REPORT DETAILS

1.00	EXPLAINING THE IMPROVEMENT PLAN 2015/16 YEAR-END PROGRESS REPORTS
	TROCKESO KEI OKTO
1.01	The Improvement Plan monitoring report gives an explanation of the progress being made towards the delivery of the impacts set out in the 2015/16 Improvement Plan. The narrative is supported by performance indicators and/or milestones which evidence achievement. In addition, there is an assessment of the strategic risks and the level to which they are controlled.
1.02	The detailed sub-priority report, shown at Appendix 1, is in a new format, which has been generated from the new performance management solution, CAMMS.
1.03	 CAMMS has been purchased to provide benefits which include: efficiencies by reducing duplication and data entry; a single version of the truth; improved visibility and accountability for performance and programme / project management objectives; including an audit trail; and dynamic, exception based reporting with dashboards and standard reports.
1.04	Analysis of performance against the Improvement Plan measures is undertaken using the RAG (Red, Amber and Green) status. This is defined as follows:- Performance RED – equates to a position of under-performance against target. AMBER – equates to a mid-position where improvement may have been made but performance has missed the target. GREEN – equates to a position of positive performance against target.
	 Outcome RED – equates to a forecast position of under-performance against target at year end. AMBER – equates to a forecast mid-position where improvement may have been made but performance will miss target at year end. GREEN – equates to a forecast position of positive performance against target at year end.
1.05 The high level (RED) risk area identified for the Organisationa Overview & Scrutiny Committee, is as follows:-	
1.05.1	The capacity and capability of the organisation to implement necessary changes.
	The extensive programme to consider alternative delivery models across a

range of services has impacts on resources across portfolios and support services. This risk is now easier to mitigate as Cabinet has determined the 5 services that are establishing new alternative delivery models. These decision were completed in May 2016. As a result resource and support plans have now been developed to ensure there is capacity and capability in place to deliver new models by 2017.
