

Flintshire Destination Management Strategic Plan

2017-2020

Introducing the Destination

A key element of the approach to regeneration and tourism in Flintshire is focussed on creating high quality places: places where people want to visit, to spend their leisure time and to work. High quality places attract investment, they are sustainable and they generate their own energy and success.

For visitors, both from outside the area and from within, the focus is on managing the key destinations so that every piece of the jigsaw that represents their experience in Flintshire is a positive one. From their accommodation, to the welcome on the High Street, to the cleanliness of the public conveniences – all of these contribute to the overall experience and determine whether they will return and what messages they will give to their friends at home.

Further, raising the quality of the destination raises its competitiveness. In an age of ever-increasing expectations, destination management is essential to competing in a crowded marketplace. With 4.7 million people living within a 60 minute drive time, the ideal catchment for day visitors, Flintshire has a huge and relatively untapped market close to hand.

The tourism sector is currently estimated to support 3,273 direct jobs. It is estimated to generate £252m annually from 3.7m staying visitors and 2.7m day visitors. **(STEAM 2016).**

Strategic Context

Destination Management is wider than the traditional tourism sector but the main thrust for the approach in Wales is given by Welsh Government's Strategy for Tourism 2013-2020 'Partnership for Growth'.

The Strategy focuses on 5 key areas:

1. Promoting the brand
2. Product Development
3. People Development
4. Profitable Performance
5. Place building

The Strategy takes on a product-led approach to developing and marketing tourism in Wales adopting the following vision:

Wales will provide the warmest of welcomes, outstanding quality, excellent value for money and memorable, authentic experiences to every visitor.

The **goal** is for:

Tourism to grow in a sustainable way and to make an increasing contribution to the economic, social and environmental well-being of Wales.

Wales' Partnership for Growth strategy's **ambition** is to:

Grow tourism earnings in Wales by 10% or more by 2020.

1. A Competitive Flintshire

Managing high quality places in Flintshire will contribute to the success of visitor economy businesses but also to the wider business community, for example, town centre retailers and service providers, transport companies and hospitality providers. The approach to destination management will need to include action to support visitor facing businesses to raise their quality and to work together to develop new ways to market the County and provide new products to customers. In addition, action to raise the quality of the key places in Flintshire will help to encourage investment into the County.

2. Sustainable Communities

Effective destination management will have an important role to play as part of the wider approach to rural and town centre development. Visitors have a crucial role to play in increasing the viability of rural services and businesses and High Street retailers. The Destination Management Plan will need to identify how customers can be encouraged to visit and return to key destinations in the County, how the value of their visit can be maximised and how the potential impacts on local people minimised.

3. Employment and skills

At present, 3,273 people are employed directly and indirectly in the visitor economy. The sector provides a full range of career options and can play a significant part in supporting people into work and to progress once there. High levels of skills in the sector will improve the success of businesses and improve the experience for visitors. The sector will need to play an active part in tackling the high levels of youth unemployment in Flintshire.

Action Plan

The Flintshire Destination Management Plan is intended to be a practical document setting out achievable and measurable actions. We will adopt an 'agile' methodology for its delivery as it will evolve rapidly over time to reflect external changes and progress made and will be subject to regular review with stakeholders.

Indicators

- Increased employment
- Increased visitor numbers
- Increased visitor spend

It is the **role of the Destination Management Partnership** to consult with partners and **endorse Welsh Government, Economic Ambition Board and Mersey Dee Alliance strategic cross-border priorities** that will positively impact on tourism and Destination Management across Flintshire and the wider region including infrastructure, skills, workforce development, supply chain development and major project development.

STRATEGIC THEME 1: PROMOTING THE BRAND

Key Actions	Lead		Priority			
			2017	2018	2019	2020
1A) Highlight facilities adjacent to the Leisure Tour through signage and web information	FCC	ST
