happens as long as it doesn't affect my learning.
  76. People at Primary School could lose their jobs.
  77. Older kids will influence youngsters to do bad things i.e. smoking.
  78. It's pointless, should keep high schools and primary schools separate.
  79. Because it will be good to have young ones under strict rules.
  80. I don't mind if they move in as long as it doesn't affect either of our learning.
  81. I don't want to have younger pupils in the school.
  82. I picked agree for option 1 because it will just be the same and if we change the school it will change all of the lessons.
  83. I don't want to share a school with little kids, also people might lose jobs.
  84. I don't want little kids running round.
  85. We will lose some of the field for PE.
  86. I don't want to share the school with smaller children.
  87. We will lose some of the field.
  88. I strongly agree with option 2 because I think it will save money for more resources for our school.
  89. I strongly disagree with option 2 because it will take too long to make the money you first spent on extending the school.
  90. I think that sixth form should stay and I don't think a Primary School should be with a high school. Primary School pupils won't get the experience of going to a High School because they will already be across the field.
  91. I feel this way because I don't see why you should not have sixth form and build a hub and I don't really mind if St. David's High School and Saltney Primary School become 1 big school.

92. Because it will improve the schools reputation.
93. It will disturb the pupil's education, it's not all about money it's mainly people's education that matters more. 3 and 4 year olds will be frightened of the 169 year olds and St. David's doesn't get a massive intake for year 7 anyway, so a new school will cost a lot and pupils aren't coming anyway.
94. I feel this way as the school will not have enough space for 3-16 and with such a wide age range bullying may occur. Also transport would be an issue with just two fairly narrow roads and traffic would be increased
95. I don't agree because the school's too small already and we haven't got enough classrooms for more people
96. Keep the sixth form, no little kids because it's a lot easier to keep the sixth form and not change anything
97. Because it's a better idea as you won't have to move and change and have to buy more uniform
98. I think it is a good idea to put primary pupils with secondary
99. I feel this way because I won't be here when the changes happen but it will matter towards future pupils to use the school. So it would be better for the younger pupils to vote
100. I feel this way because it's a waste of 14.5 m. The school is fine how it is
101. I think we should keep the 6 form it's a waste of money for just one school
102. I feel this way because this would be a scary experience for younger children and schools in the local area. Like Wood Memorial and Broughton would lose children going and interest
103. I feel this way because I think the head wants a bigger pay packet
104. I feel this way because if there is less students then the school will have more room for activities and other rooms
105. I feel this way because it will hopefully have no impact on my education because there will be no 6 form any way, so I will still leave school St David's high school at sixteen
106. I feel this way as pupils who would normally go to schools such as Wood Memorial, Broughton Juniors and St Anthony's will now go to the modern school
107. I think that it's not a good idea because it won't benefit our high school
108. I think a 3-16 school would not benefit any of the primary /secondary pupils bringing both schools together, plus there would not be a lot of room for each school
109. I am not too bothered about option 1 because we can just go to Deeside. The 2nd option I do not agree with because I wouldn't want little children with bigger children and probably the little children won't either
110. I strongly disagree with joining Saltney Ferry to St David's High School because I don't want young children around
111. I strongly agree with option 1 because then the 6 form will have somewhere better to work and our school would be less crowded. I strongly disagree with option 2 because children from other primary schools won't be able to go to our school as there will be no places left and they will have to travel further away which may be difficult for the parents.
