F2	Interim Funding Review		x	x	x		
F3	Task Force on Nature-Related Financial Disclosures	x	x	x	x	x	x

F1: Interim Investment Strategy Review and Implementation

What is it?

This relates to the ongoing interim investment strategy review we are carrying out and implementation of any agreed changes to the Investment Strategy of the Fund.

An interim investment strategy review is being undertaken in order to: formalise a plan to fully fund the WPP Sustainable Active equity; increase the liquidity of the available assets in order to help meet ongoing cashflow and Private Market capital drawdown requirements; and to consider the impact on climate related objectives from the above. Once agreed, any changes are expected to be implemented over a period of time in order to manage transition costs and liquidity.

Timescales and Stages

Agreement and Implementation of any changes	2024/2025 Q1 & Q2
---	-------------------

Resource and Budget Implications

The work will be led by Head of Clwyd Pension Fund, working with the Fund's Investment Consultant. The Investment Consultant's estimated costs in relation to this exercise are included in the 2024/2025 budget.

F2: Interim Funding Review

What is it?

In advance of the 2025 actuarial valuation, the Actuary will assess the funding position as at 31 March 2024 in order to prepare the Fund and employers for the potential contribution outcomes from the 2025 valuation.

In the context of the continued challenges on employer budgets it is appropriate that we consider the key funding metrics, which will involve the Actuary analysing the outlook for returns and the likelihood that average contributions would need to change at the next valuation. This analysis will assist us in understanding employer contribution affordability so that plans can be made considering the current funding position and the future outlook for returns and life expectancy. We believe that the life expectancy changes will likely be more significant than previously based on latest national trends. As in previous exercises, an interim valuation will facilitate earlier engagement for some employers than would otherwise be the case.

The 2024 interim review will be carried out in the same way as a full actuarial valuation process. It will allow us to update the contribution requirements for some employers where we need to and this is allowed under the LGPS Regulations and Funding Strategy Statement. This will also be used to inform other policies e.g. assumptions (including life expectancy changes) to be used when employers leave the Fund.

This analysis will assist the Fund to understand employer contribution affordability and budgets so that plans can be made considering the funding position at that point and the outlook for returns. The interim valuation and analysis will also involve discussions with our employers and in particular the Steering Group with representatives from the major Councils. It will also include a review of data quality to feed into the 2025 valuation discussions.

Timescales and Stages

Initial engagement with employers to assess affordability and budgeting outlook	2024/2025 Q2 & Q3
Carry out interim funding review (including data quality)	2024/2025 Q3 & Q4
Results and discussion with employers	2024/2025 Q3 & Q4

Resource and Budget Implications

This exercise will be led by the Fund Accountant. It will be performed by the Fund Actuary, with input from both the Clwyd Pension Fund Administration and Finance teams. An allowance has been made in the 2024/2025 budget for the full interim review and associated tasks.

F3: Task Force on Nature-Related Financial Disclosures (TNFD)

What is it?

The TNFD have released nature-related financial disclosure recommendations to help organisations provide better information to support informed capital allocation. We will look to conduct mapping of our listed equity portfolio against the priority sectors that the TNFD have identified and investigate our exposure to a range of Nature Capital themes in our private market portfolio.

Once this work has been undertaken, the Committee will receive training on TNFD and review the findings of the analysis. Following this work and additional training, the Investment Strategy Statement will be reviewed and updated, as appropriate, to formally document our approach to TNFD.

Timescales and Stages

Priority Sector Mapping & Private Market themes analysis	2024/2025 Q1 & Q2
TNFD training for Committee	2024/2025 Q3
Review of Investment Strategy Statement	2024/2025 Q4

Resource and Budget Implications

The work will be led by the Head of Clwyd Pension Fund, working with the Fund's Investment Consultant. The Investment Consultant's estimated costs in relation to this exercise are included in the 2024/2025 budget.
