## **3.00 CONSIDERATIONS**

### **3.01 Audit Plan and Resources**

As outlined to previous Audit Committees the commencement of work on the 2014/15 operational plan was affected by the need to recruit a new member to the team. Chief Officers were also consulted after the restructure and an updated plan presented to the September committee. There have been no major issues since then. The plan included some lower priority audits that could be deferred or deleted during the year if necessary as a result of the recruitment, depending on resources and demand.

Appendix A shows the updated plan for 2014/15. The plan is substantially completed. There is always need to complete work after the financial year end, the amount this year is much reduced on the position last year. All of the lower priority audits were considered as part of the planning process for 2015/16. Some have been deferred and a few have been deleted as being no longer necessary. All the changes are detailed in Appendix B. Two follow up audits were added to the scheduled work.

3.02 The implementation of the integrated audit software is continuing. All current audit work now uses the software, with reports being generated from April. Recommendation tracking through the system will start shortly. The plan for 2015/16 has already been input to it, which will aid scheduling. Management information will build up over time as the system is used more and more.

3.03 The plan for 2015/16 has started, with projects planned and a few that have commenced. There are no resource issues with this plan.

### **3.04 Final Reports**

All reports finalised since the last committee meeting are shown in Appendix D. Details for the Schools Safeguarding and Communities First reports are also given.

3.05 Copies of all final reports are available for members if they wish to see them.

### **3.06 Recommendation Tracking**

Appendix E shows the responses that have been received when tracking recommendations. A full response has not yet been received for Recruitment. The non-implemented recommendations will be tracked again at their new due date. They include nine recommendations on Capital Accounting. Progress is being made, with a new Strategy planned to be completed shortly which will address these recommendations. The implementation of

recommendations in the Recruitment and Induction report has been delayed as key staff have left the Council.

For recommendations that have not been implemented on time the relevant Chief Officer is required to confirm that the reason and the new date are both acceptable to them and to report on how the risk is being managed before the recommendation is implemented. This ensures that they are aware of non-implementation and that they are able to take responsibility for the risk. The views of the Chief Officers are also shown in Appendix E. The original implementation dates and the new implementation dates are shown, and there is a column to show the view of Internal Audit.

### **3.07 Performance Indicators**

Appendix F shows the range of performance indicators for the department following the changes to the way the department discusses audit findings and issues reports. These are generally good, although the overall target for the issue of reports was slightly missed. There is a red for depts. returning satisfaction questionnaires. This should improve with the rollout of the new software.

### **3.08 Investigations**

Appendix G shows the status of current investigations into alleged fraud or irregularities. The table includes the start dates of the investigations.