112. Both schools are fine as they are
113. I think that we should not have a primary school because there would not be a lot of room for PE and it might affect our education
114. I want the school to stay the same just without 6th form
115. I do not feel that the benefits of option two are great enough to convince me. The year 6 transition to year 7 is an exciting experience and option two would not offer this to the year 6 children of Saltney Ferry CP
116. I disagree because when Saltney Ferry join the high school they will be used to it and Broughton primary won't be used to it, so it's not fair
117. The Yr 6 in Saltney Ferry will come up and so will Wood Memorial and there won't be any spaces for Broughton.
118. I disagree because it won't be as exciting for the primary school
119. I disagree because pupils from other schools, other than Saltney Ferry haven't got as much of a chance of getting in to St David's
120. I don't really mind either way
121. If we amalgamate school it will be noisy

122. I think that Saltney Ferry should stay a separate site because the switch from one school to another helps build confidence
123. I have picked these boxes because I agree with option 2 because it will help both Saltney Ferry and St David's High school pupils to have better facilities and it would help with when the Saltney Ferry pupils move up as it will not be that much of a change
124. I don't know what to put
125. Don't mind
126. I don't like decisions
127. I don't mind what happens really
128. I don't feel like there should be 3 year old people in the same place as older and plus the building work will distract in our exams
129. It will cause problems between the younger children and the children wouldn't feel like their growing up with not changing schools.
130. Because there will be better equipment and the schools will be together so it won't be much change when they go to high school
131. I strongly disagree with option two because in Broughton primary school the year 6s lost a lot of privileges to the younger years
132. I don't think the schools should amalgamate because the primary school would be on SDHS field reducing the size of sports day tracks and football space
133. I disagree with option 2 because it will mean contact between smaller children and older pupils, no matter how much you try to separate the groups some harm will come of it.
134. I feel like we should have something useful for example chickens.
135. I disagree with option 2 because all the little children will get in the older kids way. And SDHS will have to change its name which means getting new younger forms
136. Because it's a big age gap and keeping us together seems compact.
137. I've put this because it doesn't affect me in anyway.
138. I disagree with option 2 because the idea of having a school with more than 10 years in one school is stupid
139. Unfair on sixth form
140. Option 1 it does not affect me, option 2 I think it's a pointless idea.
141. When I was at Broughton Primary before it became a primary school we had a lot of resources. But when the 2 schools did join together all the younger children got most of the resources - will this happen with SDHS and SFPS? So I agree with option 1 and I strongly disagree to option 2
142. I disagree with option 2 because when Broughton Primary school joined together most of the resources from the older kids went to the little kids and they occupied most of the building. If it happened at SDHS the oldest pupils taking their GCSE wouldn't have the things they need to revise
143. As it may be easier for children to move up from year 6 to year 7 but it's not as much of a life moment as it would have been.
144. I strongly disagree with option 2 because when the two schools at Broughton joined together to make a primary I found that a lot of the resources were going to the younger pupils. If this happens at SDHS it would affect people more because the older pupils would be taking GCSEs which are determining their futures rather than waiting to go to the high school like when they were at primary
145. If you start sixth form in 2015 and the sixth form closes in 2016, what would happen with the pupils?
146. I agree because I feel this option would be better for the school.
147. There will be a lot of little kids running round and will spoil other people's education. The cost is a big problem and building a new school will only make it worse!
148. I don't like option 2 because I like option 1
149. I agree with option 1 with 11-16 year old
150. I think the sixth form should stay open but the new school for ages 3-11 years should still be built. I think this because of the new Wellington Village coming to Broughton which will cause strain on education in the local schools.
151. I agree with option 1 because if the primary school joins then the older children wouldn't be able to cope. If the infants are outside and being loud whilst exams or tests are going on.

152. I strongly agree with option 1 because if 3-11 years old come here some of the things can get to go to them for their class, so we will not have a lot.
153. I disagree with option 2 because like when I was in Saltney Ferry primary school we got to juniors and all the infants took over every thing and had all the equipment and stole half the play ground and some were left with basically nothing. I agree with option 1 because I like the school as it is years 7 - 11 and if me have just had a bad/worse education because of smoking or swearing.
154. Strongly disagree with option 2 because you don't want 3 year olds mixing with 16 years olds who swear and Mum's and Dads don't want to be hearing that either when they pick up their children
155. I would not want or any other parent would want a 3 year old in a school with 14-16 year olds because of the awareness of the older ones teaching them wrong things!
