For instance, when Police present evidence of crime and disorder in relation to licensed premises, they will often include references to any crime that is associated not just with the premises in terms of its operation as licensed premises but generally. For instance, the Police will often include reference to all calls where those calls have referenced the premises as a local landmark which can include anything from criminal activity from people who have not been customers of the premises, offences in relation to taxis, or general disturbance and noise nuisance in a town centre where it cannot be said to be relevant to the premises. Premises licence holders will also often find reference to offences that are not relevant to the licensing objectives themselves. So, for instance, robberies at residential premises above a licensed premises are sometimes included. We feel it is important that the council recognise in their policy that these are matters that are not relevant to the prevention of crime and disorder licensing objective and that the licensing authority's expectation is that they will only be presented with evidence where it directly relates to the</p>	<p>Authority feel that the inclusion of public health information is relevant to the Policy.</p> <p><b>3:</b> The Licensing Authority considers that the Police are named within the Act as a responsible authority and the Policy should not stop them from making relevant representations, or providing information based on any information available to them.</p>	<p><b>3:</b> No change</p>

Crime and Disorder is a licensing objective, and the responsible authorities are able to suggest relevant conditions to be added to a licence during the consultation period. This sometimes includes the requirement for CCTV if it is deemed relevant. The conditions are either accepted by the applicant or added following a hearing where the reason for the requirement would be discussed.</p>	<p><b>4:</b> No change</p>

		<p><b>5: Para 3.4</b>  this is a very broad expectation that does not distinguish between types of premises where drugs might be more of an issue, such as nightclubs in comparison with local community pubs or restaurants. We feel that the paragraph would benefit from such as distinction being made to ensure that any expectation set out thereafter is proportionate and appropriate for the type of premises.</p> <p><b>6: Suggestion that the policy reflects the need for public nuisance to be demonstrated and for conditions relating to nuisance to relate to public nuisance rather than any wider definition.
