

GOVERNANCE AND AUDIT COMMITTEE

Date of Meeting	Wednesday 26 th June 2024
Report Subject	Digital Strategy – Audit Wales Review, Recommendations and Proposed Actions
Report Author	Chief Officer (Governance)
Category	Advisory

EXECUTIVE SUMMARY

The current digital strategy (Digital Flintshire 2021-2026) incorporates our learning, experiences, growth and ambition since it was first published in 2016 and the Council has made good progress in delivering the aims set out.

Audit Wales undertook a review of the Council's digital strategy throughout Summer 2023, where auditors reviewed all relevant documentation and interviewed key officers and Cabinet Members.

The primary focus of the audit was the extent to which the Digital Strategy was developed in accordance with the sustainable development principle, thereby ensuring that it will help to secure value for money in the use of the Council's resources.

The Final Report has been returned to the Council with four key recommendations to assist in ensuring it secures value for money. Officers have reviewed these recommendations and have devised proposed actions for approval by Cabinet.

The purpose of this report is for the Governance and Audit Committee to gain assurance that the recommendations are being/will be addressed.

RECOMMENDATIONS

1	That members review the proposed action plan and comment to Cabinet on whether, if implemented as proposed, it would appear to meet the requirements of the audit recommendations.

REPORT DETAILS

1.00	EXPLAINING THE DIGITAL STRATEGY AND AUDIT WALES REPORT
1.01	<p>Background:</p> <p>The Council's Digital Strategy, Digital Flintshire 2021-2026, comprises of 8 main themes</p> <ul style="list-style-type: none">• Digital Customer• Digital Workforce• Digital Business and Connectivity• Digital Partnership• Information Management• Digital Delivery• Digital Inclusion• Digital Learning and Culture <p>Each theme is led by a senior manager and is underpinned by a set of core principles and high-level actions which are reflected within the Digital Strategy.</p>
1.02	<p>The Digital Strategy Board (DSB) is chaired by the Chief Officer for Governance and is comprised of theme leads and portfolio representatives from across the Council. It meets bi-monthly to:</p> <ul style="list-style-type: none">• Receive theme updates to assess progress and remove barriers;• Review and assess business cases for new projects for inclusion in the Digital Strategy Project Plan, ensuring these meet key criteria for appropriate prioritisation;• Record and assess risks and issues. <p>The Digital Strategy Project Plan contains a list of all projects within the Digital Strategy which are assigned to a theme and reported against.</p>
1.03	<p>Audit</p> <p>Audit Wales reviewed the Council's strategic approach to digital in 2023 as part of a national review. The aims were centred around value for money and to:</p> <ul style="list-style-type: none">• provide assurance the Digital Strategy helps to deliver well-being objectives and acts in accordance with the sustainable development principle;• explain how the Council uses digital technology to meet the needs of its customers and deliver better outcomes;• share examples of good practice and differing approaches. <p>Key officers and members were interviewed over a period of approximately four months where a number of key questions were explored, including:</p>

	<ul style="list-style-type: none"> • Is the Council’s digital strategy informed by a good understanding of current and future trends? • Does the Council have a clear vision of what it wants to achieve through the use of digital technology? • Is the Council working effectively with the right people and partners to design and deliver its digital strategy? • Has the Council resourced delivery of its digital strategy so it can deliver long-term/preventative benefits? • Is the Council monitoring and reviewing progress? • Is the Council learning lessons from how it works?
1.04	<p>Findings and Recommendations</p> <p>The final report from Audit Wales was issued to the Council in March 2024 and contained some recommendations which centre on the main finding that, “the Council has a clear and integrated strategic approach to digital but there are weaknesses in arrangements to monitor and evaluate value for money”.</p> <p>Other findings concluded that the Council:</p> <ul style="list-style-type: none"> • has ensured that the Digital Strategy is aligned with wider corporate priorities and that it has been informed by a range of sources, including public engagement; • recognises the importance of partnership working and collaborates with a range of partners; • has resourced the digital strategy in the shorter term but needs to identify funding for the medium and / or longer term; • has arrangements for the development and monitoring of digital projects, but that these need to be followed consistently and ensure that evaluation takes place to fully identify and realise benefits and efficiencies alongside the development of better ways of working. <p>The areas covered by the recommendations are as follows:</p> <p>R1 - Approach to collaboration R2 – Understanding the resource implications of the Digital Strategy R3 – Identifying and monitoring intended savings R4 – Assessing and monitoring impact</p>
1.05	<p>Response</p> <p>In order to meet the recommendations, the Council intends to undertake the key actions outlined in Appendix 4 which have been summarised below and will ensure that we are able to continue to develop and deliver better value for money as part of the delivery of the Digital Strategy.</p> <p>R1 - Approach to collaboration <i>To ensure that it identifies opportunities to improve the value for money of its strategic approach to digital the Council should map out the organisations it could collaborate with in delivering its digital strategy and assess the potential benefits of opportunities it identifies.</i></p>

The Council already works with some partners e.g. the Good Things Foundation to provide free data SIM cards. However, there isn't a full list and comprehensive map of partners and where they might be able to help.

Response - The Council will produce a map of current partner organisations as well as detailing other organisations we may be able to partner with to help achieve the aims of the digital strategy. The map will outline key benefits of working with these organisations and will be shared corporately so it can be used across all service areas.