156. I don't think option 2 is a good idea because I think the school would be disrupted while the other school is built and I think the age range is too big.
157. I'm not really bothered about option 1 but that option 2 is a bad idea because if they build the school on our field there might not enough room for sports
158. I'm not really bothered about option 1.
159. St. David's sixth form program should be scrapped because the sixth formers just end up getting shipped around to different schools anyway for their courses.
160. Primary School kids will be scared to go to school.
161. I wouldn't agree with option 2 because older ones would lose lots of space to little ones like 3 year olds.
162. I think that having a school age 3-16 would make it too large and older students may not want to be around young children
163. It will save money and be cool to have primary people in this school as well.
164. I would like sixth form to have its own school because it would be better for them to learn, but I don't think that 3 years olds and 16 years old should go to the same school.
165. I feel this way because I think that if option 1 went ahead it would make it a bit more room in the school. I'm not quite sure about option 2 but I think it is a good idea.
166. I don't agree with option 1 because I want to keep sixth form as we have to move to another School after a year of sixth form. I neither agree nor disagree with the second option as it won't affect me but I think it's a better option.
167. I agree more with option 1 because 6th form will be better away and we get free transport. So I agree more with option 1 but I would like to keep the school the same
168. I feel that way because I think we should keep our sixth form and not have to move to Connah's Quay. Also buses to Broughton etc...
169. I would like the school to be age 11-16 and I wouldn't like the little ones to come.
170. I feel this way because they would have to make the school bigger and the school would be over crowded I would like it to be 11-16
171. Don't like the idea of St. David's not having a sixth form.
172. The kids will get in the way
173. The little kids will get in the way
174. The reason I tend to agree for option 2 because Yr 7 will not be the smallest year in the school.
175. I strongly agree with option 1 because I don't want to share a school with 3 year olds.
176. Because it won't feel like moving up!
177. I think it is unfair that Saltney Ferry school get to come here because Wood Memorial school will be left out.
178. I feel this way because on option 1 because it wouldn't be as productive as option 2 but option 2 would give the primary school a better chance to learn the way we do.
179. I want it to change
180. Because I don't really want little kids running around me
181. Option 1 because I don't want it too big.
182. I tend to agree with option 1 because I think it's pointless with taking one school down and extending another one.
183. Why don't you just get rid of the teachers and put new teachers there. And I really don't want the primary school here.
184. I like option 1 more than option two but I don't mind

185. If the younger kids come to high school then there is nothing to look forward to when they come to high school
186. The school is too cramped anyway. Not enough class rooms little lads screaming all the time.
187. I want it to be kept the same way
188. Other schools such as Wood Memorial will loose out and won't have as many people because why would they want to go to that school when they could go to a new school.
189. There would be no field. There is no need to add on a school that already exist.
190. I think it would be better for changing the age range 11-16 and for the six form to do a year here, and a year in Connah's Quay, than there being a whole new school when there are already existing schools.
191. It won't effect my education because I won't be here
192. It won't effect my education because I will have left before this happens.
193. Option 2 doesn't bother me, but, option 1 isn't a good idea Wood Memorial will or might run out of children and they will miss out.
194. It won't really affect me so I'm not really bothered what the school does.
195. I like the school the way it is now.
196. I like the school the way it is.
197. St. David's would lose funding due to a loss of 6th form, and many members of staff would become redundant, unless there is any arrangements to keep the original funding, there is no point in the schools
198. It's pointless building another building and spending so much money
199. Because it's pointless spending money on something that we've already got
200. I think this because it is pointless building another building as they're already there
201. I think this because there is no point in building a new building for Saltney Ferry because it's right by St David's anyway and more money is being used!
202. It's a waste of money and there's no point in building another building when there's one across the road
203. I feel this way because either way I leave at 16 ...
204. This is St David's!! It's our school! It would be easier to just make Saltney Ferry better! Lots of little kids would get hurt, it's not right!!!
