Under the Well-being of Future Generations (Wales) Act 2015, the Auditor General has a duty to examine the extent to which the public bodies covered by the Act have acted in accordance with the sustainable development principle when setting their well-being objectives and taking steps to meet them. The Auditor General must undertake an examination in each body at least once over each five-year reporting period, the current reporting period is May 2020 to May 2025.

The Setting of Well-being Objectives was a local study and Audit Wales undertook this work at Flintshire County Council during December 2023 and February 2024 and report was issued in June 2024.

The audit sought to answer the overall question;

‘To what extent has Flintshire acted in accordance with the sustainable development principle when setting its new well-being objectives?’

No formal recommendations were identified, however, four recommendations for improvement have arisen from this audit, with the Council providing an action plan in response to the recommendations for improvement.