R2 – Understanding the resource implications of the Digital Strategy

To help ensure its next digital strategy is deliverable and to be able to monitor the value for money of its strategic approach the Council should identify the medium and long-term resource implications of delivering its strategy.

The Digital Strategy Action Plan identifies which projects are funded and which are not. We reviewed the action plan recently to remove the majority of projects which were unfunded. The degree of precision around funding requirements increases as the project gets closer to implementation, conversely medium to long term projects have less detail.

Response - The Council will make changes to the business case process for DSB to ensure that it is able to better identify areas where there are longer-term benefits and resource implications, whilst ensuring that it reviews all of the information gathered to inform the next iteration of Digital Flintshire.

R3 – Identifying and monitoring intended savings

To help monitor the extent to which digital projects and its overall strategic approach to digital are providing value for money the Council should identify potential savings associated with digital projects and monitor the extent to which these are achieved.

Hitherto digital projects have primarily been focussed on improving customer experience or access. The business case for new projects now requires all projects to identify the savings to be delivered (except in exceptional circumstances). An accountant is allocated to the DSB who will feed data on savings proffered into the pre-existing processes for predicting savings and monitoring their delivery.

Response – the Council will amend processes at its DSB to ensure there is greater level of challenge around identifying and monitoring savings. The Council will make amendments to key operational documents to ensure that this can be facilitated. The Council will review completed projects, including reports on costs and savings and the sharing of reflections / lessons learned.

R4 – Assessing and monitoring impact

To better understand the overall impact of its digital strategy and monitor value for money, the Council should strengthen arrangements for measuring the effectiveness and impact of digital projects and its overall strategic approach.

	<p>We currently have largely anecdotal feedback on the outcomes of projects and reports back to DSB when a project has completed as part of the relevant theme update. For example, the digital blog shows the results of completed projects. That approach needs to be formalised and standardised. It also needs to encompass the savings tracking identified above.</p> <p>Response – The Council will further develop and implement standardised operational project documentation which will allow it to review and assess impact and effectiveness at a strategic level.</p>
--	---

2.00	RESOURCE IMPLICATIONS
2.01	<p>Work is continually ongoing to ensure that the projects and ambitions within the strategy have accurate costings assigned; this will create a funding plan and ensure that any potential funding gaps are identified as early as possible.</p> <p>It is already clear that the level of ambition within the Council and expectation from residents outstrips the available funding and capacity of the IT Service to support new projects alongside day-to-day delivery and necessary renewals of software/hardware (so called “keeping the lights on”). Only those projects which are a clear priority can be taken forward and portfolios will assist in prioritising and managing conflicting priorities.</p>

3.00	CONSULTATIONS REQUIRED/CARRIED OUT
3.01	<p>Corporate Resources Overview and Scrutiny Committee will receive this report as part of their scrutiny role. It will comment on whether the proposed actions are the right ones to meet the recommendations, whether any more could be done etc.</p> <p>Cabinet will receive this report for approval of the action plan.</p>

4.00	RISK MANAGEMENT				
4.01	<p>Digital Strategy - Ways of Working (Sustainable Development) Principles Impact</p> <table border="1" style="width: 100%;"> <tr> <td style="width: 50%;">Long-term Prevention</td> <td style="width: 50%;">Positive</td> </tr> <tr> <td></td> <td>Recognising that our population is aging and becoming more diverse, digital services mean more focus can be given to supporting those more in need of support. Recognising the threat of climate change, more flexible working practices mean less</td> </tr> </table>	Long-term Prevention	Positive		Recognising that our population is aging and becoming more diverse, digital services mean more focus can be given to supporting those more in need of support. Recognising the threat of climate change, more flexible working practices mean less
Long-term Prevention	Positive				
	Recognising that our population is aging and becoming more diverse, digital services mean more focus can be given to supporting those more in need of support. Recognising the threat of climate change, more flexible working practices mean less				

	journeys impacting on Co2 emissions and air quality.
Integration	Easy access to information and ability to easily manage day-to-day tasks digitally can help people to be self-reliant and prevent loss of independence.
Collaboration	Consultation results have underpinned the strategy and ongoing programmes of learning from feedback from citizens and users will inform future development.
Involvement	Benefits across the wellbeing goals from improved digital services e.g. an equal Wales. Working with our partners to deliver digital services that enable Health and Social Care Integration e.g. Single Point of Access (SPOA).
Well-being Goals Impact	
Prosperous Wales	Improving local infrastructure to support developing businesses. Helping local people gaining relevant skills.
Resilient Wales	Changing working practices and developing skills for more resilient services and communities as the population and climate changes in the long-term.
Healthier Wales	Timely access to information to ensure support can be provided promptly preventing further deterioration, supported by real time information.
More equal Wales	Flexible services, responsive to the needs of the most vulnerable.
Cohesive Wales	Supporting improved internet connectivity so that information is easily and reliably available to enable all communities to be well-connected, informed and involved in their local area.
Vibrant Wales	Ensuring all services and information are provided bilingually.

Globally responsible Wales	More digital services reduces the need for journeys and resources such as fuel and paper, reducing Co2 emissions and use of resources.							
Risks are logged, recorded and monitored by the Digital Strategy Board and included in the Corporate Risk Register where required.