205. I want to keep it the same
206. I want Option 1 because my little sister always gets on my nerves
207. It's a waste of £14.5 million because the school is fine how it is
208. It is not a good idea to have 3 year olds with 16 year olds. And there isn't enough room so with a whole other school it will not be enough room. I think it is stupid. We should keep everything the same. Why waste money!? Keep the sixth form! DO NOT CHANGE MY SCHOOL
209. Because it's stupid and not a good idea putting 3 year olds with 16 year olds, there is not enough space, and there is no money: keep 6 form. DO NOT CHANGE MY SCHOOL!
210. Because it is pathetic putting 3 year olds and 16 year olds together. The school is too small and 16 year olds swear and smoke and if 3 year olds think it's OK to do that they will copy. DO NOT CHANGE MY SCHOOL
211. Don't care
212. I strongly disagree because I want to go to six form. I feel it will be better for my education to stay here at St David's
213. I strongly disagree with both options as I think it would be more convenient to have 6 form here. Plus the teaching staff are great and will help me go on to a good life!!!
214. I tend to disagree with both options because I want to stay at St David's and carry on with my education here
215. I feel this way because I want to stay at St David's
216. I strongly disagree because I want to go to sixth form at St David's because I started my education here
217. Because it seems pointless and just a waste of money, what good would come of this?
218. It's difficult to get to Connah's Quay and I believe I would achieve more at St David's
219. It's not going to affect me so I don't feel the need to comment. Although I would like to come to six form here

220. Don't think it's going to change anything
221. Option 1 is going to happen anyway so it can provide better education for 6 form students and option 2 would be easier for year 6s to feel comfortable. Where would the last year 6 formers go?
222. Because all the six form will go to a new school and it will just be Year 7-11 in our school which would be easier
223. Because I want to go to six form in St David's High School and it seems too much effort
224. Because if Saltney Ferry comes together it could be a worry for other primary schools looking to go for their pupils to go to St David's
225. I've put this because it doesn't affect me so I don't really have an opinion
226. Limited options for sixth form
227. It would be easier (less people) easy for staff. Don't bring more kids our school is not big enough
228. I feel that the current state of the school is fine and shouldn't have to be altered
229. Because it results as the sixth form so they should keep the sixth form included
230. I think they should keep the school the same way
231. It's not going to affect me so I don't feel the need to comment. Although I would like to come to six form here
232. It will affect other local primary schools
233. I was from Broughton Primary, and they would be at a disadvantage against Saltney Ferry. Even though I neither agree nor disagree, I feel that it's leaving limited options for sixth form. The High School will have less field space when it's joined to the primary school. I think another option should be explored to build a bigger primary school for the houses being built in Broughton
234. I don't know why they are doing this! It seems pointless and people may not want to go to Deeside six form
235. I don't really mind what changes happen, as it will either benefit more people or still teach the current amount
236. It does not affect me so I don't agree or disagree
237. It will not affect me so I don't agree or disagree
238. Leaving limited options for sixth formers. I also feel it should be 3-18 so we have our sixth form to go to
239. Any resources or advantages gained from merging the schools would not be applicable to local schools other than Saltney Ferry. Any advantages in terms of transition for younger students wouldn't be there for 6th formers undergoing a larger change. They probably wouldn't get the same teachers causing their studies to suffer
240. Limited options for the future
241. It's leaving limited options for six formers in the future
242. It leaves limited options for 6 formers
243. People would lose their jobs. Saltney Ferry didn't get a very good Ofsted report. I don't want to decrease St David's Ofsted report
244. Because primaries should be (illegible) building (illegible) like high school
245. My Mum and other people could lose their jobs because if there is a new super school all the kids will go to that school because it will have better education
246. I think merging the schools is a bad idea, end of
247. I feel this way because you are going to save money by spending £14.5m? Also there isn't that many sixth formers to make this worthwhile
248. I think it would be wrong for people aged 3 being around people smoking age 16
249. Because this option is better for the school
250. It will help Saltney Ferry primary school to fit in
251. The problem is we would lose the field
252. It will help the Saltney Ferry fit in better and is unfair for other school
253. I don't really mind what changes happen
254. I don't want Saltney Ferry to join because we'd lose the field for a while and it would be noisy when they're building
255. I feel this way because I think it will get the Estyn report up for Saltney Ferry
256. I don't really mind what changes happen, as it will either benefit more people or still teach the current amount
257. I tend to disagree with option 2 because we will lose the field

258. I don't want St David's to have no sixth form because I don't want to go to the hub. However I don't mind the primary school being joined to St David's
259. I feel this way because I think they should keep sixth form, because some parents don't want their child going Connah's Quay
260. I do not want to move to a different school
261. Because I want to be six form in this school not another school
262. I do not want to move to a different school
263. If we get rid of the sixth form we will have more room on the field but the new will take up space
264. It is better if the schools are separate
265. The children from age 3-11 will probably be bullied by the children age 11-16
266. because I don't think that younger kids should be around older kids
267. Because I don't think the younger kids and older fields will mix well and we will lose the field
268. If we get rid of six form so we will have more space for our years 7, 8, 9, 10, 11
269. Because I want to continue through to Six form at this school and we'll have no six form (illegible)
270. I feel this way because I think it would help the primary school fit in better than other kids who join the school
271. I strongly disagree with both options because both options are totally inconvenient and I have started my secondary education here and I know all of the teachers and rooms etc and I would like to finish my secondary education in this school!
272. With option 2 the transition from Yr 6 to Yr 7 would be easier but it wouldn't be as much of a life experience.
273. No 1 I don't want to go to six form with people from other schools No 2. I like the school how it is you can't fix something that isn't broken
274. Option 2 If primary and secondary was combined they would encourage younger smokers and badly behaved youngsters as they look up to older children and when you come up to high school you're excited for change!
275. Pupils enjoy the school change. Keep the 6th form
276. Bad idea for 3-16 year olds to be together. Keep sixth form.
277. Option 1 seems like a good idea. Option 2 is stupid because children need to get used to change, instead of moving to the other building, move to a new school
278. I don't think it's right having 3 year olds in school with 16 year olds
279. In Option 2 there is a too big an age range. Young children should not learn in the school as teenagers. It would affect their behaviour
280. Because people under 11 year olds shouldn't be around older kid. Could be bad influences on them
281. I feel that the older pupils may have a bad influence on the younger students
282. I think it will help the younger kids achieve what they need
283. I think keeping it as it is would be best for the school
284. 3 year olds shouldn't be near a high school. Option 1 is better than Option 2
285. I think the school should stay as it is, it's worked for the past how many years!
286. 3 year olds shouldn't be in a school with 16 year olds. The school works as it is
287. I prefer that the 3 years should be separated from the 16 year olds. There could be a more worse case in bullying
288. I don't think 3 years should be in the same school as 16 year olds and for people wanting to go to sixth form it will be a huge inconvenience
289. I don't think a 3-16 school should go ahead because I think infants shouldn't be around high school pupils in the same school
290. The school will not be able to give their full undivided attention to all pupils as it is, never mind with a change like this. Not only that, but what they are doing now, well, it sort of works. So don't change the system.
291. It would be better if the school had a 6th form rather than primary children in
292. In Option 2, there is a too big an age range. This would not work with older children being around the younger ones as the younger ones could pick up bad habits
293. 3 year olds shouldn't be in a school with 16 year olds

**Are you:**

Primary School Pupil	2	<b>0.6%</b>
High School Pupils Yrs 7-9	182	<b>56.9%</b>
High School Pupils Yrs 10-11	107	<b>33.4%</b>
High School Pupils Yrs 12-13	31	<b>9.7%</b>
